Note A - Description Of Plan

The following description of Access Health Care LLC 401(k) Profit Sharing Plan (the Plan) (formerly, Access Health Care LLC 401(k) Profit Sharing Plan and Trust) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a prototype profit sharing plan covering all eligible employees of Access Health Care LLC and its participating affiliates (collectively, the Sponsor). The Plan was originally effective January 1, 2002, has been amended subsequently, and was most recently restated on January 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

The elective deferral component of the Plan requires attaining the age of 21 and completing three consecutive months of service. Eligibility requirements for the Sponsor contributions are attaining the age of 21 and completing one year of service. Participants are credited with a year of service for any Plan year in which 1,000 hours are worked, using the equivalency method of crediting hours. Under this method, employees are credited with 190 hours per month for each month in which an hour of service is worked.

Contributions

Each year participants may contribute from 1% to 96% of their pretax annual compensation, as defined by the Plan, up to statutory annual limits. In addition, the Plan allows post-tax contributions, catch up contributions, and distributions from qualified plans, annuity contracts, and other eligible plans as defined in the Plan instrument. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor matches each participant's deferral in an amount equal to 100% of the first 3% and 50% of amounts greater than 3%, but less than 5%, of the participant's deferred compensation. Matching contributions are calculated each payroll period.

The Plan also allows profit sharing and nonelective contributions. The Sponsor did not make any profit sharing or nonelective contributions for the years ended December 31, 2012 and 2011.

Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, an allocation of the Sponsor contributions, and Plan earnings. Allocations of earnings are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Vesting is based on years of service. Participants are immediately vested in their salary deferral contributions, employee rollovers, Sponsor safe harbor contributions, and actual earnings thereon.

A participant is fully vested in all other non-safe harbor Sponsor contributions after six years of service and also upon retirement, death, or total and permanent disability. The following schedule describes the Plan's vesting provisions relating to these contributions:

Years of Service	Vested Percentage
One year or less	None
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six years	100%

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to reduce Sponsor contributions or to pay administrative expenses. At December 31, 2012 and 2011, there were no allocated forfeitures. At December 31, 2012 and 2011, total unallocated forfeitures were \$0 and 15,918, respectively.

	<u>\$ (15,918)</u>	<u>\$ 14,051</u>

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000, up to one half of their vested account balances, not to exceed \$50,000, with terms that may not exceed five years unless made to purchase a primary residence, and the loans are to carry a reasonable rate of interest.

Payment Of Benefits

Upon termination, retirement, death, or disability, participants may elect to receive a lump sum amount equal to the value of the vested interest in their account, periodic payments over a specified period of time, or transfer the balance of the account to another trust.

Note B - Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting, except for benefit payments which are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment in the general account is considered fully benefit-responsive and as such, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the general account.

The statements of net assets available for benefits present the fair value of the investment contract, which approximates contract value. As a result, the 2012 and 2011 statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Contract With Insurance Companies

The general account is credited with a rate of interest as declared by Hartford Life Insurance Company quarterly, but is in no case lower than 3% guaranteed minimum interest rate.

The average yield earned by the Plan is the yield earned (i.e., interest credited) on the contract. The fixed account was credited with a rate of interest of 3% for the year ended December 31, 2012 and 2011. The fixed account contract issuers are contractually obligated to repay the principal and guaranteed minimum interest rate.

Certain events limit the ability of the Plan to transact at contract value. Such events may include the following: 1) amendments to the Plan documents (including complete or partial termination), 2) bankruptcy of the Sponsor or other Sponsor events that cause a significant withdrawal from the Plan, or 3) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Effective January 1, 2013, the Plan was merged into FRF 401(k) Advantage, a multiemployer plan. The contract was transferred at fair value.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net unrealized appreciation (depreciation) is reflected in the statements of changes in net assets available for benefits. See Note D for discussion of fair value measurements.

Notes To Financial Statements

December 31, 2012 And 2011

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's administrative expenses, except for certain fees, are paid by the Sponsor.

Due From Broker For Investments Sold

Due to broker represents amounts liquidated at fair value before year end, but not settled until after year end.

Notes Receivable From Participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Custodian And Recordkeeper

As of and for the years ending December 31, 2012 and 2011, Hartford Life Insurance Company (The Hartford) was the custodian and recordkeeper of the Plan.

Subsequent Events

The Sponsor has evaluated all events subsequent to December 31, 2012 and through October 15, 2013, which is the date these financial statements were available to be issued. Effective December 31, 2012, the plan assets were transferred into a non invested account.

Effective January 1, 2013, the Plan was merged into FRF 401(k) Advantage, a multiemployer plan. All assets were transferred to FRF 401(k) Advantage as of January 3, 2013. The Sponsor determined that there are no other subsequent events that require recognition or disclosure in the accompanying financial statements.

Note C - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2011:

Franklin Templeton Moderate Allocation R	\$ 235,302
General Account	1,431,081

Note D - Fair Value Measurements

Accounting standards provide a framework for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes To Financial Statements

December 31, 2012 And 2011

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts - Valued based on the reported net asset value of each fund, which is based on the quoted market price or fair value of each fund's underlying investment less investment fees and charges.

General Account - Valued at fair value as estimated by The Hartford, and adjusted to contract value which represents contributions made under the contract, plus interest at the contract rate, less funds used to pay retirement benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31, 2011:

	Total	Level 1	Level 2	Level 3
Pooled Separate Accounts				
Large value funds	\$ 170,981	\$ -	\$ 170,981	\$ -

Note E - Information Prepared And Certified By The Custodian

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The plan administrator has obtained certification from the custodian regarding the completeness and accuracy of the information provided to the plan administrator as of and for the years ended December 31.

Note F - Plan Termination

Effective January 1, 2013, the Plan was merged into FRF 401(k) Advantage, a multiemployer plan. All assets were transferred to FRF 401(k) Advantage as of January 3, 2013.

Note G - Tax Status

The Plan adopted an approved prototype plan which received an opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 as to the Plan's qualified status. The Sponsor has elected to rely on the prototype plan determination letter in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code.

The plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2009.

Note H - Related Party Transactions

Fees paid during 2012 and 2011 by the Sponsor and the Plan to the Plan's trustees and other service providers were based on customary rates for their services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note I - Risks And Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
