LITCHFIELD CAVO LLP 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Litchfield Cavo LLP 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Litchfield Cavo LLP (the Firm) who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Central Bank and Trust Company was the trustee of the Plan until January 31, 2011, under a contractual agreement with the Firm, and managed all investments. CPI Qualified Plan Consultants, Inc. (CPI) was the recordkeeper until January 31, 2011. The recordkeeping agreement provided that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions, and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period.

On February 1, 2011, the trustee of the Plan became Marshall & Ilsley Trust Company. At that time, the assets were transferred to Marshall & Ilsley Trust Company which became the recordkeeper and trustee. As of June 1, 2011, CUNA Mutual Group took over the Plan's recordkeeping duties and MG Trust Company, LLC became the custodian.

On July 1, 2012, the trustee of the Plan became Wilmington Trust. As of July 1, 2012, Pattillo Brown & Hill LLP (PB&H) took over the Plan's recordkeeping duties.

The amounts in the accompanying statements were accumulated from the reports of the recordkeepers.

Contributions – Each year participants may contribute up to 50% of annual compensation, as defined in the Plan. Participants may designate their deferral as pre-tax or Roth contributions and cannot exceed $17,000 in 2012. Age 50 and over participants can contribute an additional $5,500 in 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective February 1, 2008, all new participants are automatically enrolled, upon satisfying the eligibility requirements, and automatically defer 5% of annual compensation for each payroll period, unless an alternative election is made by the participant.

The Firm will contribute a safe-harbor non-elective contribution of 3%, based on a participant's limited gross compensation for the plan year, to those who have completed the eligibility requirements.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of the Firm's contribution and plan earnings, and charged with an allocation of investment and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions and the Firm contributions plus actual earnings thereon.

1. Description of Plan (Cont.)

Investments – Participants self-direct the investment of contributions into various investment options offered by the Plan. Investment options include a common/collective trust stable value fund and registered investment companies. Participants may change their selection of investments at any time.

Notes Receivable from Participants – Participants may borrow from their fund account a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. Interest rates range from 4.25% to 6.00% at December 31, 2012.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may receive the value of their account balance in a lump sum.

Forfeited Accounts – Forfeited nonvested accounts are used to reduce employer contributions or to pay the Plan's ordinary and necessary administrative expenses. At December 31, 2012 and 2011, there were no forfeitures available for future use.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. The Plan's investments in registered investment companies are valued at quoted market prices. The Plan's investments in common/collective trust funds are stated at fair value as described below.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts – Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2012, the Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the contract value of the investment in the common/collective trust which approximates market value of the fund and is based on information reported by the issuer of the common/collective trust at year end. The contract value of the funds represents contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 1.02% in 2012. The average yield credited to participants in 2012 was 1.42%.

2. Summary of Significant Accounting Policies (Cont.)

Fair Value Measurements – In May 2011, the Financial Accounting Standards Board issued guidance in Accounting Standards Update No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU No. 2011-04). ASU No. 2011-04 was issued to improve comparability of fair value application, measurements and disclosures between U.S. GAAP reporting and IFRS reporting. ASU No. 2011-04 clarifies fair value definitions and enhances fair value measurement guidance with respect to highest and best use measurements, equity instrument measurements, and measurement of financial instruments that are managed within a portfolio. Additionally, ASU No. 2011-04 expands disclosures for unobservable inputs used in Level 3 fair value measurements. ASU No. 2011-04 is effective for annual periods beginning after December 15, 2011. The Plan has adopted this guidance in 2012.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain administrative and trustee fees related to the general administration of the Plan are paid directly by the Firm and not reimbursed by the Plan. Administrative expenses paid by the Plan are reported as incurred.

	$ 1,988,327

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

At December 31, 2011, the fair value of participation units held by the Plan in the general insurance account (Stable Value Fund) is based on their net asset values, as reported by the manager, CUNA Mutual Group, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair value of the general insurance account that invests only in securities traded on nationally recognized securities exchanges and active dealer markets is classified within Level 2 of the fair value hierarchy. The fair value of the general insurance account that invests in securities other than those traded on national exchanges and active dealer markets is classified in Level 3 of the fair value hierarchy.

The net asset values of the common/collective trust funds are based on the market value of its underlying investments. These funds contain synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level 1 and Level 2 pricing inputs, including quoted prices for similar assets in active and non-active markets.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

5. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as changes in interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

Certain Plan investments were managed by MG Trust Company, LLP and Wilmington Trust, the trustees of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan during the year for investment management, recordkeeping, auditing and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain investment fees are netted against the net appreciation in fair value of investments.

7. Financial Information Certified by the Trustee

The plan administrator has elected the method of annual compliance reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by MG Trust Company, LLP and Wilmington Trust, the trustees, as complete and accurate:

- Investments, at fair value, and participant notes receivable, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.
- Investments, at fair value, and participant loans as reported on the supplemental schedule of assets (held at end of year) at December 31, 2012.
- Investment income (loss) components and interest from participant notes receivable, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

Wilmington Trust held the Plan's investment assets and executed investment transaction as of December 31, 2012 and for the period July 1, 2012 to December 31, 2012. MG Trust Company, LLC held the Plan's investments for the period January 1, 2012 to June 30, 2012.

8. Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA as amended by subsequent legislation.

9. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator and trustees believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

10. Subsequent Events

Management has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued.
