1. Description of the Plan

The following description of the Smith International, Inc. Restated Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined benefit plan that covers certain employees that were employed by Smith International, Inc. ("Smith"), prior to March 1, 1987, and replaces the terminated Smith International, Inc. Pension Plan. Effective March 1, 1987, Smith froze all benefits and eligibility under the Plan. On August 27, 2010, Schlumberger Limited (the "Company" or "Schlumberger") acquired all of the outstanding shares of Smith and assumed sponsorship of all plans sponsored by Smith and its subsidiaries.

(b) Benefits Paid to Participants

The Plan allows participants to receive benefit payments after the later of age 65 or five years of participation. Benefit payments are calculated as a percentage of compensation, subject to certain limitations and provisions as defined by the Plan. Benefits are reduced proportionately for less than 35 years of participation. If married at retirement, participants will receive payments made as an actuarially equivalent qualified joint and survivor annuity which provides for a specified pension for the participant's life. Should the participant die after retirement, 50 percent to 100 percent of the pension benefit, as elected, will be paid to the participant's beneficiary. The maximum benefit is limited to the lesser of 100 percent of the average annual compensation or the amount allowed under the Internal Revenue Code of 1986, as amended (the "Code"). Alternatively, a lump-sum payment may be paid with spousal consent.

The participants' benefit payments may be distributed through the following methods:

(i) Standard 50/50 joint and survivor annuity;

(ii) Single life annuity;

(iii) 10-year certain life annuity option;

(iv) 75 percent/100 percent joint and survivor annuity option; or

(v) For terminated participants only, a lump sum if accrued benefit does not exceed $5,000.

The Plan allows participants to receive benefit payments after reaching age 55.

The Plan also provides for death benefits to the beneficiaries of vested participants who die before retirement.

(c) Administration and Trustee

The Company is the Plan administrator as defined under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan's operations are monitored by an administrative committee which is comprised of officers and employees of the Company. Comerica Bank ("Comerica") is the trustee of Plan investments during the years ended December 31, 2012 and 2011.

(d) Funding Policy

Employer contributions are determined by an independent actuary, Aon Hewitt ("Hewitt"), and are designed to fund the Plan's estimated costs in accordance with the funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2012 and 2011.

(e) Vesting

All Plan participants are fully vested at December 31, 2012 and 2011.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

(c) Risks and Uncertainties

The Plan invests in a short-term investment fund and various collective trusts (consisting of debt and equity index funds). Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(d) Investment Valuation and Income Recognition

The Plan follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." Under ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. See Note 5 for the disclosures required by ASC 820 with regard to Plan investments.

In determining the fair value of investments, the Plan uses various inputs and valuation methodologies which are described in Note 5. There have been no significant changes in the inputs or valuation methodologies used at December 31, 2012 and 2011.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses on investments sold and unrealized gains or losses on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Benefits Paid to Participants

Benefits paid to participants are recorded upon distribution. There were no benefits payable to participants as of December 31, 2012 or 2011.

(f) Administrative Expenses

The Plan is responsible for its administrative expenses. The Company may elect to pay administrative expenses on behalf of the Plan.

(g) New Accounting Pronouncement

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU 2011-04 amended ASC 820, "Fair Value Measurement," to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards ("IFRSs"). Some of the amendments clarify the application of existing fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the provisions of ASU 2011-04 did not have an impact on the Plan's financial statements.

3. Information Certified by the Plan's Trustee

The following is a summary of the information regarding the Plan as of December 31, 2012 and 2011, and for the years then ended, included in the Plan's financial statements and supplemental schedules, that was derived from information prepared by the trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that such information is complete and accurate.

4. Investments

The Plan's investments which represented 5 percent or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are as follows:

December 31,	**2012**	2011
Comerica Bond Index Fund	**$8,827,264**	$7,874,574
Comerica S&P 500 Index Fund	**4,226,353**	3,842,153

Comerica Total U.S. TIPS Index Fund	**881,021**	780,519
Goldman Sachs FS Government Fund	**526,347**	861,406

For the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, as follows:

December 31,	**2012**	2011
Collective trusts	**$1,423,722**	$232,151

5. Fair Value Measurements

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011 as discussed in Note 2:

December 31, 2012

	Investment Assets at Fair Value

Short-term investment fund	-	861,406	-	861,406
Total	$ -	$15,941,275	$ -	$15,941,275

The following is a description of the methodologies used for assets measured at fair value as of December 31, 2012 and 2011:

- *Collective trusts* – Collective trusts are stated at net asset value ("NAV") as determined by the issuer of the respective trust. The NAV is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by each trust less its liabilities.
- *Short-term investment fund* – The short-term investment fund is stated at amortized cost which approximates fair value.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Level 2 investments measured at fair value and reported at NAV per share as of December 31, 2012 and 2011:

	Fair Value		Unfunded Commitments at December 31, 2012	Redemption Frequency (if Currently Eligible)	Redemption Notice Period

(a) The Bond Index Fund invests in investment-grade fixed income securities and U.S. treasury obligations with maturities of 1-30 years, with a strategy of producing income through investments in fixed income securities. The Bond Index Fund was designed to closely duplicate the investment return of the Barclay's Capital Aggregate Bond Index.

(b) The S&P 500 Index Fund was designed to provide investment results that correspond to the price and yield performance of publicly traded common stocks of companies as represented by the Standard & Poor ("S&P") 500 Index, or in other instruments with the same investment objective.

(c) The Foreign Equity Fund invests in common stocks of foreign corporations traded on the New York Stock Exchange, the American Stock Exchange or the National Association of Securities Dealers Automated Quotations.

(d) The Medium Cap Index Fund was designed to provide investment results that correspond to the price and yield performance of common stocks as represented by the S&P Mid Cap 400 Index.

(e) The Total U.S. TIPS Index Fund utilizes a full replication approach that generally corresponds to the Barclays Capital U.S. TIPS Index, which is comprised of treasury inflated protected securities ("TIPS") issued by the U.S. Treasury.

(f) The Small Cap Index Fund was designed to provide investment results that correspond to the price and yield of publicly traded common stocks of small-size domestic companies as represented by the S&P Small Cap Index.

6. Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered prior to March 1, 1987. The significant actuarial assumptions used in the valuations as of January 1, 2012 and 2011 were (a) discount rate of 6.75%, (b) life expectancy of participants using the IRS Mortality Tables per §1.430(h)(3)-1(e) as published by the Internal Revenue Service ("IRS") (2012 Static Mortality Tables for Annuitants and Non-Annuitants in 2012; 2011 Static Mortality Tables for Annuitants and Non-Annuitants in 2011, which is reflected in other changes in the actuarial present value of accumulated Plan benefits) and (c) retirement age assumptions (an assumed retirement age of 62 for active employees and age 65 for terminated employees).

The actuarial method employed by Hewitt in calculating contribution requirements is the unit credit actuarial cost method.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different assumptions would likely apply in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits as determined by Hewitt as of January 1 was as follows:

January 1,	**2012**	2011
Vested benefits:		
Participants and beneficiaries currently receiving payments	**$ 8,068,466**	$ 7,169,088
Other vested benefits	**6,179,189**	7,328,887
Total vested benefits	**14,247,655**	14,497,975
Nonvested benefits	**468,160**	487,706
Total actuarial present value of accumulated Plan benefits	**$14,715,815**	$14,985,681

The changes in the actuarial present value of accumulated Plan benefits were as follows:

January 1,	
Actuarial present value of accumulated Plan benefits at January 1, 2011	$14,985,681
Changes during the year attributable to:	
Increase for interest related to the decrease in the discount period	965,725
Other changes	144,224
Benefits paid	(1,379,815)
Net change	(269,866)
Total actuarial present value of accumulated Plan benefits at January 1, 2012	$14,715,815

7. Exempt Party-in-Interest Transactions

The Plan invests in certain shares of collective trusts that are managed by Comerica. Fees paid to Comerica, as trustee, were $48,005 and $51,332 for the years ended December 31, 2012 and 2011, respectively. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

At December 31, 2011 $6,782 was due from the Van Leeuwen Pipe and Tube Corporation Employees' Pension Trust (the "Van Leeuwen Trust") for expenses paid on the Van Leeuwen Trust's behalf.

8. Federal Income Tax Status

The IRS has determined and informed the Company by a letter dated April 11, 2008, that the Plan and related trust were designed and in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. On March 13, 2012, the Plan received a favorable determination letter with respect to the amended plan. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and that the Plan continues to be tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan. If the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in the following order:

(a) Annuity benefits for former employees or their beneficiaries who have been receiving benefits for at least three years or for employees eligible to retire for that three-year period who would have been receiving benefits if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) up to the applicable limitations.

(c) All other vested benefits not insured by the PBGC.

(d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits and early retirement benefits as well as certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets of the Plan and the PBGC guarantee while other benefits may not be provided for at all.

10. Subsequent Events

For the purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through October 15, 2013, the date on which the financial statements were available to be issued.

Schedule SB, Part V—Summary of Plan Provisions

Summary of Plan Provisions

The plan provides benefits to participating employees upon normal or early retirement and upon termination of employment if eligible for a deferred vested benefit.

The normal retirement benefit is equal to credited service prior to February 28, 1987 times 1.75% of highest average compensation at February 28, 1987 offset by the lesser of credited service prior to February 28, 1987 times 1.50% of primary Social Security and 52.5% of primary Social Security times years of credited service prior to February 28, 1987 divided by years of service that would be accrued at age 65. The primary Social Security is the age 65 amount calculated by using the Social Security law in effect for 1987 and assuming level future earnings. The benefit is also reduced by the amount of benefit previously accrued under the prior Smith International, Inc. Pension Plan. The prior plan was terminated effective August 31, 1985.

Participants may retire early after age 55 if they have ten or more years of service. The amount of the pension is determined using the same formula as normal retirement with reductions for commencement prior to age 65.
