FILTRAN 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 1 - Description of the Plan

The following description of the Filtran 401(k) Plan (the "Plan") provides only general information. Users of these financial statements should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Filtran Equity LLC and Subsidiaries (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). All employees hired after October 23, 2009 are eligible to enter the Plan on the first entry date 90 days after the first day of employment. The entry date is defined as the first day of each payroll period. Upon enrollment in the Plan, a participant may direct employer and employee contributions to any combination of available investment options.

Contributions

Each year, participants may contribute from 1% to 75% of pretax annual compensation (salary reduction contributions), up to the maximum amount as defined by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Plan also provides for a Company discretionary matching contribution of 100% of the participants contribution up to 4% of eligible compensation and an additional 50% of participant contributions between 4% and 6% of eligible compensation. Participants in Shopmen's Local Union Number 473 are excluded from receiving employer match contribution. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, and rollover contributions and an allocation of the Company's contributions and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction and rollover contributions plus earnings thereon. Company matching contributions plus earnings thereon are also immediately vested.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan. In service distributions are allowed from a portion of a participant's account, upon reaching the age of 59 1/2.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the plan at any time subject to the provisions of ERISA.

FILTRAN 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 1 - Description of the Plan (cont.)

Notes Receivable from Participants

Participants may borrow from their contributions account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses and Revenue Sharing

The Company pays a portion of the Plan's administrative expenses. A participant's account balance will be charged with certain fees and expenses. Asset-based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund, and are generally deducted directly from a participant's investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the recordkeeper.

Reclassification

For comparability, certain 2011 amounts have been reclassified to conform with classifications adopted in 2012.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

FILTRAN 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04, "Fair Value Measurement," which aligns disclosures related to fair value between U.S. GAAP and International Financial Reporting Standards. The standards update includes changes to the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and changes to the disclosure of information about fair value measurements. More specifically, the changes clarify the intent of the FASB regarding the application of existing fair value measurements and disclosures as well as changing some particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. This update is effective for the Plan in 2012, except for certain disclosures for nonpublic employee benefit plans as noted in ASU No. 2013-09, "Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04", which has been deferred indefinitely. The Plan has adopted the provisions of ASU No. 2011-04, except for the disclosures related to ASU No. 2013-09.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: Valued at quoted market prices (which may fluctuate daily) representing the net asset value ("NAV") of shares held by the Plan at year end.

Common /collective trust: Valued at contract value, using NAV of the underlying funds. The NAV per unit is computed by dividing the total fair value of the net assets of the underlying investments of the trust, less its liabilities, by the total number of units outstanding at the time of such computation. Fair value is determined by the MetLife, issuer of the contract based on quoted market prices of the underlying investments owned by the issuer.

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

NOTE 4 - Fair Value of Financial Instruments (cont.)

The common /collective trust represents the Plan's investment in the Wilmington Trust Retirement and Institutional Services Company Collective Investment Trust (the "Fund"), which invests in the MetLife Group Annuity Contract No. 25554 (the "Contract") to establish a stable value fund. The Contract is a fully benefit-responsive guaranteed investment contract. The fair value of the Contract is determined by MetLife based on quoted market prices of the underlying investments owned by MetLife. The contract issuer guarantees that all qualified participant withdrawals will be at contract value, which represents contributions, plus interest, less participant-initiated withdrawals or transfers. However, if a withdrawal is made from the Contract as a result of an employer or plan sponsor-initiated event or if a withdrawal is requested due to a complete or partial termination of a participating plan before the contract ends, and the Contract's fair value equals or exceeds the guaranteed value, payment is made in an amount equal to the amount of the guaranteed value which is attributable to the participating plan. If the Contract's fair value is less than its guaranteed value, the amount paid is equal to the guaranteed value reduced by the amount of fair value deficit allocable to the participating plan. There Fund had no unfunded commitments or redemption restrictions at December 31, 2012 or 2011.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - Parties-In-Interest

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Fees are paid by the Plan to the Trustee, other fiduciaries and other parties for administrative, recordkeeping and investment management services rendered to the Plan. Certain expenses of the Plan are absorbed by the Company.

NOTE 6 - Tax Status

The Plan adopted a Prototype Non-Standardized Profit Sharing Plan with CODA sponsored by Correll Co. ("Correll"). The Internal Revenue Service has determined and informed Correll on March 31, 2008 that the Plan is qualified and tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.
