APAX PARTNERS, L.P. 401(K) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2012 and 2011

(1) Description of the Plan

The following brief description of the Apax Partners, L.P. 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

Apax Partners, L.P. 401(k) Retirement Plan (Plan) provides employees of Apax Partners, L.P. (the Employer) with the opportunity to save for retirement on a tax advantaged-basis. This Plan is a type of qualified retirement plan commonly referred to as a 401(k) Plan. Participants under the Plan may elect to contribute a portion of their compensation to the Plan. In addition, the Employer may make contributions to the Plan on the participants' behalf. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), the Internal Revenue Code (IRC), and other federal and state laws. The provisions of the Plan are subject to revision due to changes in laws or due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

(b) Eligibility

Employees will generally become eligible to participate when they have completed one hour of service each month during six months of employment and have attained the age of twenty one. If an employee does not complete one hour of service each month during six months of employment, then they will have satisfied the service requirement if they are credited with a year of service. Employees will actually participate once they reach the Entry Date. The Entry Date is defined as the first day of the Plan Year quarter coinciding with or next following the date the employee satisfies the eligibility requirements.

(c) Contributions

Eligible employees may contribute a percentage of their pre-tax annual compensation as selected by the participant, as defined by the Plan, and subject to IRC limitations on maximum deferral contributions, which was $17,000 (or $22,500 for eligible employees 50 or older) for 2012. As of December 31, 2012, there were 25 different investment options to choose from. The annual compensation of each employee taken into account under the Plan may not exceed $250,000 for 2012.

(d) Employer Contributions

The Employer may make a discretionary matching contribution. In order to maintain "safe harbor" status, the Employer makes a contribution equal to 3% of the employees' compensation. This contribution is 100% vested.

(1) Description of the Plan (Continued)

(e) Vesting

Employees are always 100% vested in their accounts attributable to elective deferrals including catch-up contributions, rollover contributions, and safe harbor contributions. In order to reward employees who remain employed with the Employer for a long period of time, the law permits a "vesting schedule" to be applied to certain contributions that the Employer makes to the Plan. The vested percentage in the participant accounts attributable to non-elective contributions is determined under the following schedule:

Years of service:	Vesting Percentage
Less than 1	0%
1	33.33%
2	66.67%
3	100%

(f) Participant Accounts

Each participant's account is credited with the participant's deferral contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit which can be provided from the participant's account.

(g) Rollover Contributions

Participants may transfer to their Plan accounts part or all of an eligible rollover distribution received from other qualified plans and certain IRAs. Rollover contribution accounts will be subject to the terms of this Plan and will always be fully vested and non-forfeitable.

(h) Distributions from Plan

A participant's vested interest may be distributed only after the participant's disability, termination from employment, attainment of early retirement age 55, the latter of age 62 or attainment of normal retirement age (59½), or death. If one of the aforementioned conditions is met, participants may withdraw all or any part of their vested account at any time. Employees may be entitled to receive in-service distributions. However, these distributions are not in addition to other benefits and will therefore reduce the value of the benefits the employee will receive at retirement. These distributions are made at the employee's election and subject to possible administrative limitations on the frequency and actual timing of such distributions. Amounts may be withdrawn from rollover contributions at any time.

(1) Description of the Plan (Continued)

(i) Forfeitures

The Plan utilizes all of the forfeited amounts to reduce future contributions made by the Employer. Forfeited non-vested accounts amounted to $17,273 and $4,462 at December 31, 2012 and 2011, respectively.

(j) Administrative Expenses

All Administrative expenses are paid by the Plan with the exception of professional fees which are paid by the Employer.

(k) Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company will instruct the trustee either (a) to continue to administer the Plan until all funds are depleted, or (b) to distribute the assets remaining in the funds. If the funds are to be distributed, the trustee will distribute to each participant the amount credited to his/her account on the distribution date. In the event of plan termination, participants would become 100% vested in their employer contributions.

(l) Loan Provisions

Only active employees who participate in the Plan and have a minimum vested account balance of $2,000 may request a loan. Loans can be requested in the range of $1,000 to $50,000 or 50% of the vested balance, whichever is less. The number of loans a participant may have outstanding at one time is two. The loans are secured by the vested balance in the participant's account. There are two types of loans, General Purpose and Principal Residence. The terms range from twelve to sixty months for General Purpose loans and sixty one to one hundred eighty months for Principal Residence loans. Each carries an interest rate of 1% over the prime rate. Participants who leave service prior to the end of the loan term will be required to pay off the loan at termination of employment. As of December 31, 2012, there were 14 loans to 10 participants with interest rates ranging from 4.25 % to 9.25% at various maturities through April 11, 2036. As of December 31, 2011, there were 12 loans to 9 participants with interest rates ranging from 4.25% to 9.25% at various maturities through April 11, 2036.

(m) Hardship Withdrawals

Participants may withdraw their employee pre-tax contributions (but not the earnings on the pre-tax contributions) and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with IRS regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan administrator.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan were prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Participant loans are classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Form 5500 presents notes receivable from participants as an investment.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued ASU 2011-04, "Fair Value Measurements (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU No. 2011-04 clarifies the application of existing fair value measurement and disclosure requirements and changes certain principles related to measuring fair value and requires additional disclosures about fair value measurements. Adoption did not have a significant impact on the Plan's Statement of Net Assets Available for Benefits or Statement of Changes in Net Assets Available for Benefits.

(3) Investments Certified by Great West Life & Annuity Insurance Company of New York and Great-West Trust Company, LLC

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by the Custodian which includes participant loans, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

The following presents the Plan's net assets available for benefits as of December 31, 2012 and 2011:

	2012	2011

Wells Fargo Advantage Growth	$ 2,059,604 *	$ —

The Plan's investments in mutual funds (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by $1,300,668.

(4) Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Key Guaranteed Portfolio Fund: Valued at contract value which approximates fair value as determined using a discounted cash flow methodology. See Note (5) for additional detail.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Fair Value Measurements - (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

(5) Key Guaranteed Portfolio Fund

In 2009, the Employer entered into a benefit-responsive contract with First Great-West Life & Annuity Insurance Company ("GWLA"). Participants may elect to make contributions or make transfers from other Plan funds into the Key Guaranteed Portfolio Fund, which provides a guarantee of principal and a guaranteed quarterly interest rate that is backed by the general account assets of GWLA. The interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio and reset quarterly. The minimum interest crediting rate is 0%.

The average yield for 2012 was 1.45%. The actual average yield, which is net of fees and administrative expenses, earned by the Plan for the benefit responsive fund for 2012 was 1.45%.

Either party may terminate the contract at any time. Upon written request, either party has the right to declare a Contribution Cessation Date ("Cessation Date") which must specify the exact date within the request and be at least 90 days from the request. After a Cessation Date is declared, no further contributions will be made. On the Cessation Date, the Employer may elect one of three options. One of the available options limits the ability of the Plan to transact at contract value. If the Employer elects to receive payment at book value, GWLA would pay the Employer the sum of the Participant Annuity Account Value in the Key Guaranteed Portfolio Fund in a lump sum; however, GWLA reserves the right to defer payment of this amount up to 12 months from the Cessation Date. Despite the existence of such an option, participants may transfer their account balances at any time with no restrictions or penalties. The Employer does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

(6) Income Tax Status

The Plan Sponsor adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan as designed is qualified under Section 401(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is still designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

(7) Party-in-Interest Transactions

Certain Plan investments are shares of annuities managed by the current record keeper First Great West Life & Annuity Insurance Company of New York. As such, these transactions qualify as party-in-interest.

(8) Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments.

The Plan may indirectly invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Guaranteed Portfolio Fund represents approximately 9% and 16% of the Plan's net assets as of December 31, 2012 and 2011, respectively, and represents an obligation from First Great West Life & Annuity Insurance Company to repay as amounts come due. The Plan administrator does not believe that any events would limit the Plan's ability to transact at contract value.

(9) Subsequent Events

The Plan was evaluated subsequent to December 31, 2012 and through October 14, 2013, the date on which the financial statements were issued and no additional disclosures were required.
