Although it has expressed no intention to do so, the Company retains the right to terminate the Plan. In the event of Plan termination, all amounts credited to participants' accounts become fully vested subject to the requirements of ERISA. The Company also retains the right to amend the Plan.

Eligibility:

An employee is eligible to participate in the Plan after date of hire with the Company and having reached age 21. The Plan excludes union members whose employment is governed by a collective bargaining agreement, nonresident aliens who receive no earned income from sources within the United States or leased employees.

Contributions and allocations:

Participants may contribute a portion of their compensation through payroll deduction contributions. Each participant's contribution was limited by the Internal Revenue Service ("IRS") to a maximum of $17,000 during 2012. In addition, participants older than 50 were allowed to make a catch-up contribution of up to $5,500. Participants' contributions to the Plan are invested as directed by the participants.

At the discretion of the Company, the Plan allows employees to rollover amounts into the Plan from other qualified plans. The rollover contribution is permitted provided the trust from which the funds are to be transferred permits the transfer to be made.

Benefits and vesting:

Participants are immediately vested in their contributions plus actual earnings thereon.

Participants or their beneficiaries are eligible to receive distributions upon retirement, termination of employment, death or disability. Distributions of benefits while the participant is still employed are permitted for rollovers of the account balances, after-tax distributions, financial hardship, as defined, or upon the attainment of age 59½. Participants or their beneficiaries may elect to receive a lump sum payment or minimum required payments.

1. Description of Plan (continued)

Investment management fees and operating expenses:

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Note receivable from participant:

Participants may borrow a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, subject to certain limitations. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate determined by the Company. Principal and interest are paid ratably through semi-monthly payroll deductions. At December 31, 2012, the interest rates on the note was 4.25%. The financial risk and all associated costs with non performing loans are borne by the individual loan holder.

2. Summary of Accounting Policies

The following are significant accounting policies followed by the Plan:

Basis of accounting:

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Benefits are recorded when paid. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

2. Summary of Accounting Policies (continued)

Risks and uncertainties:

The Plan provides for investment options in various investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that material changes in the market values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events:

The Plan has evaluated subsequent events through October 14, 2013, the date the financial statements were available to be issued.

3. Investments

The Company has entered into agreements whereby, Pinnacle Financial Services, Inc. (the "Trustee") has been appointed the Trustee of the Plan's assets and Lincoln Financial Group (the "Custodian") has been appointed the Custodian of the Plan's assets. Under the terms of the agreement, the custodian holds and invests the funds of the Plan subject to the direction of a designated trustee. The Company is the Plan's administrator and fiduciary. All investments are carried at fair value.

The following presents individual investments that represent five percent or more of net assets available for benefits as of December 31, 2012:

Description	2012
Stadion Managed Growth Fund	$ 199,525
Stadion Managed Moderate Fund	62,347
Managed Principal Protection Portfolio	32,917
Others (less than 5%)	33,104
	$ 327,893

During 2012, the Plan's investments (including gains and losses on investments sold, as well as held during the year) appreciated in value by a net amount of $7,167.

4. Fair Value Measurements

In accordance with Accounting Standards Codification 820 ("ASC 820"), "Fair Value Measurements", for financial assets and liabilities fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

4. Fair Value Measurements (continued)

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2012, segregated among the appropriate levels within the fair value hierarchy:

Description	Fair Value as of December 31, 2012	Fair Value Measurements		
		Level 1	Level 2	Level 3
Assets:				
Pooled Separate Accounts	$ 294,976	$ -	$ 294,976	$ -
Stable Principal Fund	32,917	-	-	32,917
Total Investments, at fair value	$ 327,893	$ -	$ 294,976	$ 32,917

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

	Level 3 Assets Year Ended December 31, 2012
Beginning balance	$ -
Purchases	4,614
Investment earnings	29
Transfers	28,274
Balance, end of year	$ 32,917

4. Fair Value Measurements (continued)

Pooled Separate Accounts
The Custodian values the managed separate accounts at contract value. The contract value is equal to the number of participation units owned under the contract in each pooled separate account times the unit value of the participation units, which are based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of participation units outstanding which is the net asset value.

Managed Principal Protection Portfolio
The Managed Principal Protection Portfolio is recorded at contract value, which approximates fair value. See Note 6 below for further information related to the valuation of this investment.

5. Information Certified by Custodian

All information included in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 regarding investments and investment income, was certified to the Plan administrator by Lincoln Financial Group in its capacity as custodian for the Plan

6. Guaranteed Investment Contract

The Managed Principal Protection Portfolio (the "Portfolio") is a fully benefit-responsive investment contract issued by Lincoln Financial Group. The Lincoln National Life Insurance Company ("LNLI") determines the methodology used to calculate the interest crediting rate for the Portfolio. The crediting rates are set to be at least as high as the guaranteed minimum interest rate of 1% for the Portfolio and are guaranteed for at least one quarter. The average credited rate for the Portfolio during 2012 was 3.11%

Market value adjustments and surrender charges could limit the ability of the plan to initiate/complete a transaction at contract value and result in an adjustment to the net asset value. A market value adjustment is a feature of the Portfolio that protects against sudden movements in bond markets. The purpose of the market value adjustment is not to generate revenue but rather to offset losses caused by being forced to sell assets at a loss.

A transfer of Portfolio assets directly to a competing fund is never allowed. Transfer from the Portfolio to non-competing funds must be followed by a 90-day waiting period prior to assets moving from a non-competing fund to a competing fund. Transfers from the Portfolio to a non-competing fund will not be allowed for a period of 90 days following the transfer of assets from a non-competing fund to a competing fund. A surrender charge is a percentage of the withdrawal amount based on the contract year. Surrender charges can result in an adjustment to all investments in the Portfolio.

Under the provisions of the Portfolio, LNLI may terminate an annuity contract in certain circumstances as provided. The contract value is derived from the contract provisions and as such approximates fair value.

7. Tax Status

The prototype plan received a favorable tax determination letter dated December 15, 2009 from the IRS. Although the Plan itself has not received a determination letter, the Company believes that the Plan was designed and operates in compliance with the applicable requirements of the Internal Revenue Code.

Plan management has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

8. Administrative Expenses

The Company performs certain services for the Plan for which no fee is charged. Additionally, the Company paid approximately $250 of other expenses related to the administration of the Plan for 2012.

9. Related Party Transactions

Certain Plan investments and related transactions as of December 31, 2012, and for the year ended December 31, 2012, were in investment funds managed by the Plan's trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan's transactions with its third-party administrator and record-keeper also qualify as party-in-interest transactions. These transactions are not considered prohibited by statutory exemptions under ERISA.

10. Non-Exempt Prohibited Transactions

During 2012, the Plan failed to transmit participant contributions to the Plan within the time period described in 29 CFR 251a3-102. The Company transferred $65,137 to the Plan during 2012 and $22,081 to the Plan in January, 2013 to correct the error.
