NOTES TO FINANCIAL STATEMENTS

As of 2012 and 2011, and for the Year Ended December 31, 2012

I. DESCRIPTION OF PLAN

The following description of the A.J. Antunes & Co. Profit Sharing and Employee Savings Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of A.J. Antunes & Co. (the "Company" or "Employer") who meet minimum age and service requirements. For employee salary deferrals and employer matching contributions, the employee must have attained age 18. Payroll deferrals may begin on the first calendar month following the date of hire. For the employer profit sharing contributions, the employee must have completed at least 1,000 hours of service during the first twelve consecutive months of employment with the Company, and be a participant on the last day of the plan year.

The Plan has adopted an automatic deferral election, where upon becoming eligible to make salary deferrals, the employee will become a Participant in the Plan, and will be deemed to have entered into a salary deferral election at a rate of 4 percent. Employees have an option to opt out from this automatic enrollment.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Salary Deferral Contributions and Employer Matching - Employees can make pre-tax or ROTH elective salary deferral contributions up to 50% of their Plan compensation, subject to IRS limits. Participants age 50 or older before year end are permitted to make catch-up contributions to the Plan. The additional contribution is permitted once the participant’s maximum contribution has been reached. For the 2012 Plan year, the catch-up contribution limit was $5,500. During the plan year ended December 31, 2012 the Company made matching contributions of $369,383.

Profit Sharing Contribution - The Company reserves the right to make an elective contribution each year, and allocate it to participants' accounts based on a formula defined in the Plan Document. For the plan year ended December 31, 2012, the Company elected to make a $200,000 profit sharing contribution.

Rollover Contributions - The Plan may receive rollover contributions on behalf of an employee. Acceptance of a rollover contribution shall be subject to the approval of the plan administrator, and in accordance with the Plan Document.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, an allocation of the Company's elective profit sharing contribution, and plan earnings. Earnings are allocated based on account balances.

I. DESCRIPTION OF PLAN (Continued)

Investment Options

Participants direct the investment of their account balance and future contributions into various investment options offered by the Plan. Upon enrollment in the plan, a participant may select any combination of investment options consisting of registered investment companies (mutual funds) and a common collective trust. Participants may change their investment options at anytime.

Vesting

Participants are immediately vested in their salary deferrals and the employer's matching contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants become fully vested after reaching early retirement age, and upon termination of service due to death or disability.

Loans to Participants

Participants may borrow from their vested account balances a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50 percent of their available balance, as prescribed in the Participant Loan Program. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant note fund. Loan terms range from one to five years, unless the proceeds of the loan are used to purchase a primary residence. Loans are secured by balances in the participants' accounts. Interest rates range from 4.25% to 5.00%. Principal and interest are paid ratably through periodic payroll deductions, or by personal checks received from terminated employees.

Payments of Benefits

Upon termination of employment, a Participant may elect to receive a lump-sum distribution of his/her entire vested account balance, a partial lump-sum, or an installment distribution in accordance with the Plan Document. Participants who are still employed by the Company have an option to request a hardship distribution.

Forfeitures

Forfeitures are used to pay Plan expenses, and to reduce employer and/or matching contributions. Additionally, forfeitures could be used to restore the non-vested portion of the account balance for Participants who resume employment with the Company within certain time limits. Accumulated unallocated forfeitures at December 31, 2012 amounted to $1,008.

II. SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review
The Plan's management has evaluated subsequent events through October 15, 2013, the date which the financial statements were available to be issued.

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method in accordance with accounting principles generally accepted in the United States of America.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.**Risks and Uncertainties**
The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. The shares of the registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The shares of the collective common trust are valued based on market data obtained from sources independent of the Plan. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who had elected to withdraw from the Plan, but have not been paid at December 31, 2012 and 2011.

Excess Contributions Payable
The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

III. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels:

Level 1 - Quoted prices in active markets for identical assets at the measurement date. The fair value of registered investment companies is based on quoted net asset values on the shares held by the Plan at year end.

Level 2 - Observable inputs other than quoted prices for the asset, either directly or indirectly observable, that reflect assumptions market participants would use to price the asset based on market data obtained from sources independent of the Plan. This may include matrix pricing, yield curves and indices.

Level 3 - Unobservable inputs that reflect the Plan's own assumptions about the assumptions market participants would use to price the asset based on the information available in the circumstances. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements Using:		
	Fair Value	Quoted Prices In Active Markets For Identical Assets (Level 1)	Observable Inputs Other Than Quoted Market Prices (Level 2)	Significant Unobservable Inputs (Level 3)

V. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100 percent vested in their accounts.

VI. PLAN QUALIFICATION

The Plan has adopted a Prototype Non-standardized Profit Sharing Plan with a Cash or Deferred Arrangement. The Plan is not required to obtain its own determination letter because it relies on the opinion letter which CPI received from the Internal Revenue Service on March 31, 2008. Although the Plan has been amended since the issuance of the determination letter, the Plan's administrator and tax counsel believe the plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
