NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Square-H Brands, Inc. 401(k) Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan was adopted in April 1997 as a voluntary employee contribution plan for the benefit of employees of Square-H Brands, Inc. (the "Sponsor").

The Plan is a defined contribution plan established by the Sponsor under the provision of Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is administered by the management of the Sponsor and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration
The Plan is administered by a Plan Committee. At the direction of the Plan Committee, the trustee has the responsibility to invest, hold, and distribute all monies, securities, and assets held by the trustee for the benefit of the participants and their beneficiaries. The Plan's trustee is Transamerica Life Insurance Company. The trustee provides a quarterly statement to each participant. The statement shows the contributions and earnings credited to each individual account. A participant can request a statement at any time by calling a toll-free number.

Eligibility
The Plan covers substantially all salaried and other non-bargaining employees of the Sponsor over the age of twenty-one (21). Employees who complete three (3) months of service are eligible to join the Plan. Enrollment can occur on the first day of the next calendar month after meeting the service requirement.

Participant Contributions
Employees may contribute, on a pre-tax basis, up to a maximum dollar amount as specified in the Internal Revenue Code. Participants who have attained age fifty (50) before the end of the Plan year are eligible to make catch-up contributions. Contributions can be stopped as of any payroll period. Contributions can be resumed on the next entry period, and the contribution percentages can also be changed. Rollover contributions representing qualified Plan distributions and individual retirement accounts are permitted. No after-tax contributions are allowed.

Employer Contributions
Contributions to the Plan are made by the Sponsor in an amount equal to 50% of any such contributing participant's elective deferral, as determined at the sole discretion of the Sponsor. However, in applying this matching percentage, only elective deferrals up to 3% of the participant's compensation will be considered.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts
Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions, rollovers from qualified plans of the participant's previous employers, rollovers from individual retirement accounts, allocation of the Sponsor's contributions, and allocations of the Plan's earnings and administrative expenses. Each participant's account is credited with the participant's contribution and the Sponsor's matching contribution. Allocations of earnings and expenses are based on participant earnings or account balances, as defined.

Notes from Participants
Participants may borrow from their account a minimum of $1,000 up to a maximum of the lesser of 50% of their account balance, or $50,000 reduced by the highest outstanding loan balance in the prior 12 month period. The loans are collateralized by the balance in the participant's account and bear interest at the federal prime rate in effect on the date the loan is made, plus 1%. Current loan interest rates range from 4.25% to 6.25%. Loan terms are specified for each loan. Loans must be repaid within a five (5) year period, unless the loan is used to purchase a principal residence. A participant can only have two outstanding loans at any time.

Investment Elections
The investments of the Plan are self-directed by the participants into various investment options offered by the Plan. Investment elections may be changed online or through telephone access at any time.

Vesting
Participants are 100% vested in their own contributions. Employer contributions vest 100% upon entering the Plan.

Benefit Payments
All participants may withdraw amounts from their accounts up to their entire interest if they attain the age of 59-1/2 or qualify for financial hardship. Employees are able to withdraw their account balances upon retirement, death, disability or termination. If an immediate and heavy financial hardship, without any other source of funds occurs, a hardship withdrawal may be requested.

Administrative Expenses
Trustee and certain other administration fees are paid by the Sponsor. Loan application fees are charged to the individual participant's account.

Subsequent Events
The Plan Administrator has evaluated subsequent events through October 7, 2013, the date the financial statements were issued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual method of accounting and include only the assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive income fund because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive income contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Contributions by the participants are recognized in the period the participants' wages are earned. Withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participant, except for cases where refunds are due to the participants in order for the Plan to conform to IRC provisions. In addition, investment income is recorded when received by the trustee. Plan expenses are recorded when incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Certain management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes from Participants
Notes from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid. As of December 31, 2012, there were no benefits payable to participants who elected to withdraw from the Plan.

Administrative Expenses
Most administrative expenses of maintaining the Plan are paid by the Sponsor. For the year ended December 31, 2012, administrative expenses totaled $6,339.

Recently Adopted Accounting Pronouncement
In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* ("ASU 2011-04"). ASU 2011-04 amended Accounting Standards Codification 820, Fair Value Measurements and Disclosures, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

NOTE 3 – INVESTMENT INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, Transamerica Life Insurance Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following investments and notes receivable from participants are complete and accurate as of December 31, 2012. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustees, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedule.

Notes from participants	**$ 113,876**	**$ 44,271**

* Denotes single investments representing more than 5% of the Plan's net assets available for benefits as of December 31, 2012 and 2011.

The trustee also certified the completeness and accuracy of $132,351 of net appreciation in fair value of investments (including gains and losses on investments bought and sold, as well as held during the year) and $3,471 of interest and dividend income related to the aforementioned Plan assets for the year ended December 31, 2012. The Plan's interest and dividend income consisted of $218 attributable to the group annuity contract and $3,253 attributable to interest on participant loans. The net appreciation in investments is attributed entirely to the pooled separate accounts.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification No. 820, *Fair Value Measurements* ("ASC 820"), previously known as SFAS 157, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is description of the valuation methodologies used for assets measured at fair value:

Group annuity contract:	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.
Pooled separate accounts:	Valued at the net asset value ("NAV") of shares/units held by the Plan at year end.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan maintains an investment in a group annuity contract (Transamerica Stable Value Compass Opt) with Transamerica Life Insurance Company ("Transamerica"), which is determined to be fully benefit-responsive. The contract is included in the financial statements at fair value as reported to the Plan by Transamerica. Transamerica maintains the contribution in a general account. The account is not a guaranteed interest contract and therefore there are no known cash flows that could be discounted. As a result, the fair value amount is equal to the contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 was $16,055. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The group annuity contract has no set maturity date.

There are not any events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than the contract value paid either within 30 days or over time.

	2012	2011
Average yields		
Based on actual earnings	0.57%	1.20%
Based on interest rate credited to participants	0.57%	1.20%

NOTE 6 – CHANGE IN TRUSTEES

Effective January 3, 2011, all of the remaining assets held at the ING Life Insurance and Annuity Company were transferred to Transamerica Life Insurance Company.

NOTE 7 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Transamerica Life Insurance Company. Transamerica Life Insurance Company is the trustee of the Plan, and therefore, these transactions qualify as "party-in-interest" transactions permitted by the United States Department of Labor's Rules and Regulations. Fees paid by the Plan to the trustee amounted to $6,339 for the year ended December 31, 2012. Notes from participants and the related interest income of $3,253 are considered related-party transactions.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities, in general, are normally exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 – FEDERAL INCOME TAX STATUS

Effective March 31, 2008, the Plan adopted a volume submitter form of a prototype plan sponsored by Transamerica Life Insurance Company. The prototype volume submitter plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. To the Plan Administrator and the Plan Committee
Square-H Brands, Inc. 401(k) Plan

Our audit was performed in accordance with auditing standards generally accepted in the United States of America, except that we did not perform any of the normal auditing procedures on asset information certified or provided by the trustee under section 2520.103-8 of the Department of Labor's Rules and Regulations. In planning and performing our audit of the financial statements of Square-H Brands, Inc. 401(k) Plan (the "Plan") as of and for the year ended December 31, 2012, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies:

Timely Remittance of Participant Contributions

Observation
The timely remittance of 401(k) deferral contributions by plan sponsors has become an area of increased focus and scrutiny by the Department of Labor ("DOL") and a target of increased monitoring. We noted that the Plan generally demonstrated the ability to remit its contributions within one (1) to seven (7) days of the date that the payroll is paid. However, during our testing of contributions, we noted twenty-four (24) instances where the contributions were remitted twelve (12) or more days after the pay date.

The general rule for deposits of contributions requires that the employer remit withheld employee deferrals to the plan as soon as administratively feasible, in no event later than fifteen (15) business days after the end of the month in which contributions are withheld. We understand that in some investigations, the DOL has actually reviewed the history of an employer's deposits, taking the deposit with the shortest elapsed time between the withheld date and the remittance date and applying that time period as the standard that all such deposits should meet. For example, in situations where historically an employer's deposits occurred anywhere from two (2) to twelve (12) days after the pay date, the DOL has ruled that the two (2) day deposit should be the standard timing for that employer's deposits, and that all deposits made beyond two (2) days were considered delinquent contributions. The DOL has also ruled that the employer should pay interest on the funds remitted beyond the standard timeframe allowed.

Further, our understanding is that the DOL is not concerned with materiality related to the lost earnings due to participants as a result of late contributions. Rather, they interpret the delinquency as a measure of compliance or non-compliance. Therefore, the fact that a delinquent contribution may not result in a significant amount of lost earnings to the participants, is not relevant.

Impact

Failure to remit 401(k) deferral contributions in accordance with DOL requirements could be interpreted by the DOL as a prohibited transaction, fiduciary breach, or both, and may result in significant sanctions and/or penalties. In addition, the Plan would be required to remediate and make all participants whole by refunding them the lost earnings. The DOL could also open up an investigation of all deposits made going back for up to six years.

Recommendation

We recommend that the Plan's administration review the procedures involved to remit participant contributions to the Plan to ensure that all 401(k) deferral contributions are deposited into the Plan as soon as possible as prescribed by the DOL. This includes consideration of back-up procedures to apply in the event of the absence of the individual(s) routinely charged with the responsibility to process the remittances. We also recommend that you consult with the trustee, Transamerica Life Insurance Company, and inform them that you would like to apply for relief under the DOL's Voluntary Fiduciary Correction Program by paying the lost earnings on the late remittances of deferral contributions.

Management's Response

Management has noted this deficiency and has taken proactive steps effective July 1, 2012 to remit participant contributions in five (5) business days or less.

This communication is intended solely for the information and use of the Plan Administrator, Board of Directors, management, others within the Plan, and is not intended to be and should not be used by anyone other than these specified parties.
