Lista International Savings Plan

Notes to Financial Statements
December 31, 2012 and 2011

1. DESCRIPTION OF PLAN

The following description of Lista International Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all employees of Lista International Corporation (the "Company") who have three months of service and are age eighteen or older. On July 20, 2012, the Board of Directors of the Company approved by unanimous written consent to terminate the Plan, effective August 31, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Amendment

The Plan was most recently amended on July 20, 2012, to terminate the Plan effective August 31, 2012, and incorporate other changes required to be made as part of the termination.

Contributions

Prior to August 31, 2012, participants were allowed to contribute up to 25% of pretax annual compensation, as defined in the Plan document and subject to the maximum tax deferred contribution allowed under the Internal Revenue Code ("IRC"). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants directed the investment of their contributions into various investment options offered by the Plan.

The Plan allowed for the Company to make discretionary matching contributions based on an amount specified by the Company in a resolution. The amount so specified remained in effect until changed by the Company. For the year ended December 31, 2012 employer matching contributions were not made. Contributions were subject to certain IRC limitations.

The Company also made "Safe Harbor" contributions in accordance with provisions of the Plan. Through August 31, 2012, Safe Harbor contributions were made at an amount equal to 3% of each participant's total eligible compensation. Contributions were subject to certain IRC limitations.

Effective August 31, 2012, the Plan was amended so that no additional participant contributions, rollovers, discretionary matching contributions or Safe Harbor contributions are allowed to be made to the Plan.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's Safe Harbor contributions, participant's rollover contributions, and the Company's discretionary matching contributions, if any. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN…continued

Vesting

Prior to August 31, 2012, participants were vested immediately in their salary contributions, rollovers and Safe Harbor contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon was based on years of continuous service as follows:

Years of Service	Percentage
1	0%
2	25%
3	50%
4	75%
5	100%

Effective August 31, 2012, participants' account balances became 100% vested regardless of years of service.

Investment Options

Participants were able to direct their contributions to selected investments as made available and determined by the plan administrator. The Plan currently offers registered investment companies and common/collective trust funds as investment options for participants. Participants may change their investment options daily.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate. The loans have terms up to 5 years with interest rates ranging from 3.25% to 8.25%. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in their account, or in annual installments over a period of time, as elected in writing, not to exceed their life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or in the form of installments. Distributions may also be made for in-service distributions and hardship withdrawals. If the amount payable to a participant is greater than $1,000, the participant (or beneficiary) must give written consent before the distribution can be made and if the amount is less, a lump-sum distribution is made as soon as administratively feasible.

Forfeitures

Forfeitures represent the non-vested portion of terminated participants' account balances. These balances were used to reduce company discretionary matching contributions and Safe Harbor contributions made prior to August 31, 2012, and can be used to pay reasonable Plan expenses. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $1,954 and $2,399, respectively. Forfeitures generated prior to August 31, 2012 for the year ended December 31, 2012 were $671. During 2012, $1,167 of forfeitures were used to reduce employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Due to the decision to terminate the Plan during 2012, the financial statements for 2012 have been prepared using the liquidation basis of accounting. The 2011 financial statements were prepared on the ongoing accrual basis of accounting.

The Plan has funds invested in the Putnam Stable Value Fund, a common/collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, under the ongoing accrual basis of accounting, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common/collective trusts. The statement of net assets available for benefits at December 31, 2011, presents the fair value of the investment contract in the common/collective trust funds, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of net assets available for benefits at December 31, 2012 and the statement of changes in net assets available for benefits present the contract value of the investment contract in the common/collective trust funds, as required under the liquidation basis of accounting, as this approximates fair value and is the amount expected to be received upon liquidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments at December 31, 2012 are reported at liquidation value due to the Plan termination. For all investments, expect the Putnam Stable Value Fund, a common/collective trust fund, fair value approximates the amount the Plan expects to collect at liquidation. For the Putnam Stable Value Fund, contract value approximates fair value and is the amount the Plan expects to collect at liquidation.

The Plan's investments are stated at fair value as of December 31, 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Lista International Savings Plan

Notes to Financial Statements
December 31, 2012 and 2011

2. SIGNIFICANT ACCOUNTING POLICIES…continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payments of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Income Taxes

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* ("ASU 2011-04"). ASU 2011-04 amended ASC 820, "Fair Value Measurement", to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments were applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan adopted the guidance effective January 1, 2012, see Note 5 for related disclosures.

Recent Accounting Pronouncements…continued

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements* ("ASU 2012-04"). The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013 for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-03 on subsequent periods has not yet been determined.

4. INFORMATION CERTIFIED OR PROVIDED BY DWS TRUST COMPANY

The following is a summary of plan's asset information as of December 31, 2012 and 2011 and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from the information provided by DWS Trust Company, the trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information related to the following assets at December 31, 2012 and 2011:

	2012	2011
Investments:		
Registered investment companies	$ 11,004,052	$ 10,320,639
Common/collective trust funds at fair value	$ 1,140,951	$ 1,289,905
Common/collective trust funds at contract value *	$ 1,585,669	$ 1,616,486
Notes receivable from participants	$ 575,432	$ 621,309

* Generally investments are certified at fair value; however, the value certified by DWS Trust Company at December 31, 2012 and 2011 is contract value, which is different from fair value reported in Note 5.

DWS Trust Company also certified to the completeness and accuracy of $1,346,893 of net appreciation in fair value of investments and $275,218 of interest and dividends related to the aforementioned Plan assets for the year ended December 31, 2012.

5. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), a lower priority to significant other observable inputs (Level 2 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. FAIR VALUE MEASUREMENTS...continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. Other than the change in valuation methodology for the common/collective trust fund as described below, there have been no changes in the methodologies used at December 31, 2012 and 2011:

Registered Investment Companies

Shares of registered investment companies are valued at the quoted market prices of such shares and no valuation adjustments are applied.

Common/Collective Trust Funds

Investments in the common/collective trust funds are stated at the estimated fair value based on the fair value of the underlying assets of the fund. Underlying index funds held by the DWS Stock Index Fund are valued at the closing NAV per unit/share on the valuation date.

At December 31, 2012, underlying guaranteed and security backed investment contracts held by the Putnam Stable Value Fund are valued at contract value, which approximates fair value, and is the amount that the Plan expects to receive upon liquidation. At December 31, 2011, underlying guaranteed and security backed investment contracts held by the Putnam Stable Value Fund are valued at the closing net asset value ("NAV") per unit/share and based on audited financial statements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

5. FAIR VALUE MEASUREMENTS...continued

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Level 3 Assets Common Collective Trust Fund
Balance, beginning of year	$ 1,671,645
Interest	31,621
Change in value due to change in basis of accounting	(55,159)
Purchases	429,406
Sales	(491,844)
Balance, end of year	$ 1,585,669

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include shares of registered investment companies managed by DWS Trust Company, the trustee of the Plan. Transactions in such investments qualify as exempt party in interest transactions, as defined by ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions, as defined by ERISA.

7. PLAN TERMINATION

On July 20, 2012, the Board of Directors of the Company resolved by unanimous written consent to terminate the Plan, effective August 31, 2012. As a result of the Plan termination, all participants became fully vested in their accounts, and no further contributions were allowed to be made to the Plan as of the effective date of the Plan termination. The Plan has received a final determination letter from the IRS reflecting the decision to terminate the Plan (see Note 8). The final determination of the planned distribution of Plan assets to the participants has not been made as of the date the financial statements were issued.

8. INCOME TAX STATUS

The Internal Revenue Service ("IRS") issued a final determination letter dated September 8, 2013, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC and stating that the termination of the Plan does not adversely affect its qualification for federal tax purposes.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investments that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per the financial statements	$ 14,306,104	$ 13,848,360
Less - adjustment from fair value to contract value for interest in common/collective trust funds relating to fully benefit-responsive investment contracts	-	55,159
Net assets available for benefits per the Form 5500	$ 14,306,104	$ 13,903,519

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2012:

Net increase in net assets available for benefits per the financial statements	$ 457,744
Difference in valuation of interest in common/collective trust funds relating to fully benefit-responsive investment contracts	(55,159)
