ICF 401(K) PLAN

Notes to the Financial Statements

As of December 31, 2012 and 2011 and for the Year Ended December 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF 401(k) Plan (the "Plan"), last amended and restated January 1, 2007, to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan.

Eligibility and Contributions - Upon employment, on-call employees are eligible to participate in the Plan. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

Vesting - Participants vest immediately in their pre-tax and after-tax contributions, rollover contributions, and any earnings thereon.

Distributions - Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment, as defined by the plan agreement and Section 401(k) of the Internal Revenue Code ("IRC").

Upon termination of service, if the vested value of the participant's account is $1,000 or less, the participant's benefits will be paid in a lump-sum unless the Vanguard Fiduciary Trust Company (the "Trustee") is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than $1,000, but less than or equal to $5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account ("IRA") with the Trustee unless the Trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than $5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of ten years, or to leave the account in the Plan. If no request is made and the account is greater than $5,000, the participant's account will remain in the Plan.

Administrative Expenses - A portion of the administrative costs associated with the Plan are paid by the Company.

Participant Accounts - The Plan maintains an account for each participant. Each participant's account is credited with the participant's contributions and an allocation of plan earnings or losses. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis. The account balances may be charged for fees related to transactions.

Interplan Transfers - The Company sponsors multiple defined contribution plans for participants. Participants may be required to change plans periodically based on changes in roles within the Company, which is governed by the plan document. Interplan transfers, as noted in the financial statements, represent the transfer of participant account balances from a defined contribution plan, in which the participants are no longer eligible to participate, to a plan in which they are eligible to participate under their new roles. For the year ended December 31, 2012, transfers out of the Plan of $27,122 have been recorded to the Company's Retirement Savings Plan.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Recent Accounting Pronouncements - In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Fair Value Measurement*, which aligns disclosures related to fair value between accounting principles generally accepted in the United States of America ("U.S. GAAP") and International Financial Reporting Standards. The standards update includes changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update was effective for the plan year ended December 31, 2012, except for certain disclosures for nonpublic employee benefit plans as noted in ASU No. 2013-09, *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*. The adoption of this guidance did not have a material impact on the Plan's financial statements.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

Basis of Presentation - The financial statements of the Plan have been prepared on the accrual basis in accordance with U.S. GAAP.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for further information regarding fair value.

The investments held in the various mutual funds and the common collective trusts have been valued at fair values as determined by the Trustee or the registered investment company, as appropriate, based on quoted market value or using the market approach based on market prices of similar contracts. The Plan's investment that is held in an investment contract with Wells Fargo as of December 31, 2012 is reported as described in Financial Accounting Standards Board ("FASB") Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP"). Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. These contracts are included in the statements of net assets available for benefits based on the contract value as reported to the Plan as reported by the Trustee, which approximates fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fair value of these contracts is determined using the net asset value ("NAV") of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year end.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments - Benefit payments are recorded when paid.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 14, 2013, the date the accompanying financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds Accounts - The fair values of mutual funds are based on quoted market prices of the shares held by the Plan at year-end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Common Collective Trust - The common collective trust represents the Plan's investments that are held in a fully benefit-responsive investment contract with Wells Fargo (the "Fund"). This fund pursues its objective by actively managing a diversified portfolio of investment contracts, and the associated portfolio of underlying assets. The Fund generally invests up to 95 percent of its assets in GICs, Separate Account GICs, and Security Backed Investment Contracts. The Fund will generally not invest more than 3 percent of its total assets in the GICs of a single issuer at the time of purchase. The underlying assets includes, but are not limited to U.S. Treasury securities; U.S. Agency securities; asset-backed securities; certificates of deposit; corporate securities; sovereign/supranational securities; mortgage-backed securities; municipal securities; derivative instruments; money market instruments; collective funds investing primarily in the permissible securities aforementioned above. These investments do not have a defined redemption period and no unfunded commitments existed as of December 31, 2012 and 2011. Fair value is determined using the fair value of the underlying securities within the fund at year-end. Accordingly, the fair value measurement is classified as having used Level 2 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - INVESTMENTS - UNAUDITED - CONTINUED

During 2012, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net Appreciation in Fair Value of Investments:		
Mutual funds	$	380,999
Common collective trusts		1,020
	$	382,019

NOTE 5 - PARTY IN INTEREST

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

NOTE 6 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants remain fully vested in their account balances.

NOTE 7 - PLAN TAX STATUS

The Plan obtained a prototype plan determination letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable sections of the IRC. Although the Plan has been amended since the date of the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - INVESTMENT CONTRACT

In 2012, the Plan entered into a benefit-responsive investment contract with Wells Fargo. Wells Fargo maintained the assets of the contract in one or more separate accounts. The contract is credited with earnings at interest rates that reflect the performance of the underlying portfolios. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 8 - INVESTMENT CONTRACT - CONTINUED

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Wells Fargo, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary that cause a significant withdrawal from the Plan), or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
