INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
The Laredo Transit Management, Inc.
Defined Contribution 401(K) Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Laredo Transit Management, Inc. Retirement Plan for their Defined Contribution Plan which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements and supplemental schedules as listed in the accompanying index.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United State of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Wells Fargo Bank, the

trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to prove a basis for an audit opinion. Accordingly, we do not express an opining on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The required supplemental information listed in the table of contents as the Schedule of Assets Held for Investment Purposes at End of Year, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A—DESCRIPTION OF PLAN

The following description of the Laredo Transit Management, Inc. Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees who had at least one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Net Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants (if applicable). Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 62 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment on their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may make up to $1,200 in discretionary contributions to eligible employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution if any, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of ten investment options.

T. Rowe Price Blue Chip Growth Fund - This fund seeks long-term growth of capital. It invests most assets in U.S. common stock, but it may also purchase other securities including foreign stocks, futures, and options.

Wells Fargo Advantage Government Income Fund - The fund is a bond fund that provides income and maximum safety by investing in U.S. Government bonds.

Wells Fargo Advantage Dow Jones Target 2010 - This is a fund that invests in various master portfolios, which in turn invest in a combination of equity, fixed income, and money market securities. Actual allocations will change over time.

Wells Fargo Advantage Dow Jones Target 2020 - This is a fund that invests in various master portfolios, which in turn invest in a combination of equity, fixed income, and money market securities. As funds approach target date, there is a decrease in holding of the stock, and an increasing holding on bonds and cash.

Wells Fargo Advantage Dow Jones Target 2030 - This is a fund that invests in various master portfolios, which in turn invest in a combination of equity, fixed income, and money market securities. Funds with longer time allow more room for stock investments.

Wells Fargo Advantage C&B Large Capital Value - This fund is a gateway fund that invests in large-capitalization securities, which are defined as securities of companies with market capitalization of $1 billion or more.

Wells Fargo Index Fund - The fund is a stock fund of investments in common stocks comprising the Standard & Poor’s 500 Index. The fund seeks to replicate the returns of the Index.

Wells Fargo Capital Growth - This fund invests in stocks or large companies with a blend of dividend paying stocks providing attractive current yields and capital appreciation potential.

Wells Fargo Small Cap Opportunities Fund - This fund is a stock fund designed to provide rapid growth of capital using investment techniques involving greater than average risk.

MFS Research International R3 - This fund seeks capital appreciation by investing primary in foreign equity securities, including emerging-market equity securities. It invests in the stocks of growth companies, value companies, or in a combination of growth and value companies.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate at Wall Street Prime Lending Rate plus 2%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump sum distribution if the vested account balance does not exceed $5,000. If the vested balance exceeds $5,000, the plan gives the participant specific options regarding when elections to receive distributions from the Plan can be made. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non vested accounts totaled $159 and $115 respectively. These accounts will be used to reduce future employer contributions in the plan year following the plan year in which the designated forfeiture occurs.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through September 30, 2013, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Many factors are considered in arriving at fair value. In general, however, corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. If a quoted market price for unrestricted common stock of the issuer is not available, restricted common stocks are valued at a multiple of current earnings less an appropriate discount. The multiple chosen is consistent with multiples of similar companies based on current market prices. Certificates of deposit (if any) are valued based on amortized cost or original cost plus accrued interest. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE C—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair values of common stock, most corporate bonds, and U.S. government securities are based on quoted market prices.

Level 2 Fair Value Measurements

The fair values of other corporate bonds are based on yields currently available on comparable securities of issuers with similar credit ratings.

Level 3 Fair Value Measurements

The fair value of guaranteed investment contracts (if any) is determined using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of mortgages (if any) is based on the future principal and interest payments discounted at prevailing interest rates for similar investments. The fair value of real estate investments (if any), principally rental property subject to long-term leases, has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2, or 3.

NOTE G—TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE H—RISKS AND UNCERTINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
