Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Dunn Tire LLC Savings and Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company of New York, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following summary of Dunn Tire LLC Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. A summary of the Plan's provisions are as follows:

General:

The Plan is a defined contribution retirement plan covering substantially all employees of Dunn Tire LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan, monitoring investment performance and the appropriateness of the Plan's investment offerings.

The Plan is administered pursuant to a group annuity contract with John Hancock Life Insurance Company of New York (John Hancock).

Eligibility:

Employees who have attained the age of twenty-one and have completed six months of service are automatically enrolled in the Plan unless otherwise directed by the employee, at a contribution rate of 2% of their compensation. Participants may modify their voluntary deferral percentages at their discretion.

Contributions:

Participants may contribute up to 100% of their compensation to the Plan subject to limits imposed by the Internal Revenue Code (IRC). The Company makes matching contributions equal to 25% of a participant's contributions up to 4% of that participant's annual compensation. The Company may also make additional discretionary contributions. No additional discretionary contributions were made during 2012 or 2011.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts:

Each participant's account is credited with the participant's contributions, Company contributions and, allocations of investment earnings and charged with benefit payments, related fees, loan origination fees and, an allocation of other administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

All participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in Company contributions and earnings thereon over a two-year period.

Note 1. Plan Description (Continued)

Forfeited accounts:

Forfeitures of contributions not vested in participant accounts because of terminations are used to reduce future Company contributions. Forfeited amounts reduced Company contributions by $171 and $331 for the years ended December 31, 2012 and 2011, respectively. As of December 31, 2012 and 2011, forfeited nonvested accounts totaled $67 and $125, respectively.

Notes receivable from participants:

Participants may borrow a minimum of $500 per loan up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the vested balance in the participant's account, bear interest at the prime rate plus 1%, and are payable over a maximum term of five years. Principal and interest is paid ratably through payroll deductions. Participants may be granted three loans during any one-year period. Three loans may be outstanding at a time. All loans must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over the term of the loan.

Payment of benefits:

Benefits are payable upon death, disability, retirement, or the event of a hardship. A participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses related to fund management are included in net appreciation (depreciation) of fair value of investments.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition:

Pursuant to the group annuity contract with John Hancock, the Plan offers a series of pooled separate accounts to participants. These pooled separate accounts are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition (continued):

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. No liability was required to be recorded at December 31, 2012 and 2011.

Payment of benefits:

Benefits to participants or beneficiaries are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 7, 2013, which is the date the financial statements were available to be issued.

Note 3. Plan Asset Information Certified by the Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by John Hancock, the custodian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the assets of the Plan that have been certified by the custodian at December 31, 2012 and 2011. Assets that represent 5% or more of the Plan's net assets available for benefits at either December 31, 2012 or 2011 are separately identified as follows:

	$ **4,010,801**	$ 3,632,925

* Designates a guaranteed income feature

John Hancock has also certified to the completeness and accuracy of the following financial information for the years ended December 31, 2012 and 2011:

	2012	2011
Net appreciation (depreciation) in the fair value of investments	$ **465,878**	$ (174,100)
Interest income on notes receivable from participants	**13,375**	12,395
	$ **479,253**	$ (161,705)

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Pooled separate accounts are valued at the net asset value (NAV) of units. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the underlying investments, the investment advisor reserves the right to temporarily delay withdrawal from the pooled separate accounts to ensure that securities liquidations will be carried out in an orderly business manner. Funds with a guaranteed income feature are not fully-benefit responsive.

The preceding method described may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012 and 2011:

*** John Hancock's short-term trading policy permits a maximum of two exchanges per calendar month. After the exchange limit, participants may move 100% of their account to a money market or stable value fund (as available under the contract) where it must remain for thirty days. Trading can resume only once the thirty days has expired. Also, additional restrictions may be imposed if it is determined that any exchange activity may disrupt or be potentially disruptive to an investment option, even though in compliance with their policy.

Note 4. Fair Value Measurements (Continued)

The investing objectives of the pooled separate accounts are primarily as follows:

Asset allocation – lifestyle: consists of five portfolios (conservative, moderate, balanced, growth and aggressive) offering varying levels of risk and return potential. Asset allocations within the portfolios are blended between stocks and bonds.

Asset allocation – lifecycle: consists of nine portfolios which seek total return through its target retirement date, with a greater focus on income beyond that date. Under normal market conditions, the portfolio will invest primarily in an array of underlying funds, using an asset allocation strategy designed for investors who expect to retire in the target retirement date and remain invested in the portfolio throughout their retirement years.

Growth and aggressive growth: consists of mutual funds whose objective is to maximize long-term capital growth, rather than dividend income, by investing in narrow market segments and small company stocks. Growth and aggressive growth funds are designed for maximum capital appreciation and generally invest in companies with high growth rates.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The Plan is exempt from Federal income taxes under Section 401(a) of the IRC. The IRS has determined and informed the Company by a letter dated July 22, 2003, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Party-In-Interest Transactions

Parties-in-interest are defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. Certain notes receivable from participants and income thereon qualify as party-in-interest transactions.

Certain Plan investments consist of units of pooled separate accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, transactions with John Hancock qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to John Hancock in the amount of $23,037 and $20,703 for December 31, 2012 and 2011, respectively, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

Note 9. Identification of an Administrative Error

In 2013, the Company discovered an administrative error in the auto-enrollment feature of the Plan. This error resulted in certain eligible employees of the Company being excluded from the Plan. While the dollar amounts involved were not significant, the Company intends to take corrective action in accordance with applicable regulations and has initiated new processes to prevent reoccurrence of the error.
