The Plan is a defined contribution plan and trust covering substantially all employees of Nuvera Fuel Cells (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to 30% of their compensation on a pre-tax basis or after tax basis, subject to Internal Revenue Code ("IRC") limitations. Participants who are at least age 50 may make an additional pre-tax "catch-up" contribution subject to IRC limitations. Participants may also contribute funds from another qualified retirement plan ("rollover" contributions), subject to certain requirements.

Participant Accounts

A separate account is established for each participant upon enrollment in the Plan. Each participant's account is credited with the participant's contributions and the actual investment results, including realized and unrealized gains and losses, of the funds within the participant's account. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the plan document.

Vesting

Participants are immediately vested in their voluntary contributions and earnings thereon.

Distribution of Benefits

Benefits may be distributed to participants upon termination of employment by reason of retirement, disability, death or other separation from service. Distributions under the Plan may be made in lump sums. Separated participants who have a vested account balance of less than \$1,000 will receive a lump sum distribution of 100% of their vested benefits. Participants who have a vested account balance in excess of \$1,000 may defer distribution of their account balance until their normal retirement date or as otherwise provided for in the Plan.

The Plan allows in-service withdrawals upon attainment of age 59 ½. A participant may also request a withdrawal upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship". The minimum hardship distribution that may be taken is \$1,000. Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate.

Notes Receivable from Participants

A participant may borrow an aggregate amount up to the lesser of \$50,000 or 50% of the participant's vested account balance. The minimum loan allowed is \$1,000. Loans must bear a reasonable rate of interest. Loans are made for hardship purposes only. Loans are collateralized by the participant's nonforfeitable interest in the Plan and are supported by a promissory note. Loans must be repaid over a period not to exceed five years unless the loan proceeds are used for the purchase of a primary residence, in which case a longer repayment period is allowed. Participant loans are valued at the unpaid principal balance plus any accrued but unpaid interest and categorized as notes receivable from participants on the statements of net assets available for plan benefits. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides investment options in mutual funds, which may invest in any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Expenses of the Plan

Substantially all of the administrative expenses incurred by the Plan are paid by Company. Investment fees incurred by the Plan are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

C. INVESTMENTS:

The following presents investments as of December 31, 2012 or 2011 that represent 5% or more of the net assets available for plan benefits:

	<u>2012</u>		<u>2011</u>
Union Bond and Trust Company Stable Value Fund	\$ 572,736 *	\$ 503,297 *	
SSGA S&P 500 Index Fund (Security Lending)	316,722 *	132,723	
EuroPacific Growth Fund	364,644 *	354,827 *

Neuberger Berman Genesis Fund	394,978 *	475,434 *	
PIMCO Total Return Fund	325,627 *	312,430 *	

* Represents 5% or more of net assets available for plan benefits.

Net appreciation in fair value of investments for the year ended December 31, 2012, by investment type, is as follows:

	<u>2012</u>
Mutual funds	\$ 591,745
Common collective trusts	<u>27,279</u>
	<u>\$ 619,024</u>

D. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable and supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds – Valued at the net asset value of the shares held by the Plan at year end as determined by quoted market prices.

Common collective trusts – Valued at net asset value as reported in the audited financial statements by the investment manager based on the fund's underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level and by investment class, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

The Stable Value Fund, a fixed income fund valued at \$572,736 and \$503,297 as of December 31, 2012 and 2011, may delay any participant initiated withdrawal for up to 30 days and may require a notice period of up to 12 months for plan level withdrawals. There are no unfunded commitments. Investment strategies for the common collective trusts, by major investment class, are as follows:

- (a) The stable value common collective trust invests primarily in insurance contracts and corporate and government agency bonds.
- (b) The index equity fund mirrors the S&P 500 index over the long term, producing slightly higher returns.

E. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and transactions with investment funds managed and held by the custodian are considered party-in-interest transactions

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined in its opinion letter dated March 31, 2008 that the prototype non-standardized plan document adopted by the plan constitutes a qualified trust under Section 401(a) of the Internal Revenue Code, and is exempt from federal income taxes under the provisions of Section 501(a) of the IRC. The Plan has been amended since the date of that letter.

The plan administrator believes the Plan is currently designed and operated in compliance with applicable requirements of the IRC and is qualified as of the financial statement date. Additionally, the related trust is believed to be tax-exempt as of the financial statement date and, accordingly, no provision for income taxes has been recorded in the Plan's financial statements.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements. The Plan did not recognize any interest and penalty expense for the year ended December 31, 2012. The Form 5500 remains subject to examination by the IRS for the years ended December 31, 2009 through December 31, 2012.

G. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by the custodian, Nationwide Trust Company, FSB, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedule. The custodian has certified as to the completeness and accuracy of the investments (including notes receivable from participants) held by the Plan as of December 31, 2012 and 2011 and the investment earnings and other investment-related transactions of the Plan for the year ended December 31, 2012, and the information contained in the supplemental schedule.

H. PLAN TERMINATION:

The Plan was established with the intention that it will continue indefinitely. However, the Company reserves the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

I. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through July 29, 2013, the date these financial statements were available for issuance.

J. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:
