Note 1 - Plan Description

The following brief description of the Helfman Enterprises, Inc. 401(k) Profit Sharing Plan and Trust (the Plan) is provided for general information only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is provided for all eligible employees of Helfman Enterprises, Inc. (the plan administrator); Helfman Ford, Inc.; River Oaks Chrysler Jeep, Inc.; Helfman Dodge, Inc. and Helfman Motor Sales, Inc. (collectively, the Company). The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, allowable under Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Two employees of the Company serve as the Plan's trustees. Wilmington Trust Retirement and Institutional Services Company (WTR) served as the Plan's asset custodian until November 12, 2012. Lincoln Trust Company (LTC) has served as the asset custodian since November 13, 2012. Fringe Benefit Administrators, LP serves as the Plan's recordkeeper.

Eligibility

Entry into the Plan is available on the first day of each calendar quarter for all employees who have completed one year of service and who have attained age 21. One year of service is defined as 1,000 hours during a plan year.

Contributions

Employee contributions are made to the Plan by electing to defer up to 100% of the employee's compensation. Eligible participants who have attained age 50 before the close of the plan year are eligible to make catch up contributions subject to limitations of the IRC. The Company may elect to make matching contributions to participants employed on the last day of the plan year in an amount determined by the Company's board of directors. In 2012, employer matching contributions were accrued on behalf of each participant equal to 50% of the employee's elective deferral contribution, not to exceed 2% of compensation. Additionally, discretionary profit sharing contributions may be made by the Company as determined by the Company's board of directors. No discretionary profit sharing contributions were made in 2012.

Participant Accounts

Upon enrollment in the Plan, a participant may direct the asset custodian with regard to the investment of his or her account balances. Participants may change their investment options at any time. Each participant's account is credited with the participant's contributions, the Company's contributions, and plan earnings or losses, which are allocated daily.

Vesting

Participants are immediately vested in their participant contributions plus actual earnings thereon. A participant becomes 100% vested in the contributions made by the Company after three years of service. Participants become fully vested upon attainment of normal retirement age, death, or disability.

Forfeitures of nonvested amounts are utilized to pay plan expenses or reduce future Company contributions. At December 31, 2012 and 2011, nonvested forfeiture accounts totaled $54 and $0, respectively, and were available to pay plan expenses or reduce future Company contributions. During the year ended December 31, 2012, $42 of forfeitures were used to pay plan expenses.

Payment of Benefits

Distributions may be made to participants upon termination of employment, retirement, disability or death. Additionally, hardship withdrawals may be made to active participants. Upon withdrawal from the Plan or termination of employment, participants may be subject to federal income tax on contributions and income earned.

Administrative Expenses

Fees and expenses incurred in the administration of the Plan, to the extent not paid by the Company are charged to and paid from the Plan's assets.

Note 2 - Summary of Accounting Policies

Basis of Accounting

These financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive investment contract through a common/collective trust fund. The statement of net assets available for benefits presents the fair value of the investment in the common/collective trust fund as well as the adjustment of the investment in the common/collective trust fund from fair value to contract value relating to the investment contract. The statement of changes in net assets available for benefits is prepared on a contract basis.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation or depreciation in fair value of investments consists of the net change in both the unrealized appreciation and depreciation in fair value of investments and the net realized gains and losses upon the sale of investments.

Refundable Excess Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Benefit Payments

Benefits paid to participants or beneficiaries are recorded when paid.

Risks and Uncertainties

The Plan provides for investment in a common/collective trust fund and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants' account balances and amounts reported in the financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The plan administrator evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2013, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: These funds are valued based on quoted market prices.

Common/Collective Trust Fund: This fund is valued at its net asset value (NAV) as determined by the issuer, based on the quoted market prices of the underlying investments.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value measurements:

Note 4 - Information Certified by Plan's Asset Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the asset custodians of the Plan that all of the information provided is complete and accurate. Information included in the accompanying financial statements and accompanying notes to financial statements as to investments (excluding the adjustment from contract value to fair value for interest in the common/collective trust fund relating to the fully benefit-responsive investment contracts), investment income and all information in the supplemental schedule of assets (held at end of year) is presented in reliance upon these certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 - Investment in Fully Benefit-Responsive Common/Collective Trust Fund

The Plan has a fully benefit-responsive investment contract with Lincoln Trust Company through its investment in Wilmington Trust RISC Collective Investment Trust for Metlife Group Annuity Contract No. 25554. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. As of December 31, 2012 and 2011, there were no unfunded commitments to the issuer.

Note 7 - Federal Income Tax

The Plan obtained its latest determination letter on January 11, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Company has identified certain operational discrepancies with respect to the Plan and intends to bring the Plan back into compliance with the requirements of the IRC. Aside from these operational discrepancies, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The prior three tax years are subject to income tax examinations by taxing authorities.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants become 100% vested in their employer contributions.

Note 9 - Parties-in-Interest Transactions

The Plan engages in investment transactions with a fund managed by the asset custodian, a party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

Note 10 - Nonexempt Party-in-Interest Transactions

As disclosed on the Form 5500, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions, there were unintentional delays by the Company in submitting participant contributions in the amount of $5,652 and $2,380 for the 2012 and 2011 plan year, respectively. The Company intends to remit lost earnings relating to these unintentional delays during 2013.
