401(k) Profit Sharing Plan

Notes to Financial Statements

NOTE 1. DESCRIPTION OF PLAN

The following description of the Certified Folder Display Service, Inc. (“Company”) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have annually over 1,000 hours and one year of service. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Each year, participants may contribute up to 20 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan currently offers twenty-three mutual funds as investment options for participants. The Company contributes 30 percent of the first 4 percent of base compensation that a participant contributes to the Plan. Participants direct the investment of their contributions and the matching Company contribution into various investment options offered by the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on individual participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Participant Loans

Participants are not permitted to borrow from their investment accounts.

Notes to Financial Statements

NOTE 1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or cash installments over a period determined by the participant or beneficiary. For termination of service for other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution. For account balance or installment amounts of $5,000 or less, the Plan requires immediate distributions.

Forfeited Non-Vested Assets

These amounts are used first to reduce Plan expenses and then to reduce Company contributions.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

The fair values of the Plan’s interests in collective investment funds are based upon the net asset values of the funds as reported by the fund managers. There are no restrictions on redemptions by participants of the collective investment funds.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when received.

Payment of Benefits

Benefits are recorded when paid.

Notes to Financial Statements

NOTE 2. SUMMARY OF ACCOUNTING POLICIES (Continued)

Operating Expenses

The plan is liable for all its administrative and other expenses. However, the Company may reimburse the Plan for any expenses incurred.

Date of Management's Review

Subsequent events were evaluated through October 4, 2013, which is the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS

Mutual funds	514,252	(70,778)
Other	22	-
Net increase/(decrease)	$ 544,176	$ (60,175)

NOTE 4. FAIR VALUE MEASUREMENTS

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs . The three levels of the fair value hierarchy are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. Also included are quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2. Inputs other than quoted prices that are observable for the asset or liability, including those derived principally from or corroborated by observable market data by correlation or other means.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Notes to Financial Statements

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/Collective Trusts: Valued at the net asset value (NAV) of units held by the plan at year end.

The investment fund option for the Invesco Stable Asset Fund is fully benefit-responsive and is reported at fair value. Any material difference between the fair value of the investment and its contract value is to be presented as a separate adjustment line attributable to fully benefit-responsive investment contracts in the statements of net assets available for plan benefits. The contract value represents principal contributions made by participants, plus interest accrued at a crediting rate established under the wrapper contract, less participant withdrawals and administrative expenses. The contract value as of December 31, 2012 and 2011 approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

December 31, 2012	Level 1	Level 2	Level 3	Total
Common Collective Trusts				
Index Funds	$ -	$ 198,206	$ -	$ 198,206

	$ 3,754,424	$ 910,744	$ -	$ 4,665,168

NOTE 5. BENEFIT ACTIVITY

Benefits and distributions paid were as follows:

	2012	2011
Voluntary terminations	$ 137,150	$ 242,264
Other withdrawals	161,417	71,000
Hardship withdrawals	14,050	-
Minimum age distributions	19,619	18,865
	$ 332,236	$ 332,129

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 7. PLAN EXPENSES

For the years ended December 31, 2012 and 2011, administration expenses in the amount of $1,782 and $1,833, respectively, were paid by the Company.

Notes to Financial Statements

NOTE 8. TAX STATUS

The Internal Revenue Service has determined and informed the custodian by a letter dated April 26, 1991, that the prototype Plan adopted by the Company and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The prototype Plan has been amended and a determination letter dated December 15, 1992 was received. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize the tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress by taxing authorities. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 9. PARTY-IN-INTEREST AND REPORTABLE TRANSACTIONS

No prohibited party-in-interest transactions occurred during the years ended December 31, 2012 and 2011.

Reportable transactions are transactions in excess of five percent of Plan assets, as defined under ERISA. There were no reportable transactions which occurred during the Plan years ended December 31, 2012 and 2011.

NOTE 10. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
