Notes to Financial Statements

Note 1: Description of the Plan

The following description of Pierce Goodwin Alexander & Linville 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Pierce Goodwin Alexander & Linville, Inc. (the Company), for the benefit of its employees who have completed one month of service and are age 21 or older. Related employers who also participate in the Plan include PGAL, LLC. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Company make annual contributions of up to 75 percent of eligible compensation. A participant may elect to have all or a portion of the participant's elective deferrals to be Roth elective deferrals when contributed to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Employee rollover and employee Roth contributions are also permitted. The Company may elect to make discretionary profit sharing contributions. Contributions are subject to certain limitations. Forfeitures are allocated among active participants. Both the discretionary profit sharing contributions and forfeitures are allocated among eligible participants based upon compensation.

Participant Investment Account Options

Participants direct the investment of their contributions, as well as the Company's contribution, into various investment options offered by the Plan. The Plan currently offers various mutual funds, a common/collective trust fund and a money market account as investment options for participants.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, Plan earnings and forfeitures of terminated participants' non-vested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled are the benefits which can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts, plus earnings thereon, is based on years of continuous service. A participant is fully vested after six years of continuous service. The non-vested balance is forfeited upon termination of service. Forfeitures are allocated among active participants based upon compensation.

Payment of Benefits

Upon retirement, death or disability, participants or beneficiaries are entitled to a distribution equal to the total vested valued of his or her account. Upon termination of service, a participant may elect to receive either a lump-sum amount, installment payments equal to the value of their vested account or a direct rollover distribution. If the vested account is less than $5,000 at the time of termination, the entire amount will automatically be distributed to the participant within an administratively reasonable time. For distributions that are greater than $1,000 and not exceeding $5,000, the distribution shall be paid in a direct rollover to an individual retirement money market account unless the Plan participant elects otherwise. The Plan also permits withdrawals from the Plan due to circumstances of financial hardship, in accordance with provisions specified in the *Plan Document*. Additionally, a participant who has attained age 59 ½ may withdrawal all or any portion of their vested account balance.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $26,222 and $165,237, respectively. These accounts will be reallocated to participants in the same manner as employer contributions. For the year ended December 31, 2012, forfeitures of $165,237 were reallocated to participants.

Notes Receivable from Participants

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. All loans are repayable over a period of time not to exceed five years (except for the purchase of a principal residence) through payroll withholdings. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator.

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the *Plan Document*.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared based on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value mutual funds as provided by Fidelity. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The common/ collective trust fund with underlying investments in investment contracts is valued at contract value, which approximates fair value as estimated by Fidelity. The money market fund is valued at amortized cost, which approximates fair value.

The Fidelity Advisor Stable Value Portfolio is diversified among high-quality, short-term investments. The fund invests across several fixed-income categories, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities and mortgage-backed securities, as well as units of a money market portfolio. The fund is wrapped by a syndicate of four banks and insurance companies, facilitating book value withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the years.

Plan Tax Status

The Company adopted a volume submitter profit sharing plan, which obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated the volume submitter profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since the issuance of the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. Federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The Plan's investments are held by Fidelity. The fair value of the Plan's investments at the end of the years and the Plan's investments (including investments bought, sold and held during the years) appreciated (depreciated) in fair value as follows:

Interest and dividends realized on the Plan's investments for the years ended December 31, 2012 and 2011, were $295,378 and $312,373, respectively.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such employer or employee association, or relatives of such persons.

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments. The Company provides certain administrative services at no cost to the Plan.

Note 5: Plan Amendment

Effective April 1, 2011, the *Plan Document* was amended to exclude bonuses from eligible compensation for 401(k) deferrals.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value.

Level 1 Quoted prices in active markets for identical assets.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets.

Recurring Measurements

The tables on the following page present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011.

	2012

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation

hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
