INDEPENDENT AUDITORS' REPORT

To the Retirement Committee of the
KRON/IBEW Local 45 Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of KRON/IBEW Local 45 Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the statements of accumulated plan benefits (modified cash basis) as of January 1, 2012 and 2011, and the related statement of changes in accumulated plan benefits (modified cash basis) for the period from January 1, 2011 through January 1, 2012 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with the modified cash basis of accounting described in Note B; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by Bank of America, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note B of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedules of assets (held at end of year) (modified cash basis) as of December 31, 2012, and of reportable transactions for the year then ended (modified cash basis), which are the responsibility of Plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to, and we do not, express an opinion on the supplemental schedules (modified cash basis) referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules (modified cash basis), other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the KRON/IBEW Local 45 Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Each employee of KRON-TV, a division of Young Broadcasting, LLC. (the "Company"), who was a participant in the Plan on October 31, 1976, or was eligible to become a participant on November 1, 1976, is a participant in the Plan. Other employees become participants in the Plan on either January 1 or July 1 after completing one year of service, provided that they are members of The International Brotherhood of Electrical Workers Local Union 45, AFL-CIO-CLF. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). In accordance with the Bargaining Agreement dated August 8, 2005, the Company amended the KRON/IBEW Local 45 Pension Plan to freeze benefit accruals effective October 15, 2005. This amendment affects benefits earned through October 14, 2005. Benefits earned by members are based on continuous employment with the Company prior to November 1, 1976, and one year of credited service for each calendar year during which an employee works 1,000 or more hours on or after November 1, 1976. Effective October 15, 2005, no participant can earn any additional benefit accruals. If by October 14, 2005, a participant has earned seven (7) full years of vested service, they will be 100% vested in the pension benefit they have earned. If, by October 14, 2005, a participant has not yet earned seven (7) full years of vested service, the participant would be partially vested and during their employment with the Company may continue to earn credit for years of vested service.

The Plan is administered by the Retirement Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees. The trustee and recordkeeper of the Plan is Bank of America, and the actuary is Aon Hewitt.

Normal retirement is at age 65. Members may elect early retirement as early as age 55 with actuarially reduced benefits. Members may retire after age 65 and receive an actuarially increased benefit. Benefits are also paid to the surviving spouse (if married at least one year) and are equal to 50% of the normal retirement benefit, provided, however, that the member may make an election for his/her surviving spouse to receive a monthly retirement benefit in an amount equal to sixty-six and two-thirds percent (66-2/3%) or one hundred percent (100%) of the monthly retirement benefit payable to the participant during his/her lifetime, or effective for plan years beginning on or after January 1, 2008, the member may elect for his/her surviving spouse to receive a qualified optional survivor annuity ("QOSA") in lieu of the 50%, 66-2/3% or 100% survivor benefit. The QOSA is an annuity for the life of the participant with a survivor annuity for the life of the spouse that is equal to 75% of the amount of the annuity that is payable during the joint lives of the participant and the spouse, subject to certain limitations and actuarial reductions.

In the event that the Plan is terminated, the assets will be allocated to each participant in the amount equal to his/her actuarially determined liability. If the assets of the Plan are not and cannot be made sufficient to meet all liabilities, the allocation will be made in the following order of priority:

- a. Participants and surviving spouses of participants who were receiving retirement benefits as of the beginning of the three-year period ending on the date of termination of the Plan, or whose retirement benefits would have commenced to be paid at or prior to the above period had the participant retired.
- b. Participants and surviving spouses of participants whose rights to retirement benefits under the Plan are fully vested and nonforfeitable immediately prior to or upon termination of the Plan.
- c. Participants and surviving spouses of participants whose rights to retirement benefits under the Plan are fully vested and nonforfeitable upon termination of the Plan.

The maximum amount allocable to all persons described above shall be allocated to such persons before any allocation is made to the persons described in any succeeding preference.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") (a U.S. government agency) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The maximum guarantee is set by law and it is updated each calendar year. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. A statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2013, that ceiling is \$4,790 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). The amount is higher for those who retire later and lower for those that retire earlier or elect survivor benefits. Further limitations apply for plans created or amended to increase benefits within five years before the plan's termination date. PBGC guarantees the larger of 20% of the benefit increase, or \$20 per month for each full year the benefit increase was in effect.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements of the Plan are prepared and maintained on the modified cash basis. The modified cash basis of accounting is a cash basis that adjusts securities to fair value and does not provide for accrual for contributions receivables or payables. Interest and dividends are recorded when received.

Accordingly, the financial statements are not intended to present the net assets available for benefits and changes therein of the Plan in conformity with accounting principles generally accepted in the United States.

[2] Use of estimates:

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements and the actuarial present value of accumulated Plan benefits as of the beginning of the plan year. Actual results could differ from those estimates.

[3] Investment valuation and income recognition:

The fair value of the Plan's investments in common/commingled funds is based on unit values as determined by the fair value of the underlying assets of the funds. The Plan's investments in mutual funds are based on the quoted market prices which represent net asset value at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[4] Administrative expenses:

Reasonable expenses incurred in connection with the administration and operation of the Plan (for example, actuarial expenses and legal fees) may be paid by the Plan, and all other administrative expenses of the Plan are paid by the Company.

December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[5] Actuarial present value of accumulated plan benefits:

Accumulated Plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions for the service the employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participant's years of credited service and compensation earned until retirement. Benefits payable under all circumstances are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by an actuary from Aon Hewitt. It represents the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment (by means of decrements such as for death, withdrawal or retirement).

The significant assumptions underlying the actuarial computations at January 1, 2012 and 2011, remain unchanged as follows:

Interest rate	7.5%
Expected rate of return	7.5%
Mortality basis	2012 Combined Static Mortality Table for Small Plans Consistent with IRC 1.430(h) (3) - 1(e)
Retirement	Age 65
Asset Valuation	The Market Value of Assets

The foregoing actuarial assumptions are based on the presumption that benefits to the participants are frozen effective October 15, 2005, and the Plan will continue in its frozen status. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

[6] Benefit payments:

Benefit payments are recorded when paid.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Bank of America, the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012 and supplemental schedule of schedule of reportable transactions for the year ended December 31, 2012.

NOTE D - FUNDING POLICY

All contributions under the Plan shall be made by the Company in such amounts as shall be sufficient to fund the benefits provided under the Plan. The Company shall deliver its contributions to the trustee in one or more installments not later than the time prescribed by law for filing the Company's federal income tax return (including any extension thereof) for the plan year for which the contribution is made. Unless a plan qualifies for an exemption, quarterly installments toward the minimum required contribution are due no later than April 15, July 15, and October 15 of the plan year, and January 15 of the following plan year. A plan is exempt from the quarterly contribution requirements if it did not have a funding shortfall for the prior plan year. Quarterly requirements may be satisfied by a combination of contributions, and, if eligible, application of funding balances. Contributions to the Plan are made only by the Company, based on the actuarially determined amount necessary to fund normal cost and amortize the funding target shortfall. Each plan year's amortization installment is generally funded over a period of seven years; however, plan years 2010 and 2011 used fifteen years due to the election of pension relief. The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. During 2012 and 2011, the Company made contributions of \$938,349 and \$842,426, respectively.

Funding relief under the Pension Relief Act of 2010 was elected for the Plan for the 2010 and 2011 plan years. However, an "installment acceleration amount" was triggered during the 2012 plan year, making the Plan no longer qualified for funding relief under the Pension Relief Act of 2010. As a result, the 2012 minimum required contribution increased to reverse the funding relief impact obtained during 2010 and 2011 plan years. The 2013 contributions were allocated to the 2012 plan year to reduce the increased 2012 funding requirements. The 2013 contributions were not sufficient to cover the 2012 funding requirements and the Plan made no additional contributions by the cutoff date of September 15, 2013 causing an underfunded 2012 balance of approximately \$78,000. Such amount was funded on October 11, 2013.

NOTE E - ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE ("AFTAP")

The Pension Protection Act (the "Act") included many provisions and numerous revisions to rules surrounding defined benefit plans, including rules that govern plan funding. The Act established minimum funding standards for defined benefit plans and limited benefit increases and accruals for underfunded plans. Pursuant to the Act, each year the actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the 2012 plan year for the Adjusted Funding Target Attainment Percentage ("AFTAP"), which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2012 AFTAP for the Plan is 78.67%.

NOTE F - INVESTMENTS

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31,	
	2012	2011
Large Cap Enhanced Core Fund	\$ 3,827,025	\$ 3,408,582
Small Cap Enhanced Core Fund	704,564	647,900

NOTE F - INVESTMENTS (CONTINUED)

During 2012 and 2011, the Plan's investment income and loss (including investments purchased and sold as well as held during the year) as provided by the trustee, appreciated in fair value as determined by quoted market prices as follows:

	Net Appreciation in Fair Value of Investments Year Ended December 31,	
	2012	2011
Mutual funds	\$ 111,532	\$ (126,785)
Common collective trusts	<u>776,665</u>	<u>363,374</u>
	<u>\$ 888,197</u>	<u>\$ 236,589</u>

NOTE G - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") "Accounting Standards Codification, (ASC) 820, *Fair Value Measurements and Disclosures*," provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

KRON/IBEW LOCAL 45 PENSION PLAN

Notes to Financial Statements

(modified cash basis)

December 31, 2012 and 2011

NOTE G - FAIR VALUE MEASUREMENTS (CONTINUED)

Common collective trusts - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Fair Value Measurements at December 31, 2012

NOTE G - FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2012 and 2011, there were no transfers in or out of Levels 1, 2 or 3.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

Contributions are recorded on the Form 5500 on the accrual basis.

NOTE I - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated September 18, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and, therefore, the related trust is exempt from taxation under Code Section 501(a). Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

Prior to September 18, 2013, the Plan had a favorable determination letter dated August 14, 2008, which expired on January 31, 2012. On January 31, 2012, a new determination request was filed with the Internal Revenue Service (IRS) requesting the IRS to issue a favorable determination letter indicating that the Plan as amended and restated on December 28, 2011 continues to meet the requirements for qualifications under Section 401(a) of the IRS Code of 1986, as amended, and that the related trust continues to be tax-exempt under Section 501(a) of the Code.

Notes to Financial Statements

(modified cash basis)

December 31, 2012 and 2011

NOTE I - TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE J - PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of registered investment companies and common collective trusts managed by Bank of America. Bank of America is the Plan's trustee, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan were \$39,348 for the year ended December 31, 2012.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE L - MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE M - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2013, which is the date the financial statements were available to be issued, for possible disclosure or recognition in the financial statements. The Company is currently negotiating a potential merger with Media General. It is expected that the merger will be completed in the fourth quarter of 2013; however the merger will have no effect on the Plan, other than the change in the sponsor. The Plan has determined that there were no other such events or transactions that warrant disclosure or recognition in the financial statements.
