Cricket Communications, Inc. 401(k) Plan
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1--DESCRIPTION OF PLAN

The following description of the Cricket Communications, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General : The Plan, which was adopted on October 1, 1998, is a defined contribution plan covering substantially all employees of Cricket Communications, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions : Participant salary reduction contributions: Participants may contribute up to 30% of pretax annual compensation, as defined by the Plan. All employees are automatically enrolled into the Plan upon meeting eligibility requirements at a rate of 3% of pretax annual compensation, unless affirmatively elected otherwise. Effective October 1, 2012, participants are permitted to designate a portion or all of the deferral contributions they are otherwise eligible to make under the Plan as Roth deferral contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Such contributions are 100% vested and non-forfeitable. Participant contributions are subject to certain limitations.

Employer non-discretionary matching contributions: The Company makes non-discretionary matching contributions of 50% of each participant's contribution up to 6% of the participant's compensation per payroll. These contributions are subject to overall employer contribution limits and additions to individual participant account limits. Each participant vests in their employer contributions per the Plan's vesting schedule.

Employer discretionary matching contributions: The Company may make discretionary matching contributions on behalf of each participant in an amount equal to a percentage determined annually based on a percentage of a participant's pre-tax contributions. The Company has elected to not make a discretionary matching contribution for the year ended December 31, 2012. Each participant vests in their employer contributions per the Plan's vesting schedule.

Employer profit-sharing contributions: The Company may make a profit-sharing contribution to the Plan in such amounts as may be determined by the Company's Board of Directors each plan year. The contributions would be allocated to a participant's account in the same ratio as the participant's compensation bears to total compensation of all participants. The Company has elected to not make a profit-sharing contribution for the year ended December 31, 2012.

Participant rollover contributions: The Plan allows participants to make rollover contributions from a qualified plan. Such contributions are 100% vested and non-forfeitable.

NOTE 1--DESCRIPTION OF PLAN (Continued)

- Eligibility to participate : Employees who have reached age eighteen are eligible to participate in the Plan as of the next succeeding entry date.
- Forfeitures : At December 31, 2012 and 2011, forfeited nonvested accounts held by the Plan totaled \$59,634 and \$129,355. These accounts will be used first to restore amounts forfeited by former participants who have returned to the Plan and who are entitled to restoration of their account balances. After all accounts have been restored, any excess forfeitures will be used to reduce future employer contributions and then to pay administrative expenses of the Plan. Forfeited nonvested accounts totaling \$1,025,000 were used to fund a portion of the plan year 2012 employer contributions.
- Notes receivable from participants : Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.00%. All loans bear interest at a fixed rate. The interest rate is determined at the time the loan is approved.
- Participant accounts : All investments are directed by plan participants. Upon enrollment in the Plan, a participant directs contributions in any of the available investment options. Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's salary reduction, rollover contributions, employer discretionary and non-discretionary matching contributions, an allocation of the employer's profit-sharing contribution, if any, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined by the Plan. The benefit to which a participant is entitled is equal to the vested portion of the participant's account.
- Payment of benefits : A participant's vested account balance becomes distributable upon termination of service due to disability, retirement or death. Upon severance of employment for other than disability, retirement or death, benefits are paid to employees based on the amount allocated to their account multiplied by the vesting percentage at the time of termination. Amounts not vested at the time of termination are forfeited by the participant. The distribution shall be made to the participant or beneficiary in accordance with the election of the participant. Participants may defer receiving these benefits until their normal retirement age if their vested account balance exceeds \$1,000.

Participants may also elect to withdraw, in cash, certain vested amounts within the deferred contribution account to the extent necessary to meet a financial hardship, in accordance with the regulations and rulings of the Internal Revenue Code. After a withdrawal, a stipulated period of time must lapse, as defined by the Plan, before a participant can make additional deferred contributions.

NOTE 1--DESCRIPTION OF PLAN (Continued)

Vesting : Participants are immediately vested in their rollover and participant salary reduction contributions plus actual earnings thereon. Company discretionary and non-discretionary matching contributions, profit-sharing contributions and any earnings thereon are vested as follows:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

For vesting purposes, only a participant's whole year of service with the Company will be counted to compute the participant's years of service.

Participants become fully vested upon termination for reason of retirement, death or disability, or if the Plan is terminated. Nonvested benefits are forfeited by participants upon termination for reasons other than normal retirement, death or disability.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting : The financial statements of the Plan are presented on the accrual basis of accounting.

Administrative expenses : Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Investment valuation and income recognition : Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Notes receivable from participants : Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Principal and interest are paid ratably through payroll deductions. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses have been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.
- Payment of benefits : Benefits are recorded when paid.
- Subsequent events : The Plan has evaluated subsequent events through October 14, 2013, the date the financial statements were available to be issued.
- Use of Estimates : The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

	<u>2012</u>	<u>2011</u>
Investments at Fair Value as Determined by

Total investments, at fair value	\$ <u>108,334,495</u>	\$ <u>89,783,401</u>

During the year ended December 31, 2012 the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

Mutual Funds	\$ <u>9,968,054</u>
Net change in fair value	\$ <u>9,968,054</u>

Gains and losses (realized and unrealized) included in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 are reported in net appreciation (depreciation) in fair value of investments.

NOTE 5--FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy and a description of the valuation methodologies used for assets measured at fair value are described below:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 5--FAIR VALUE MEASUREMENTS (Continued)

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in inactive markets, (c) inputs other than quoted prices that are observable for the asset or liability or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

The Plan held no level 2 investments as of December 31, 2012 and 2011.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan held no level 3 investments as of December 31, 2012 and 2011.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

- (a) Balanced: A mutual fund that invests in a single portfolio to provide both income and capital appreciation while avoiding excessive risk. A balanced fund provides investors with a single mutual fund that combines both growth and income objectives.
- (b) Fixed income: A mutual fund that is intended to produce a predictable stream of income derived from ownership in corporate or government bonds and other fixed income instruments with varying maturities.
- (c) International: A mutual fund that invests primarily in companies located outside of its investors' country of residence.
- (d) Large cap: A mutual fund that invests in companies with a market capitalization of greater than \$10 billion at the time of purchase.
- (e) Lifecycle: A mutual fund that is diversified over a range of asset categories. Each Lifecycle fund has an allocation strategy for the underlying equity, fixed income and short term mutual funds based on the number of years until the funds reach their target retirement dates. Each fund with a target retirement date will gradually adopt a more conservative asset allocation as it approaches its target retirement date.
- (f) Mid cap: A mutual fund that invests in mid-sized companies generally ranging from \$2 billion to \$10 billion in market capitalization at the time of purchase.
- (g) Money market: A mutual fund that invests in short term (13 months or less) debt issued by corporations or governments. Each money market fund is usually high quality and returns interest in addition to principal when they mature.
- (h) Small cap: A mutual fund that invests in companies with a market capitalization of between \$300 million and \$2 billion at the time of purchase.

NOTE 6--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 7--TAX STATUS

As of December 31, 2012, an IRS determination letter has not been obtained for the plan instrument as adopted, but an IRS "prototype" opinion letter dated March 31, 2008, has been obtained by Fidelity Management Trust Company, the trustee, regarding the original plan document. Although the Plan has been amended since receiving the IRS "prototype" opinion letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Department of Labor (DOL) Employee Benefits Security Administration. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine income tax examinations by taxing jurisdictions; however, there are currently no income tax examinations for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8--PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds and portfolios managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
