4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that categorized the level of valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are observable but less prioritized than the Level 1 inputs, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The Plan measures fair value using Level 2 inputs because they are observable either directly or indirectly, and the fair value of the investment is not the quoted price used in Level 1. Level 3 inputs were used when Level 1 or Level 2 inputs were not available.

4. FAIR VALUE MEASURES (continued)

Level 2 Fair Value Measurements

The separate investment account (SIA) measured fair value using Level 2 inputs, which are observable through valuation of the each unit participation of all underlying assets at the end of reporting period. The fair value of the SIA includes reinvested dividend and interest income, realized and unrealized gains and losses of the underlying assets.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current interest rate of similar instruments with comparable durations considering the credit-worthiness of the issuer (2.19% at December 31, 2012 and 3% 2011).

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011.

The Planôs policy is to recognize transfers in or out of Level 3 at the event date or the circumstance requires the transfers to be undertaken. For the year ended December 31, 2012, there is no significant transfer in or out of Level 3.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of Internal Revenue Code (IRC). Throughout the years, the Plan has been amended in response to change in applicable laws and regulations. The plan administrator and the plan's tax counsel believe that the Plan is designed and operated in compliance with applicable requirements of IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of any liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. INVESTMENTS

The Plan's investments that represent 5% or more of the Plan's net assets are presented as follows:

	12/31/12	12/31/11
ING Intermediate Bond Portfolio	$ 0	$ 420,349
ING Large Cap Growth Portfolio	0	871,074

Contrafund	883,254	0
Investments of contracts in general account	3,198,814	3,155,882

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has set up a retirement account with Massachusetts Mutual Life Insurance Company (Mass Mutual) effectively October 1, 2012. All of the participants accounts have been transferred from ING Life Insurance and Annuity Company (ILIAC). The Planôs investment contract with Mass Mutual is considered to be fully benefit responsive. Mass Mutual maintains the contributions in both a general account and various separate investment accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by Mass Mutual and ILIAC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the investment contract at December 31, 2012 and 2011 was $3,198,814 and $3,155,882 respectively. The annual effective yields of the general account were approximately 2.19% and 3% for 2012 and 2011 respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed semi-annually for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Planôs ability to transact at contract value with Mass Mutual. The Plan administrator believes the occurrence of such events that would also limit the Planôs ability to transact at contract value with Plan participants is not probable.

9. TRANSFER OF ASSETS

The Plan management has transferred some of the participants into and out of this plan to a second plan established by the Company for compliance purpose. The transferred assets into this plan are $608,055, and assets transferred out of this plan are $1,271,701 as of December 31, 2012.
