1. Description of Plan

The following description of the Eric Mower and Associates, Inc. Tax-Deferred Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

During 2012, plan assets from an acquired company were merged into the Plan. Transferred net assets of approximately $3,174,000 have been recognized in the accounts of the Plan at the balances previously carried in the accounts of the acquired entity's plan and are included in the statement of changes in net assets available for benefits.

General

The Plan is a defined contribution plan covering substantially all employees of Eric Mower and Associates, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has appointed the Administrative Committee of the American Association of Advertising Agencies Benefits, Inc. to hold the office of trustee. The Plan is part of the American Association of Advertising Retirement Fund for Member Agencies (the AAAA Fund). The AAAA Fund is organized as a 103-12 investment entity, as defined by 29 CFR-2520.103-12 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, and is a party-in-interest to the Plan. The trustee holds the Plan's investment assets and executes investment transactions for the Plan.

Contributions

Each year, participants may elect to contribute a portion of their compensation, subject to the maximum allowed by the Internal Revenue Service and as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Plan permits participants to make Roth 401(k) contributions. In addition, each participant may elect to contribute up to 100% of any cash bonus attributable to services performed by the participant. The Plan also provides a matching contribution at the discretion of the Board of Directors equal to a uniform percentage of the participant salary deferrals and based on years of service. The employer matching contribution for the year ended December 31, 2012 was $187,697.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary contributions, if eligible, and (b) plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. **Description of Plan** (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25% which are commensurate with prevailing interest rates determined by the Plan Administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Investment Options

Participants are offered a variety of investment options held by the 103-12 investment entity, including mutual funds and common/collective trust funds, in which they may invest. Participants may change their investment options at their discretion.

Payment of Benefits

On retirement, disability, death or other terminations of service, a participant may elect to receive the value of his or her account as a lump-sum amount, in installments, in partial withdrawals, or to defer payment until a later date in compliance with regulations. In service withdrawals are also permitted for certain financial hardships or when a participant attains age 59 ½. Benefits are recorded when paid.

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $1,211 and $1,040, respectively. These accounts are first used to pay administrative expenses, and remaining forfeitures are used to reduce any employer matching contributions. During 2012, forfeitures of approximately $15,000 were used to reduce administrative expenses.

2. **Summary of Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. **Summary of Accounting Policies** (continued)

Basis of Accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments held in the AAAA Fund are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan holds a benefit-responsive collective investment contract with Union Bond & Trust Company (Union). Union maintains the contributions in a pooled account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan by Union, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $2,529,577 and $1,685,884, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but it must not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. Certain events limit the Plan's ability to transact at contract value with Union. Such events may include, but are not limited to, the following:

2. **Summary of Accounting Policies** (continued)

Investment Valuation and Income Recognition (continued)

(1) fund administration is amended or changed, (2) merger or consolidation of investors, group terminations or layoffs, (3) implementation of an early retirement program, (4) termination or partial termination of the fund, (5) failure to meet certain tax qualifications, (6) participant communication that is designed to influence participants not to invest in the fund, (7) transfers to competing options without meeting the equity wash provisions of the fund, (8) and plan sponsor withdrawals without the appropriate notice to the fund and/or issuer. In the normal course of business, such events or conditions would not limit the ability of the fund to transact at contract value with the participants in the fund. The fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit Union to terminate the agreement prior to the scheduled maturity date, unless certain circumstances exist. These circumstances may include, but are not limited to, the following: (1) management of the portfolio is not in accordance with investment guidelines, (2) a breach of any material obligation under the wrap agreement, (3) any representation or warranty made by the contract holder becomes untrue in any material way, (4) a replacement of the Advisor without prior consent of the issuer, (5) the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

Average yields on the investment contract are as follows:

	2012	2011
Based on actual earnings	1.10%	1.80%
Based on interest credited to participants	1.10%	1.80%

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

2. Summary of Accounting Policies (continued)

Operating Expenses

As provided by the plan agreement, administrative expenses related to plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company.

Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with these investments, and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Accounting Pronouncements Adopted

In May 2011, the FASB released ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosures Requirements in the U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value* Measurement. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Not 3 for the effect of the adoption.

Accounting Pronouncements Not Yet Effective

In October 2012, FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related for fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adopting of ASU 2012-04 is not expected to have a material effect on subsequent periods.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted market prices, which represent the net asset value of attributable shares to the Plan and held in the 103-12 investment entity on the last day of the plan year.

Level 2 Fair Value Measurements

The collective trust investment is an investment security valued at net asset value which approximates fair value using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2012, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 investments as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2012, there were no significant transfers into or out of Level 3 investments.

The following table sets forth additional disclosures of the Plan's Level 2 investments whose fair value is estimated using the net asset value per share (or its equivalent) as of December 31, 2012 and 2011.

Mutual funds	$ 2,325,099
Collective trust investment	19,486
	$ 2,344,585

5. AAAA Fund 103-12 Investment Entity Allocation

The Plan's interest in the assets of the AAAA Fund is included in the accompanying statements of net assets available for benefits. The AAAA Fund had 85 and 86 participating plan sponsors as of December 31, 2012 and 2011, respectively. As of December 31, 2012 and 2011, the Company had a 7.37% and 6.51% interest, respectively, in the AAAA 103-12 investment entity fund. The Plan's interest in the 103-12 investment entity fund will fluctuate based on the investment elections made by the Plan's participants and the fair value of the investments held by the Plan's participants in relation to the fair value of all investments held by the 103-12 investment entity fund. A summary of the assets of the AAAA Fund as of December 31 is as follows:

	2012	2011
103-12 investment entity assets:		
Equity mutual funds	**$ 292,267,030**	$ 241,255,838
Common/collective trust funds	**64,462,977**	62,761,537
Accrued administration fee	**(84,320)**	(86,131)
	$ 356,645,687	$ 303,931,244

The AAAA Fund's investment gain allocated to the participating plans for the year ended December 31, 2012 was $30,983,228. The Plan's share of the investment gain is based on the investment gain of the investments held by the Plan's participants.

6. Information Certified by the Trustee

The trustee of the Plan, American Association of Advertising Agencies Benefits, Inc. has certified to the plan administrator that it has made a direct filing with the Department of Labor as required under 29 CFR-2520.103-12 for the AAAA Fund. Accordingly, the plan administrator has elected the alternative method of compliance permitted by 29 CFR-2520.103-12 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011 and for the year ended December 31, 2012, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by American Association of Advertising Agencies Benefits, Inc., the trustee, and furnished to the Plan Administrator. The plan administrator has obtained a certification from the trustee that the information provided by the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-12 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

6. **Information Certified by the Trustee** (continued)

	December 31, 2012	December 31, 2011
Investments (at fair value):		
Mutual funds	$ 23,345,357	$ 17,801,017
Collective trust invesment	2,529,577	1,685,884
	$ 25,874,934	$ 19,486,901

The trustee also certified to the completeness and accuracy of interest and dividends and net appreciations in fair value of investments for the year ended December 31, 2012 of approximately $723,000 and $2,345,000, respectively, as well as all items and amounts included within the supplemental schedule and Notes 3,4, and 5.

7. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

8. **Related-Party Transactions**

The American Association of Advertising Agencies Benefits, Inc. is the trustee as defined by the Plan, and, therefore, administrative fees paid by the Plan qualify as party-in-interest transactions. Administrative fees paid by the Plan amounted to approximately $20,000 for the year ended December 31, 2012.

9. **Tax Status**

The IRS has determined and informed the company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

10. Subsequent Events

Subsequent events were evaluated through October 14, 2013, which was the date the financial statements were available to be issued.
