NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Amarillo National Bank 401(k) Plan (the Plan) is provided for general information purposes only. For more complete information, participants should refer to the current Plan agreements.

General

The Plan is a defined contribution retirement plan which provides for the participation of the employees of Amarillo National Bank and related participating employers, who have completed one year of service and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to qualify under Section 401(k) of the Internal Revenue Code (IRC). Under the Plan, each participant has an account for his/her salary deferral contributions, employer matching contributions and for a separate 3% annual employer contribution (discretionary contribution).

John Hancock, USA serves as the Plan's investment custodian and is responsible for executing all investment transactions.

Contributions

Participants may make salary deferral contributions through payroll deductions of not less than 1% up to 100% of their compensation (limited to certain amounts under the IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, the Company makes a matching contribution which is applied to active participants who made salary deferral contributions to the Plan. The Company matches 50% of each employee's contribution up to a maximum of 5% of compensation as defined. The employer matching percentage and the 3% annual discretionary contribution is subject to change each year at the Board's discretion. Participant and Company contributions are subject to the provisions of the IRC and related regulations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the employer matching contributions, (b) the additional annual 3% discretionary contribution from the employer, and (c) Plan earnings. Allocations are based on account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Loans to Participants

The Plan allows participants to obtain loans from their vested balances, which may not exceed the lesser of one half of the participant's vested interest in their account balances or $50,000. Participant loans are maintained and serviced by the Plan's custodian. Participants should refer to the separate loan policy of the Plan for further information. Principal and interest is paid ratably through payroll deductions. Interest rates are based on prime rate plus 1.00%, which ranged from 4.25% to 9.25% as of December 31, 2012.

NOTE 1 - DESCRIPTION OF PLAN (continued)

Forfeited Accounts
Forfeited balances of terminated participants' nonvested accounts (arising from the 3% annual employer contributions) are used as a reduction of the employer 3% annual contributions in the year subsequent to the year in which the forfeitures occur. Forfeitures utilized by the Plan to reduce employer contributions for the year ended December 31, 2012 were $13,578. At December 31, 2012 and 2011, all forfeited balances had been used to reduce the employer discretionary contribution.

Vesting
Participants are immediately vested in their salary deferral contributions and the employer matching contributions plus actual earnings thereon. Participants vest in the 3% annual discretionary profit sharing contributions gradually between their 2nd year (20%) and 6th year (100%) of service.

Payment of Benefits
Benefits are recorded when paid. On termination of service for any reason, a participant may elect to receive the value of the vested interest in his/her account as a lump-sum distribution.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events
The Plan Administrator has evaluated subsequent events through October 14, 2013, the date the financial statements were available to be issued.

Recent Accounting Pronouncements
ASU 2011-04, "Fair Value Measurement (Topic 820) - *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.*" ASU 2011-04 amends Topic 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. ASU 2011-04 clarifies the application of existing fair value measurement requirements, changes certain principles in Topic 820 and requires additional fair value disclosures. ASU 2011-04 became effective for the Plan on January 1, 2012 and did not have a significant impact on the Plan's financial statements.

Investment Valuation and Income Recognition
Investments are stated at fair value as reported by the investment custodian **John Hancock, USA**. Investments in insurance company pooled separate accounts are reported at fair value of each account's underlying assets. In accordance with stating investments at current value, net unrealized appreciation or depreciation is reflected for the year on the Statement of Changes in Net Assets Available for Benefits. See Note 7 for further discussion of fair value measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)
Gains or losses on security transactions are recorded as the difference between proceeds received and the carrying value of the investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Investment dividends and interest received are reinvested in the corresponding accounts.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Administrative Fees
The Plan sponsor has elected to absorb most of the administrative costs of the Plan. Such amounts paid by the Plan sponsor are not reflected in the Plan's financial statements.

NOTE 3 - INFORMATION CERTIFIED BY JOHN HANCOCK, USA

Lifestyle Moderate Fund	3,283,561	2,815,397
Lifestyle Aggressive Fund	2,131,086	1,691,890

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants will become 100% vested in their accounts and the Plan assets will be distributed in a manner approved by the Internal Revenue Service.

NOTE 6 - TAX STATUS

The Plan has not received a determination letter on their adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2003-6, the Plan administrator has chosen to rely on the opinion letter, dated March 31, 2008 that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and has taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

NOTE 7 - FAIR VALUE MEASUREMENTS

The Plan complies with ASC Topic 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles. ASC 820-10 applies to all financial assets and liabilities that are being measured and reported on a fair value basis. As defined in ASC 820-10, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities. Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data. Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3: Unobservable inputs that are not corroborated by market data. Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end, as certified by the Plan's investment custodian John Hancock, USA.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - FAIR VALUE MEASUREMENTS (continued)

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2012 and 2011:

	2012			
Investments	**Fair Value**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Notice Period**

(a) This category includes high quality, short term securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category have been estimated using the net asset value per share of the investments.

NOTE 8 - TRANSACTIONS WITH PARTIES-IN-INTEREST

At December 31, 2012, the Plan held investments in pooled separate accounts and participant notes receivable with a current value of $26,532,418 which are managed by John Hancock. Thus, transactions within these investment funds and notes receivable qualify as party-in-interest transactions as defined by ERISA.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
