Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of the NetShape Technologies, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, NetShape Technologies, Inc. (Company).

General

The Plan is a defined contribution plan sponsored by the Company for the benefit of eligible employees following the completion of three months of service. Related employers who also participate in the Plan include Sinterloy Corporation, Allegheny Clearfield Incorporated, Helsel, Inc., Hawk MIM, Inc. and NetShape Technologies, LLC. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75 percent of eligible compensation. Employee rollover contributions are also permitted. For the period from July 1, 2011, through December 31, 2012, the Company made discretionary matching contributions of 50 percent of employees' salary deferrals on the first 4 percent of employees' compensation. The Plan made no discretionary matching contributions for the period from January 1, 2011, through June 30, 2011. Additional nonelective Company contributions are discretionary as determined by the Company's board of directors. No discretionary nonelective contributions were made to the Plan in 2012 or 2011. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

The Plan Document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Administrative expenses are charged to specific participants' accounts, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Vesting

Participants are immediately vested in their voluntary and safe-harbor Company matching contributions, plus earnings thereon. Participants are fully vested in the Company's nonelective contributions, plus earnings thereon, after three years of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the vested value of his or her account.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Plan Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter defined contribution plan document sponsored by Fidelity Management Trust Company. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan was qualified and the related trust was tax exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state, local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The following table presents the Plan's investments. Investments that represent 5 percent or more of the Plan's net assets available for benefits are separately identified.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of the NetShape Technologies, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, NetShape Technologies, Inc. (Company).

General

The Plan is a defined contribution plan sponsored by the Company for the benefit of eligible employees following the completion of three months of service. Related employers who also participate in the Plan include Sinterloy Corporation, Allegheny Clearfield Incorporated, Helsel, Inc., Hawk MIM, Inc. and NetShape Technologies, LLC. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75 percent of eligible compensation. Employee rollover contributions are also permitted. For the period from July 1, 2011, through December 31, 2012, the Company made discretionary matching contributions of 50 percent of employees' salary deferrals on the first 4 percent of employees' compensation. The Plan made no discretionary matching contributions for the period from January 1, 2011, through June 30, 2011. Additional nonelective Company contributions are discretionary as determined by the Company's board of directors. No discretionary nonelective contributions were made to the Plan in 2012 or 2011. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

The Plan Document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Administrative expenses are charged to specific participants' accounts, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Vesting

Participants are immediately vested in their voluntary and safe-harbor Company matching contributions, plus earnings thereon. Participants are fully vested in the Company's nonelective contributions, plus earnings thereon, after three years of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the vested value of his or her account.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2012 and 2011

Plan Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter defined contribution plan document sponsored by Fidelity Management Trust Company. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan was qualified and the related trust was tax exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state, local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

The following table presents the Plan's investments. Investments that represent 5 percent or more of the Plan's net assets available for benefits are separately identified.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:
