NOTE A - DESCRIPTION OF THE PLAN

The following description of the Costa Farms, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan Sponsor is Costa Nursery Farms, LLC (the "Company" or "Sponsor").

General

The Plan is a defined contribution plan covering all eligible employees of Costa Farms, LLC ("Costa") and certain affiliated companies. Employees who are age 21 or older, with one year and 1,000 hours of service are eligible for participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2011, the Plan disallowed Roth deferral contributions to the Plan.

The Plan was amended, on March 31, 2011, to make the elective service crediting option for employees from a predecessor employer/predecessor plan applicable. With this election, employees from the predecessor employers acquired by the Plan Sponsor would be able to carry over their eligibility and vesting status from their former plans.

On October 14, 2012, the Plan was amended to make the elective service crediting option for employees from a predecessor employer/predecessor plan for the employees of Costa Layman, LLC (formerly "Layman Wholesale Nurseries, Inc."). All employees of the Costa Layman, LLC who met the eligibility requirements after November 1, 2012 became eligible to participate in the Plan.

Contributions

Each year, participants may elect to contribute up to their entire eligible pre-tax compensation as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers").

Costa may make a discretionary matching contribution equal to a percentage of the participant's contribution or additional contributions at the discretion of Costa. For 2012, Costa made a matching contribution equal to 20% of the participant's contribution that does not exceed 10% of the participant's eligible compensation as defined in the Plan.

All contributions during the Plan year are subject to a maximum dollar limitation established by the Internal Revenue Code ("IRC"). For the year ended December 31, 2012, the total maximum allowable tax-deferred contribution to the Plan under the IRC from employee sources was $17,000 and an additional $5,500 catch-up contribution for eligible employees.

(continued)

NOTE A - DESCRIPTION OF THE PLAN - Continued

Contributions - Continued

Contributions received from participants for 2012 are net of excess deferral contributions of approximately $43,000, as required to satisfy the relevant nondiscrimination provisions of the Plan. This amount has been accrued as a liability at December 31, 2012.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions plus actual earnings thereon to be invested in any of the investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, any discretionary Costa contributions, and a proportionate share of Plan earnings, and charged with an allocation of administrative expenses as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Prior to August 1, 2006, the Plan provided for 100% immediate vesting for all Company contributions. As of August 1, 2006, all newly eligible participants entering the Plan will vest in Costa contributions based upon the following schedule:

Years of Service	Percentage Vested
One year	20%
Two years	40%
Three years	60%
Four years	80%
Five years or more	100%

(continued)

NOTE A - DESCRIPTION OF THE PLAN - Continued

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range up to five years, with the exception of loans used for the purchase of personal residence loans, which can range up to 30 years. The loans are secured by the balance in the participant's account and bear interest at 1% over the Prime Rate published in the Wall Street Journal on the first business day of the month the loan is originated. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts

Forfeitures of nonvested account balances are used by Costa to reduce the discretionary matching contributions or Plan expenses for the plan year in which the forfeiture occurs. As of December 31, 2012 and 2011, there was an immaterial amount of forfeited non-vested accounts. These accounts will be used to reduce future Costa discretionary matching contributions or Plan expenses. During 2012, Plan expenses were reduced by an immaterial amount from forfeitures.

Payment of Benefits

Upon termination of service, a participant is entitled to the value of the participant's vested interest in his or her account. If the vested interest is greater than $5,000, a participant may elect to have the funds remain in the Plan until age 70½. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Benefits are recorded as deductions from net assets available for benefits when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

(continued)

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end. The fair value of the Great-West Key Guaranteed Portfolio Fund is based on a discounted cash flow valuation methodology where the interest rate for this portfolio investment contract is reset at least as frequently as annually.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The mutual funds provide for daily redemptions by the Plan at reported NAV with no advance notice requirement.

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation of investments is recorded in the accompanying statement of changes in net asset available for benefits as net appreciation in fair value of investments and includes realized gains and losses on investments bought and sold as well as held during the year, as well as unrealized gains and losses on investments held as of the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administration of the Plan

Certain administrative functions are performed by officers or employees of Costa. No such officers or employees receive compensation from the Plan. Certain administration expenses, such as professional fees, are paid directly by Costa. Fees paid by Costa were approximately $32,000 for 2012.

NOTE C - RISKS AND UNCERTAINTIES

The Plan provides for investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE D - INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	2012	2011
Great-West SF Lifetime 2035 G1	$ 1,148,952	$ 885,625
Great-West SF Lifetime 2045 G1	673,977	499,055
Great-West SF Lifetime 2025 G1	671,431	610,770
Great-West Lifetime 2025 II T1	415,708	202,809
Great-West SF Lifetime 2015 G1	276,167	210,031
Great-West Key Guaranteed Portfolio Fund	172,762*	143,559

*Does not represent five percent or more of the Plan's net assets at year-end.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately $304,000.

NOTE E - FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(continued)

NOTE E - FAIR VALUE MEASUREMENTS - Continued

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds – Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Target Date Collective Investment Funds – Includes a combination of mutual funds, collective trusts, and pooled separate accounts. Mutual funds are valued as discussed above. Collective trusts are valued as described below. Pooled separate accounts are valued based on the observable net asset value of the underlying investments on the last day of the reporting period. The target date collective investment funds provide for daily redemptions by the Plan at reported NAV's with no advance notice requirement.

Guaranteed Investment Contract – Valued using a discounted cash flow valuation methodology, where the interest rate for the portfolio investment contract is reset at least as frequently as annually.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Specialty	$ 116,703	$ -	$ -	$ 116,703

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, Costa has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

NOTE G - TAX STATUS

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC, and that, therefore, the Plan qualifies under section 401(a) and the related trust is tax-exempt as of December 31, 2012 and 2011. Therefore, no provision for taxes has been included in the Plan's financial statements. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

(continued)

NOTE G - TAX STATUS - Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

NOTE H - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments include a guaranteed investment contract and certain mutual funds managed by Great-West Trust Company, LLC that is also the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

Notes receivable from participants are considered party-in-interest transactions.

Administrative expenses paid directly to the custodian totaled approximately $1,600 during the year ended December 31, 2012.

NOTE I - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Great-West Trust Company, LLC has certified that the following data included in the financial statements and supplemental schedule are complete and accurate:

a. Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.

b. Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

c. Schedule H, Line 4i – Schedule of Assets (Held at End of Year), December 31, 2012.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information certified by the custodian to the related information included in the financial statements and supplemental schedule.

NOTE J - PROHIBITED TRANSACTIONS

During 2012, the Plan Sponsor failed to deposit approximately $284,000 of contributions, made up of participant contributions of approximately $259,000 and loan payments of $25,000 within the required timeframe established by the United States Department of Labor ("DOL"). The DOL considers late contributions to be prohibited transactions. The amount of lost earnings on the late deposits totaled approximately $540 for the year ended December 31, 2012.

As of October 15, 2013, the Company had not made a filing under the Department of Labor's Employee Benefits Security Administration (EBSA), Voluntary Correction Program (VFCP) to correct its breach of failing to remit the contribution timely for the 2012 plan year. Lost earnings for the 2012 plan year, totaling $540 had not been paid nor allocated to the effective participant's accounts as of December 31, 2012.
