Note 1. Plan Description

The following brief description of the Metro Infectious Disease Consultants, LLC Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Metro Infectious Disease Consultants, LLC, Heartland Home Infusions DBA HHI Infusion Services, Florida HHI Infusion Services and Innovative Ventures (collectively, the Company) who are not members of a collective bargaining unit, have attained 21 years of age and completed six months of service for purposes of elective deferrals and Company Matching contributions and one year of service for Company Profit Sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Eligible employees may contribute up to the maximum allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a discretionary matching contribution to the Plan equal to a discretionary percentage to be determined by the Company, of the participants' elective contributions. There were no discretionary matching contributions for the year ended December 31, 2012. Profit sharing contributions may be made at the option of the Company's Board of Directors. Profit sharing contributions amounted to $561,862 for the year ended December 31, 2012. Contributions are subject to limitations.

Participant accounts: Each participant's account is credited with the participant's contribution, the discretionary Company matching contributions if any, and receives allocations of the Company's discretionary contribution, Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.

Investment options: Upon enrollment in the Plan, a participant may direct their account balance in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding note balance on their account during the prior 12-month period, or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 7.25 percent, which is determined by the Plan Administrator. Notes may not exceed five years unless the purpose of the loan is to acquire a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may make in-service withdrawals in cases of financial hardship only and may not withdraw an amount greater than the amount that the participant has contributed to their account.

Forfeited accounts: At December 31, 2012 and 2011, forfeited nonvested accounts totaled $5,607 and $5,065, respectively. These accounts will be reallocated to eligible participants. During 2012, no forfeitures were reallocated.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Trustees determine the Plan's valuation policies utilizing information provided by investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standard Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 4 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Reclassifications: Amounts previously shown have been reclassified to conform to the current year presentation.

Note 3. Information Certified or Provided by ING Institutional Plan Services, LLC, the Recordkeeper of the Plan, as Agent for Reliance Trust Company, the Custodian

The following is a summary of the Plan's asset and income information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the agent of the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the agent of the custodian that information provided to the Plan Administrator by the agent of the custodian related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income:

	2012	2011
Shares of registered investment companies	$ 15,179,831	$ 11,783,799
Common stocks	1,071,158	360,889
Corporate bonds	-	52,743
Notes receivable from participants	255,762	310,764
Net appreciation in fair value of investments	1,402,323	
Interest and dividends	269,334	
Interest income on notes receivable from participants	14,006	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 3.

Note 5. Investments

The following table presents the fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2012 and 2011.

During 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $1,402,323 as follows:

Shares of registered investment companies	$ 1,358,770
Common stocks	43,553
	$ 1,402,323

Note 6. Related Party Transactions

Certain Plan investments are managed by ING, an affiliate of the recordkeeper, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the recordkeeper were $2,450 for the year ended December 31, 2012.

Certain employees of the Company are performing services for the Plan and are not compensated by the Plan. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Income Tax Status

The Internal Revenue Service has informed the Company by a letter dated June 30, 2004, that the Plan is designed in accordance with applicable sections of the internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is currently being operated in accordance with the applicable sections of the IRC.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Note 10. Prohibited Transactions

During 2009 through 2012, the Company failed to deposit $1,576,313 of participant deferrals within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. Lost earnings in the amount of $1,963 were calculated and deposited into the Plan on October 11, 2012. Lost earnings for additional late deposits that occurred after May 11, 2012 will be calculated and deposited in 2013.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12. Subsequent Events

Effective January 1, 2013, the Plan has adopted a nonstandarized form of a plan by ING Life Insurance and Annuity Company, and changed its name to Metro Infectious Disease Consultants, LLC Profit Sharing Plan.

Effective January 28, 2013, the custodian was changed from Reliance Trust Company to ING National Trust.

Plan management has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2013, the date the financial statements were available to be issued.
