Independent Auditors' Report

To the Trustees of the
Stull Technologies Employees'
Pension Plan
Somerset, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of Stull Technologies Employees' Pension Plan, which comprise the statements of net assets in liquidation available for benefits and as of October 11, 2012 and December 31, 2011, and the related statement of changes in net assets in liquidation available for benefits for the period and year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Mass Mutual Financial Group, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the period and year ended October 11, 2012 and December 31, 2011, respectively, that the information provided to the plan administrator by the trustee is complete and accurate.

~~*Disclaimer of Opinion*~~

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. As described in Note 2, these financial statements were prepared in conformity with the liquidation basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to the matter.

Other Matter

The supplemental Schedule of Assets Held for Investment Purposes and Schedule of Reportable Transactions as of and for the period ended October 11, 2012 is required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Emphasis of Matter

As further discussed in Notes 1 and 2 to the financial statements, the trustees of the Stull Technologies Employees' Pension Plan, voted in September 2010 to terminate the Plan and distribute the assets in 2012. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting to the liquidation basis used to determine the amounts at which the accumulated benefit information is stated. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following brief description of the Stull Technologies Employees Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan, which became effective on May 1, 1977, and subsequently, restated as of November 1, 1995, is a defined benefit pension plan covering substantially all employees of Stull Technologies, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On December 14, 1999 the Plan was amended to freeze all benefits effective December 31, 1999. The Plan was amended for PPA 2006, Emergency Stabilization Act of 2008, Worker, Retiree, and Employer Recovery Act of 2008, and Pension Relief Act of 2010. In September 2010, the Plan was amended to terminate in 2012.

Eligibility

Substantially all full-time non-union employees were considered eligible to participate in the Plan after they have completed at least one year of service, as defined in the plan document, and are at least age 21. The Plan does not require contributions from employees in the Plan.

Payment of Benefits

Normal Monthly Retirement Benefits

The annual pension benefit is available at the normal retirement age of 65 for participants employed; as of February 1, 1994 is the sum of:

(i) 1.2 percent of a participant's average monthly compensation, as defined, for each year of service, and
(ii) .65 percent of a participant's average monthly compensation in excess of one-twelfth of the social security wage base in effect at the beginning of the plan year for each year of service (up to maximum of 35 years).

Those participants who were employed prior to February 1, 1994 shall receive 1 percent of their average monthly compensation for each year of service, plus the sum of 1% of the participant's average monthly compensation in excess of one-twelfth of the social security wage base in effect at the beginning of the plan year for each year of service.

Early Retirement Benefit

A participant may elect the early retirement payment option on the first day of the month after age 55 if five years of credited services have been completed. The benefit reduced by one fifteenth for each of the first five years and one-thirtieth of the next five years preceding retirement.

Note 1 - Description of Plan (Cont'd)

Late Retirement Benefit

A participant may remain employed beyond his normal retirement date. The retirement benefit will be calculated in the same manner as the normal retirement benefit except that the later retirement date is utilized.

Vesting

All participants were deemed 100 percent vested upon the date of plan termination.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

Funding Policy

The Sponsor's funding policy is to make annual contributions to the Plan to satisfy the minimum funding standard as defined under ERISA. The Sponsor's contributions for 2012 met the minimum funding requirements of ERISA.

The Pension Protection Act of 2006 (PPA) as amended by the Worker, Retiree and Employer Recovery Act of 2008 (WRERA) imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk"status is referred to as the Funding Target Attainment Percentage (FTAP). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage (AFTAP). The 2012 AFTAP for the Plan is 83.3%. Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

Plan Termination

The Company determined that it would terminate the Plan in 2012; accordingly, the Plan was amended. The distribution of the frozen plan assets was initiated as a result of the Company selling substantially all of its assets in November 2012. The final distribution of assets from the Plan occurred in October 2012 when the termination liability was approximately $4,100,000. As of the date of the financial statements, all assets of the Plan have been distributed. When the Plan was terminated, the net assets of the Plan were allocated to provide the following benefits in the order indicated:

(a) Benefits to that portion of the participant's accrued benefit, which is derived from the participant's contributions made to the Plan, if any.

(b) Equally among individuals in the following two categories:

Note 1 - Description of Plan (Cont'd)

Plan Termination (Cont'd)

(i) Benefits to retired participants and their beneficiaries to whom payment commenced at least three years prior to the termination date;
(ii) Benefits to participants wherein payment would have commenced at least three years prior to the termination date if such participants had actually retired;

(c) All benefits guaranteed and insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency);

(d) All other vested accrued benefits not insured by the Pension Benefit Guaranty Corporation;

(e) All other accrued benefits provided under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed by the PBGC at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting. Under the liquidation basis of accounting, assets are valued at their net realizable value and liabilities are stated at their estimated settlement amounts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits Upon Liquidation

Benefit payments to participants are recorded upon distribution.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits information of the Plan as of October 11, 2012 and December 31, 2011, is as follows:

	2012	2011
Actuarial present value of accumulated plan benefits:		
Vested benefits	$ -	$ 3,846,552
Total actuarial present value of accumulated plan benefits	$ -	$ 3,846,552

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the period ended October 11, 2012:

Actuarial present value of accumulated plan benefits at December 31, 2011	$ 3,846,552
Increase (decrease) during the year attributable to:	
Benefits paid	(4,169,671)
Change in actuarial assumptions	323,119
Actuarial present value of accumulated plan benefits at October 11, 2012	$ -

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances, retirement, death, disability and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Altigro Pension Services, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of October 11, 2012 and December 31, 2011 were (a) life expectancy of participants (the 1971 Group Annuity Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. When the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (cont'd)

Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated May 23, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirement of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for three years from the latest filing date.

Administrative Expenses

All significant expenses incurred in the administration of the Plan are paid by the Plan sponsor. Investment expenses are paid by plan assets. Costs associated with the termination of the Plan amounted to $3,866.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

Management has reviewed subsequent events and transactions that occurred after October 11, 2012 through the date of the auditors' report and the date of issuance. The financial statements include all events or transactions, including estimates, required to be recognized in accordance with generally accepted accounting principles. Management has determined that there are no nonrecognized subsequent events that require additional disclosure.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 11, 2012 and December 31, 2011.

Money market: Valued at the quoted net asset values of the shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.
