1. Description of the Plan:

The following description of the Triplefin LLC. 401(k) Plan ("the Plan") is provided for general informational purposes only. Participants should refer to the Summary Plan Description for a more complete description of the plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Triplefin, LLC (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees who have attained the age of 18 are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to the maximum annual dollar limit permitted by law of annual pre-tax or after-tax compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation. The Company will contribute a safe harbor non-elective contribution amount equal to three percent of eligible compensation. The Company may make a discretionary matching contribution up to four percent of eligible compensation.

Participant accounts

Each participant's account is credited with the participant's contributions and Company's contributions, as well as allocations of plan earnings and losses thereon and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document.

Vesting

Participants are immediately vested in their contributions and Company non-elective safe harbor contributions plus actual earnings and losses thereon. A participant vests 20 percent per year over five years of credited service with respect to discretionary company contributions. Regardless of service, a participant's entire account balance becomes fully vested upon attaining normal retirement age, or termination of employment due to death or permanent disability.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 (reduced by the highest outstanding loan balance in their account during the prior twelve month period) or 50 percent of their vested account balance. The loan term is not to exceed five years unless the loan is for the purchase of a principal residence, in which case the term may be longer. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Benefit payments

While employed, after attaining the age of 59 ½, or on termination of service for death, disability, retirement or early retirement, after attaining the age of 62, a participant may elect to receive a lump-sum

amount equal to the vested value of his or her account. Benefits are payable to designated beneficiaries in the event of a participant's death. Upon termination of employment for other reasons, participants may elect to rollover the vested balance to another qualified plan, or receive a lump sum distribution.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are primarily used to reduce plan expenses and/or any future Company contributions. At December 31, 2012 and 2011 forfeited non-vested accounts totaled \$2,025 and \$0, respectively. In 2012 no forfeitures were used to offset employer contributions.

2. Summary of Significant Accounting Policies:

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loans to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain professional and accounting fees incurred in connection with the operation of the Plan may be paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 15, 2013, the date on which the financial statements were available to be issued.

3. Investments Certified by Custodian:

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2012 and 2011, and net appreciation in fair value of investments, for the period ended December 31, 2012, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Company.

4. Investments:

Investments that represent five percent or more of the fair value of the Plan's net assets are as follows:

	December 31,	
	<u>2012</u>	<u>2011</u>
John Hancock Lifestyle Balanced	\$ 1,142,848	563,397
John Hancock Lifestyle Growth	584,039	433,458
John Hancock Lifestyle Moderate	274,151	203,617
John Hancock Lifestyle Aggressive	251,300	183,239
Mid Cap Index Fund	182,129	**

** Fair value does not represent 5% or more of the Plan's net assets available for benefits, as of December 31.

During the year ended December 31, 2012, the Plan's investments in pooled separate accounts (including investments bought, sold and held during the year) appreciated in value by \$283,833.

5. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by

correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2012 and 2011.

Pooled separate accounts: The investments in pooled separate accounts are valued using the net asset value (NAV) determined by fund custodians. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

6. Plan Termination:

Although it has expressed no intention to do so, the Company has the right under the Plan to discontinue its contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts, to the extent they are not already fully vested.

7. Income Tax Status:

The prototype Plan sponsor has obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype Plan document was in compliance with applicable requirements of the Internal Revenue Code. The Plan sponsor has not obtained its own determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, other than as discussed at Note 11, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Related Party Transactions:

Certain Plan investments are pooled separate accounts issued by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

9. Risks and Uncertainties:

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

10. Voluntary Correction Program:

The Company is in the process of filing a Voluntary Fiduciary Correction Program ("VFCP") submission with the Internal Revenue Service, which details late remittances of participant deferrals and the Company's plan for correcting them. The Company also is researching certain other items that may be included in a supplement to the VFCP submission.

11. Subsequent Events

Effective January 1, 2013, the Plan was amended to change the service requirement required by participants to become eligible to one year of service. The amendment also eliminated auto-enrollment.

Subsequent to year end the Plan underwent an audit by the Department of Labor ("DOL") for the years 2008 through February 2013. In September 2013, the DOL concluded its investigation, noting the delinquent participant contributions as reported on the accompanying supplemental schedule.
