TAX-SHELTERED ANNUITY PLAN**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

1. Description of the Plan

The following description of the Heartland Family Service Tax-Sheltered Annuity Plan (the "Plan") (Formerly the Family Service Tax-Sheltered Annuity Plan) provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established effective November 1, 1970, and is a tax-sheltered annuity plan covering the employees of the plan sponsor, Heartland Family Service (the "Agency" or the "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and is intended to qualify under the applicable sections of the Internal Revenue Code (the "Code") of 1986, as amended.

Eligibility – Employees are immediately eligible to participate in the Plan. Highly compensated employees are not eligible to participate in the Plan.

Contributions – Participants may contribute up to 100% of their pretax annual compensation to the Plan, not to exceed the maximum allowed by the Code. Participants age fifty and older by the end of the calendar year may contribute catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit plans (rollover). Participants direct investment of their contributions into various options offered by the Plan. Employer contributions are made through a separate 401(a) Plan.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each account is credited with the participant elective contributions, an allocation of investment income or loss, and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – A participant's interest is fully vested at all times in all contributions plus actual earnings and losses thereon.

Payment of Benefits – On termination of service, a participant may elect to receive a single lump sum amount equal to the value of the participant's vested account, a series of monthly installment payments over a specific period of at least twenty-four months, or a fixed or variable annuity distribution. If the vested account balance is less than \$1,000, a lump sum distribution will be made.

Participant Loans – Participants may borrow from MetLife, Inc., issuer of the Plan, a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their account balance. The loans are not assets of the Plan but are collateralized by the balance in the participant's account in the amount of \$644,515 and \$252,300 as of December 31, 2012 and 2011, respectively. Principal and interest is paid in quarterly installments by the participant. Outstanding loans were \$100,742 and \$106,663 as of December 31, 2012 and 2011, respectively.

2. Summary of Significant Accounting Policies and Procedures

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with the Plan's investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for plan benefits.

Investment Valuation and Income Recognition – Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes Plan gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Trustee fees and administrative costs are paid by the Plan, except the Agency, at its discretion, may pay for certain administrative costs. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Period – Management evaluated transactions and events occurring subsequent to December 31, 2012, and through the date of the auditor's report (the date the financial statements were available to be issued), to determine whether any events should be recognized or disclosed in these statements. There were no material transactions or events in the subsequent period requiring disclosure or recognition in the statements.

3. Investments

Investments disclosed in the financial statements and supplemental schedule at December 31, 2012 and 2011, and net appreciation (reduction) in fair value of investments and interest for the years then ended, were obtained or derived from information supplied by the Plan Administrator and certified as complete and accurate by MetLife and AXA Equitable. The following is a summary of the information certified:

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated \$355,196 and declined \$68,754 in value, respectively.

	<u>2012</u>	<u>2011</u>
Investments:		
Separate accounts	11,138	(5,880)
Annuity contracts	321,197	(84,834)

4. Guaranteed Interest Accounts

The investments in guaranteed interest accounts are with MetLife, Inc. and AXA Equitable Life Insurance Company. These interest accounts are reported at fair value as the investments are not fully benefit responsive. The fair value is the value paid when funds are withdrawn prior to their maturity. Plan participants may direct the withdrawal or transfer of all or a portion of their investments subject, in certain circumstances, to a surrender charge. The average yields and crediting interest rates for the various interest accounts as of December 31, 2012 and 2011 was 3.0%.

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Codification Section 820, *Fair Value Measurements* establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Guaranteed investment accounts: Valued based on the amount plan participants would receive currently if they were to withdraw funds which is book value plus crediting interest less any early withdrawal charges.

Separate accounts: Valued at the net asset value (NAV), based upon the market value of its underlying investments, which may include equities, preferred stock, bonds, real estate, and mutual funds. A separate account NAV is provided by the issuer AXA Equitable Life Insurance Company and is not a publicly-quoted price in an active market.

Annuity contracts: Valued at the prices/unit values for the annuity investment option in accordance with the methods described in the annuity contract on a daily basis.

7. Tax Status

Sponsors of 403(b) plans are generally required to maintain a written plan that satisfies, in both form and operation, the requirements of the final regulations. There is no current program under which a plan sponsor can obtain assurance that the written form of its plan satisfies IRC section 403(b), other than through a private letter ruling.

Under Notice 2009-3, the IRS will not treat a section 403(b) plan as failing to satisfy the requirements of section 403(b) provided that (i) on or before December 31, 2009, the sponsor of the plan has adopted a written section 403(b) plan that is intended to satisfy the requirements of section 403(b) effective as of January 1, 2009, (ii) during 2009, the sponsor operates the plan in accordance with a reasonable interpretation of section 403(b), taking into account final regulations; and (iii) before the end of 2009, the sponsor makes its best efforts to retroactively correct any operational failure during the 2009 calendar year to conform to the terms of the written section 403(b) plan.

The Plan Administrator believes that the Plan has been designed to comply with the requirements of the Code and thus believes the Plan is qualified and the related trust is tax-exempt.

The Plan is not a taxpaying entity for income tax purposes and, accordingly, no provision has been made for income taxes. The Plan recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained upon examination by the taxing authorities, based on the technical merits of the position. As of December 31, 2012, there are no known items which would result in a material accrual attributable to uncertain tax positions.

8. Party-in-Interest Transactions

Certain Plan investments are managed by MetLife and AXA Equitable. These are the issuers of the Plan investments and, therefore, these Plan transactions qualify as party-in-interest transactions.
