Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the CQE 401(k) Plan which are comprised of the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Bank and Trust, F.S.B, the trustee of the Plan, and by Prudential Retirement Insurance and Annuity Company, a qualified insurance institution of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and qualified insurance institution hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and the qualified insurance institution as of December 31, 2012 and 2011 and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee and qualified insurance institution is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and qualified insurance institution, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description and Summary of Significant Accounting Policies

The following description of the CQE 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2002 to qualify as a defined contribution retirement plan for Cal Quality Electronics, Inc.'s (the "Company") eligible employees. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Eligibility

No age or service is required to be eligible to participate in the Plan.

Contributions

Under the terms of the Plan, participating employees may contribute between 1% and 50% of their annual compensation not to exceed the amount allowable under federal limitations. Participants may also rollover amounts representing distributions from other qualified retirement or profit sharing plans. Also under the terms of the Plan, the Company may make a matching and/or discretionary contribution to each participant's account. To be eligible for a matching or discretionary contribution, the participant must have completed at least one hour of service during the Plan year, unless terminated, disabled or death occurs during the Plan year. The Company chose to make matching contributions for the year ended December 31, 2012, based on 25% of each participant's contribution up to the first 4% of their compensation.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's qualified matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their contributions, rollover contributions and earnings on their contributions. Participants shall become vested in their Company discretionary contribution, Company matching contributions and earnings on Company discretionary and matching contributions as follows:

Periods of Service for Vesting	Percent Vested
Less than one year	0%
One year but less than two years	33%
Two years but less than three years	66%
Three years or more	100%

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contribution accounts and earnings on Company contributions are used to reduce future Company contributions and/or pay Plan expenses. During the year ended December 31, 2012 no amounts were used to reduce Company contributions or to pay Plan expenses. As of December 31, 2012 and 2011 there were approximately $5,600 and $4,500 of forfeitures available for use, respectively.

Plan Benefits

Plan benefits are distributed in a lump sum or in the form of a deferred payout upon normal retirement age of 65, death or total disability prior to retirement. Upon termination of employment by reason other than retirement, death or total disability, a participant may request to receive a cash distribution of his or her account.

Active participants may withdraw any part of their account in a single sum in the event of undue financial hardship or attainment of age 59 ½. Withdrawals made under the provision of attaining age 59 ½ are limited to two such withdrawals in any twelve month period.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan trustee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Basis of Presentation

The accompanying financial statements for the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

As of December 31, 2011, the fair value of the fully benefit-responsive investment contract (Union Bank Stable Value Fund, a common/collective trust fund) was $568,729. The contract value of the investment contract at December 31, 2011 was $549,125. In 2012 this investment contract was terminated and the Plan entered into an investment in a guaranteed interest account.

The Plan is invested in the guaranteed interest account (Guaranteed Income Fund) which is a fully benefit-responsive investment contract. The Plan's investment contract in the Guaranteed Income Fund has a contract value which approximates fair value of $694,312 as of December 31, 2012, and therefore no adjustment is required.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Note 1. Plan Description and Summary of Significant Accounting Policies (continued)

Funding Policy

Contributions for participant deferrals and Company matching contributions are funded on a bi-weekly basis concurrent with each pay period.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated through October 15, 2013, the date the financial statements were available for issuance.

Note 2. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all amounts credited to their accounts.

Note 3. Tax Status

The Company has adopted a standardized prototype plan which obtained its latest opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision was made for federal income taxes in the accompanying financial statements.

Note 3. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Note 4. Investments

At December 31, 2012 and 2011, the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2012	**2011**
Common/collective trust fund		
Union Bank Stable Value Fund	$ ---*	$ 568,729

Franklin Mutual Global Discovery A	$ 204,381	$ 191,183

**Investment did not represent 5% or more of the Plan's net asset at the respective year end.*

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, by investment type, as follows:

	Year Ended December 31, 2012
Mutual funds	$ 191,065

Note 5. Information Certified by the Trustee and Qualified Insurance Institution

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Prudential Bank and Trust, F.S.B., the trustee of the Plan as of December 31, 2012 and 2011 and for the year ended December 31, 2012, and by Prudential Retirement Insurance and Annuity Company, a qualified insurance institution used by the Plan for the year ended December 31, 2012, as complete and accurate, except for comparing such information certified by the trustee and qualified insurance institution to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	December 31,	
	2012	**2011**
Common/collective trust fund (at contract value)*	$ ---	$ 549,125

Mutual funds	$ 1,971,416	$ 1,584,738
b) Notes receivable from participants**	$ 131,283	$ 81,680

**Investment in the Union Bank Stable Value Fund (common/collective trust fund) has been certified at contract value.*

***Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the trustee, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

c) Investment income and other additions

	Year Ended December 31, 2012
Interest and dividend income	$ 49,846
Net appreciation in fair value of investments	$ 191,065
Interest income from notes receivable from participants	$ 4,303

d) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held at End of Year)

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011:

Common/collective trust funds*:* These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Guaranteed interest account: These investments are part of the general assets of an insurance company. These investments are valued at contract value which represents the deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract value of these investments approximates fair value.

Mutual funds*:* These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Note 6. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2012 and 2011:

	Fair Value Measurements Using Input Type			
December 31, 2012	**Level 1**	**Level 2**	**Level 3**	**Total**

Total investments measured at fair value	$ 1,584,738	$ 568,729	$ ---	$ 2,153,467

Note 6. Fair Value Measurements (continued)

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

Year Ended December 31, 2012	Guaranteed Interest Accounts
Beginning balance	$ ---
Purchases	738,431
Net investment gains (losses)	6,640
Settlements	(50,759)
Ending balance	$ 694,312

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the guaranteed interest account is based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2012:

	Valuation Techniques	Unobservable Inputs	Range Of Inputs
Guaranteed interest account	Contract value (1)	Crediting interest rates as of December 31, 2012	2.05%

(1) The fair value of the guaranteed interest accounts is determined as follows:

If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value.

Note 6. Fair Value Measurements (continued)

The following table presents additional information relative to the Plan's investments reported on net asset value at December 31, 2011:

December 31, 2011	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Union Bank Stable Value Fund (a)	$ 568,729	$ ---	Daily	Investment requires Participants to invest in a "noncompeting fund" for at least 90 days before investing in a "competing" fund option	Qualified withdrawals may be made on any business day. Non-qualified withdrawals may be made 12 months after the trustee receives notice or earlier, at the trustee's sole and absolute discretion in the best interests of the fund.

The following additional information presents the fund strategy relative to Plan investments reported on net asset value at December 31, 2011:

(a) Union Bank Stable Value Fund's objective is to provide current income and safety of principal.

Note 7. Investment Contracts with Insurance Company

The Prudential Guaranteed Income Fund offers a full guarantee on principal and interest by Prudential Retirement Insurance and Annuity Company, a qualified insurance institution. Investment contracts held in a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants receive if they were to initiate permitted transactions under terms of the Plan. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement) and upon discontinuation of the contract. There are no market value adjustments when funds are withdrawn.

The interest crediting rate is determined semi-annually, and during 2012 resulted in an average annual yield earned and credited to participants of approximately 2.05%. The minimum crediting rate is 1.50%. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Party-In-Interest Transactions

The Plan has an investment in a guaranteed interest contract which is part of the general assets of Prudential. Prudential is a qualified insurance institution which holds some of the Plan's investment contracts. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

The Plan allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

Note 10. Reconciliation of Financial Statements to the Form 5500

Due to timing differences, the financial statements for the year ending December 31, 2012 reflect a difference in net assets available for benefits and a difference in net increase in net assets available for benefits as compared to the Form 5500.

The following is a reconciliation of net assets available for benefits from the financial statements to the Form 5500 as of December 31, 2012:

Net assets available for benefits per the financial statements	$ 2,809,079
Less: 2012 employer contributions receivable	(1,136)
2012 participant contributions receivable	(10,932)
Net assets available for benefits per the Form 5500	$ 2,797,011

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2012:

Total net increase in net assets available for benefits per financial statements	$ 593,536
Less: 2012 participant contributions receivable	(10,932)
2012 employer contributions receivable	(1,136)
Total net increase in assets available for benefits per the Form 5500	$ 581,468
