AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. **Description of Plan** The following brief description of the American Medical Alert Corp. 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan documents for more complete information.

General - The Plan, which was adopted on January 1, 1997, is a defined contribution plan covering substantially all employees of American Medical Alert Corp. and Subsidiaries (the "Company") who are not members of a collective bargaining unit and who elect to join the Plan. In order to be eligible, an employee must have completed six months of service. An employee can enroll in the Plan on the first day of the calendar quarter following satisfaction of the eligibility requirements. All contributions are participant directed. Participants may elect to invest contributions in one or more of the available investment options. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A participant's total contributions in any year may not exceed the maximum amounts for that year as specified in Sections 401(k) and 415 of the Internal Revenue Code and regulations thereunder. Matching contributions are discretionary and may be contributed at the option of the Company. With respect to the Plan's profit sharing component, each year the Company may make a discretionary contribution to the Plan based upon a certain percentage of eligible employees' salary.

Employee and employer contributions for 2012 are net of payments of \$66,293 made in 2013 to certain participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2012 (\$55,830 at December 31, 2011).

Participant accounts - Each participant's funds are kept in their own separate pre-tax and Company contribution accounts. Each participant's pre-tax account is credited with the participant's contribution and the Company matching and profit sharing contributions, if any, are credited to the participant's Company contribution accounts. Net investment gain or loss in each fund and administrative expenses are allocated to each participant's account in proportion to account balances, as defined.

Vesting - Participants are immediately vested in their pre-tax contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

years of service. A participant is 100 percent vested after five years of credited service.

Payment of benefits - Upon termination of service, participants receive the value of their vested accounts either in a lump sum distribution or in installments. The date of the initial payment of benefits depends upon the participant's plan status at termination, benefit payment method and age.

Forfeitures - Forfeitures of nonvested Company contributions may be used to first reduce administrative expenses and then reduce any Company contributions.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans must bear a reasonable interest rate and be adequately secured by the vested balance of the participant's account. Principal and interest are repaid through periodic payroll deductions. A participant may only have one loan outstanding at any one time. The term of the loan may not exceed five years unless it is for the purchase of a primary residence whereby the loan cannot exceed twenty years.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, Plan Accounting - Defined Contribution Pension Plans, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by FASB ASC 962, the statements of net assets available for benefits as

See report of independent auditors.

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

of December 31, 2012 and 2011 present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes receivable from participants - Participant loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are reported as investments on Form 5500. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Payment of benefits - Benefits are recorded when paid.

Subsequent events - The Plan has evaluated events and transactions for potential recognition or disclosure through October 14, 2013, the date the financial statements were available to be issued.

3. Investments

ING Life Insurance and Annuity Company, the custodian of the Plan, has certified to the accuracy and completeness of investments and related income as recorded in the accompanying financial statements and supplemental schedule.

The following is a summary of the financial data certified by the custodian as of December 31, 2012 and 2011 and for the year ended December 31, 2012:

Pioneer High Yield Fund	166,884	**
PIMCO VIT Real Return Portfolio	161,513	**

* At contract value

** Represents less than 5% of the Plan's net assets available for benefits.

One of the Plan's investment options is the ING Fixed Account, a fully benefit-responsive investment contract. As of December 31, 2012, the Plan's participants had \$145,754 at contract value invested in this insurance company contract (\$220,987 at December 31, 2011).

As required by generally accepted accounting principles, fully benefit-responsive investment contracts are reported at fair value (as reported by ING) in the Plan's statements of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. The fair value of this contract as of December 31, 2012 was \$157,594 (\$233,243 at December 31, 2011) (as reported by ING).

There are no reserves against contract value for credit risk. The average yield and crediting interest rates were both 3.02% and 3.45%, respectively, for 2012 and 2011. The crediting interest rate is determined on a monthly basis by an actuarial formula, as designated by ING. The crediting interest rate is subject to a guaranteed minimum floor, as defined, on an annual basis by ING. The floor rate was 3.00% at both December 31, 2012 and 2011.

See report of independent auditors.

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

4. Fair Value Measurements

FASB ASC 820, Fair Value Measurement, establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are summarized as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or inputs other than quoted prices that are observable, either directly or indirectly. Level 2 investments of the Plan consist of pooled separate accounts which are valued at net asset value (NAV) based on the fair value of the underlying investments held by the pooled separate account at year end. Unlike shares of registered investment companies, the NAV of pooled separate accounts is not publicly available.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement that reflect the assumptions that market participants would use. Level 3 investments of the Plan consist of a guaranteed investment contract which is valued based on the amount the Plan would receive if the contract was terminated at the reporting date, which is book value less an early withdrawal charge, discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement. Although the degree of judgment exercised by the Plan in determining fair value is greatest for investments categorized in Level 3, the inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with those investments.

5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, the participants will become 100% vested in their accounts.

See report of independent auditors.

8. **Tax Status** The Plan was adopted effective January 1, 1997 and currently operates under a prototype plan that was adopted January 1, 2008. It is believed to be a qualified plan under the Internal Revenue Code based on an opinion letter issued to the prototype sponsor.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years prior to 2009.

AMERICAN MEDICAL ALERT CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

**9. Risks and
Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
