INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
the Aluminum Precision Products, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Aluminum Precision Products, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Aluminum Precision Products, Inc. Employee Stock Ownership Plan as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012, referred to as "supplemental information", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

ALUMINUM PRECISION PRODUCTS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan:

The following brief description of the Aluminum Precision Products, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

Aluminum Precision Products, Inc. (the Company) established the Plan effective as of January 1, 2009. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company has appointed individuals to serve on an ESOP Committee to assist the trustee in discharging their responsibilities under the Plan. The Plan's trustee is North Star Trust Company.

In September 2012, the Company entered into an internally financed indirect loan with the Plan, which converted the Plan to a leveraged ESOP. The Company loaned the Plan $30,000,000, which the Plan used to acquire all the outstanding preferred shares held by the stockholders of the Company. The borrowing requires payments of principal plus interest at 5%.

The Company will make discretionary annual contributions to the Plan as well as pay dividends on the preferred shares. All dividends received by the Plan will be used to pay debt service. The borrowing is collateralized by the unallocated shares of Company stock. As the debt is repaid, shares are released from collateral using the principal and interest method and allocated to active employees, based on the proportion of debt service paid in the year.

Eligibility:

Active employees of the Company participating in the Company's 401(k) plan automatically become a participant in the Plan. Participants who do not have at least 1,000 hours of service during a Plan year or are not employed on the last day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Note 1. Description of the Plan: (continued)

Payment of Benefits:

Distributions from the Plan are made when a participant retires, dies, or otherwise terminates employment with the Company. Distributions are made in cash, in shares of Company stock, or partly in each. The ESOP Committee decides the exact form of distribution.

Participants may make in-service withdrawals in accordance with the provisions outlined in the Plan document.

In the event a terminated Plan participant decides to sell his or her share of the Company stock, the Company may be required to repurchase the shares from the participant at fair market value. The Company did not make any purchases of stock from Plan participants during the year ended December 31, 2012.

Voting Rights:

With respect to certain extraordinary transactions such as merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the Company's assets, each participant is entitled to exercise voting rights attributable to the shares of Company stock allocated to his or her account. In other circumstances, the trustee is to vote shares of Company stock held by the Plan.

Plan Termination:

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code.

Participant Accounts:

A separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of contributions made to the Plan, forfeitures of terminated participant's nonvested accounts, and Plan earnings or losses. Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings or losses are allocated to each participant's account balance based on account balances.

Note 1. Description of the Plan: (continued)

Vesting:

Partial vesting of 20% occurs after completion of two years of qualifying service and increases 20% per year until the participant is 100% vested. The death, disability or qualifying retirement of a participant during service results in 100% vesting, as does termination of the Plan.

Put Option:

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock.

Diversification:

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares of Company stock allocated to his or her account, less any amounts previously withdrawn. In the sixth year, the percentage changes to 50%.

Note 2. Summary of Significant Accounting Policies:

Date of Management's Review:

Subsequent events were evaluated through October 14, 2013, which is the date the financial statements were available to be issued.

Basis of Accounting:

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies: (continued)

Use of Estimates:

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Operating Expenses:

All expenses of maintaining the Plan are paid by the Company.

Note 3. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements: (continued)

The following table presents fair value measurement information for the Plan's investments in Company stock. The carrying values of the receivables, cash and interest payable included in the accompanying statements of net assets available for benefits approximated fair value at December 31, 2012 and 2011, and thus are not included in the following table.

		Fair Value Measurements at End of Reporting Period Using
	Fair Value	Significant Unobservable Inputs (Level 3)
December 31, 2012		
Company stock	$36,757,223	$36,757,223
December 31, 2011		
Company stock	$10,114,560	$10,114,560

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 3 Fair Value Measurements

The fair value of the Company stock is determined by an annual independent appraisal.

Note 3. Fair Value Measurements: (continued)

The following table provided further details of the Level 3 fair value measurement:

Year Ended December 31, 2012:	Company Stock
Beginning Balance	$10,114,560
Purchases	30,000,000
Total gains or losses included in changes in net assets available for benefits	(3,357,337)
Ending balance	$36,757,223

Year Ended December 31, 2011:	Company Stock
Beginning Balance	$0
Purchases	9,600,000
Total gains or losses included in changes in net assets available for benefits	514,560
Ending balance	$10,114,560

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2012 and 2011 are reported in net unrealized appreciation in fair value of investments.

Note 4. Subsequent Event:

The Internal Revenue Service determined and informed the Company by a letter dated September 24, 2013, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code.
