Kaydon Corporation Retirement Plan

Notes to Financial Statements

Note A: Description of the Plan

The Kaydon Corporation Retirement Plan (the "Plan") is a defined benefit plan providing retirement income for all full-time employees of Kaydon Corporation, Kaydon Ring & Seal, Inc., Industrial Tectonics, Inc. and Kaydon Custom Filtration Corporation who are not covered by a collective bargaining agreement, provided retirement benefits are a part of the division-specific benefit package. The Plan is sponsored by Kaydon Corporation (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The amount of benefits to be provided at the time of retirement for these participants depends upon the participant's age, years of service, compensation and retirement date. The Plan also provides for early retirement, disability retirement, deferred vested retirement and surviving spouse benefits. Participants should refer to the Pension Plan Handbook for more complete information. The Plan was amended in 2009 to limit participation to eligible employees whose most recent hire date is on or before March 14, 2009.

Note B: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

Estimates are required to be used by management in the preparation of financial statements in conformity with generally accepted accounting principles that affect the reported amounts of assets, liabilities and plan benefit obligations, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions, deductions and changes in plan benefit obligations during the reporting period. Management believes its estimates to be reasonable; however, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by the trustee of the Plan. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The fair value of the Plan's interest in the Kaydon Corporation Retirement and Pension Plan Master Trust (the "Trust") is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. See Note D: Interest in Kaydon Corporation Retirement and Pension Plan Master Trust for additional discussion on fair value methodologies.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through September 20, 2013 the date the financial statements were available to be issued.

Note C: Funding Policy

The Company's funding policy is to contribute the minimum required employer contribution as defined in the Internal Revenue Code Sections 412 and 430, as amended from time to time. There were no contributions made for the plan year ended 2012. The Company made contributions of \$5,743,413 for the year ended December 31, 2011, which satisfied the minimum funding requirements of the ERISA.

Note D: Interest in Kaydon Corporation Retirement and Pension Plan Master Trust

The assets of the various Kaydon Corporation pension plans are combined in the Kaydon Corporation Retirement and Pension Plan Master Trust (the "Trust"). Each of the plans holds an undivided interest in the assets of the Trust. Investment income is allocated between the plans on the basis of each plan's proportionate interest in the assets of the Trust. At December 31, 2012 and 2011, the Plan's interest in the Trust was approximately 49% and 56%, respectively.

The Trust is administered under the terms of a trust agreement between the Company and The Northern Trust Company (the "Trustee") which provides, among other things, that the Trustee shall manage investments of the Trust pursuant to directions of authorized investment advisors and shall keep account of all receipts and disbursements, benefit payments and other transactions and shall provide annually a report setting forth such transactions and the status of the Trust at the end of the period.

The following table presents the fair values of assets in the Trust. Investments that represent 5% or more of the Trust's net assets are separately identified.

Fair Value Measurements

FASB ASC 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common/Collective Trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E: Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company, the Trustee for the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate.

- Assets in the trust fund amounting to \$64,774,582 and \$61,239,668 at December 31, 2012 and 2011, respectively.
- Net investment income of \$9,570,541 and \$1,038,028 for the years ended December 31, 2012 and 2011, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements

Note F: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum service distributions, attributable under the Plan's provisions to the participants for services that have been rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated plan participants or their beneficiaries.

The actuarial present value of accumulated plan benefits for the year ended January 1, 2012, the date of the latest available actuarial valuation, was determined by the Plan's actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Actuarial Assumptions

The significant assumptions used in the valuation for the year ended January 1, 2012 are as follows:

Actuarial method	Standard Unit Credit Cost Method
Discount Rate	5.13% for 2012 and 5.65% for 2011
Rate of Return	7.70% per annum
Mortality Tables	
Healthy lives	RP-2000 Combined Healthy Mortality Table Projected with Scale AA to 2012
Disabled lives	RP-2000 Disabled Retiree Mortality Table
Retirement age	Actives – Retirement rates starting at age 55; Terminated vested - age 64
Salary Scale	Age-graded salary scale with a weighted average of 3.7% for 2012 and 4.0% for 2011

Kaydon Corporation Retirement Plan

Notes to Financial Statements – Continued

Note F: Actuarial Present Value of Accumulated Plan Benefits - Continued

The forgoing actuarial assumptions are based on the assumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits for those benefits related to the Plan are as follows:

	2012	January 1, 2011
Vested benefits:		
Participants currently receiving payments	\$ 27,446,443	\$ 25,944,261
Other participants	40,733,291	33,532,545
Total vested benefits	68,179,734	59,476,806
Nonvested benefits	1,487,495	1,481,547
Total actuarial present value of accumulated plan benefits	\$ 69,667,229	\$ 60,958,353

The net change in the actuarial present value of accumulated plan benefits for those benefits related to the Plan is as follows:

	2012	Years ended January 1, 2011
Actuarial present value of accumulated plan benefits, beginning of year	\$ 60,958,353	\$ 54,465,758
Increase (decrease) during the year due to:		
Benefit payments	(2,516,766)	(2,493,581)
Benefits accumulated	1,559,082	1,888,451
Interest accumulation	3,373,995	3,247,483
Changes in assumptions	6,292,565	3,850,242
Net increase	8,708,876	6,492,595
Actuarial present value of accumulated plan benefits, end of year	\$ 69,667,229	\$ 60,958,353

Note G: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- 1) All outstanding administrative expenses of the Plan.
- 2) Monthly benefits attributable to participants who were retirement-eligible at least three (3) years prior to the termination date, whether or not benefits were in payment status, and whether or not a monthly benefit is payable to the participant or to his/her beneficiary.
- 3) Vested benefits insured by the Pension Benefit Guarantee Corporation ("PBGC") up to the applicable limits and payable to:
 - a) Participants who had terminated employment prior to the termination date,
 - b) Active participants, and
 - c) Beneficiaries of all such participants if the participant had died prior to the termination date.
- 4) All other vested benefits (that is, vested benefits not insured by the PBGC).
- 5) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations.

Note H: Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 13, 2012 that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). On September 6, 2012 the Plan was amended to provide for a special 45-day election period whereby certain deferred vested participants were allowed to elect a lump sum distribution from the Plan. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) of disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note I: Plan Amendment

On September 6, 2012 the Plan was amended to create a 45-day election period to allow eligible participants the option of receiving a lump-sum distribution from the Plan. The election period began October 1, 2012 and closed 45 days thereafter and was available to all participants who, as of July 31, 2012, were:

- 1) A terminated vested former active participant;
- 2) A surviving spouse of a participant with a benefit under the Plan; or
- 3) An alternate payee of a terminated vested former active participant pursuant to a qualified order with a benefit under the Plan.

Approximately 60% of eligible participants elected to participate resulting in lump sum payments of \$7,229,261 on the settlement of future benefits through the distribution of assets from the Plan. These payments are included in "Benefit paid to participants" in the statement of changes in net assets available for benefits.

Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2011 Pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$200,000 and the IRC section 401(a)(17) compensation limit of \$250,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2010 Plan Year	7.70%, limited to 6.76%

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the salary increase assumption from a table of rates grading from 11.5% to 3% to a table of rates grading from 10% to 2.5%.

This change was made to better reflect anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the salary increase assumption from a table of rates grading from 11.5% to 3% to a table of rates grading from 10% to 2.5%.

This change was made to better reflect anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
