3C PACKAGING, INC. SAFE HARBOR 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011

1. Description of Plan

The following description of the 3C Packaging, Inc. Safe Harbor 401(k) Plan (the “Plan") provides only general information for the Plan sponsored by 3C Packaging, Inc. (the “Company”). Participants in the Plan should refer to the Plan agreement for more complete description of the Plan's provisions.

General
The Plan became effective on January 1, 2010 as a trusteed profit sharing 401(k) salary deferred plan. The Plan covers all full-time employees of the Company who are 21 years of age and have completed 1 year of service. The Plan does not cover union employees whose benefits are the subject of good faith bargaining and nonresident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions
The Plan accepts employee pre-tax and Roth (after-tax) deferral contributions. The Plan also accepts employer matching and non-elective contributions. Each year, the Company contributes to the Plan out of its current profits, such amount as shall be determined by the Company. Employees must complete one year of service to receive profit sharing contributions. Participants may elect to defer a percentage of their compensation each year instead of receiving that amount in cash, not to exceed a dollar limit set by law. At the discretion of the administrator, participants may deposit "rollovers" into the Plan, or distributions from other Plans.

Participants’ Accounts
Each participant's account is credited with the participant's contributions the Company's contribution and participant’s account earnings or losses. Allocations are based on participants' compensation or account balances, as defined. A participant is entitled to the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in the salary reduction amount contributed to the Plan and the Employer Safe Harbor Matching contributions upon entering the Plan.

Investment Options
Upon enrollment in the Plan, a participant may direct employee contributions in any of several investment options offered. Participants may change their investments daily.

Payment of Benefits
Generally, the participant becomes eligible to receive benefits on their normal retirement age (59.5), death, disability, termination of employment, or reasons of proven financial hardship. For retirement, death or disability, the participant or beneficiary may receive 100% of their account balance in a variety of annuity options, a lump sum, or in equal installments over a designated number of years, not to exceed life expectancy. Participants who terminate their employment will receive their vested account balance under the same option as above.

1. Description of Plan (Continued)

Hardship Withdrawals
Upon approval by the Plan Administrator, a participant may withdraw all or part of their vested contributions for immediate and severe financial need. In accordance with Internal Revenue Service regulations, the participant must exhaust all other assets available prior to obtaining the hardship withdrawal.

Participant Investment Rollovers
Participants are allowed to transfer or rollover funds in the Plan from other qualified plans.

Forfeited Accounts
At December 31, 2012, the Plan did not have any forfeited accounts. Forfeited amounts of unvested matching and profit sharing contributions are used to reduce the Company's future matching contributions.

2. Significant Accounting Polices

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates
Management uses estimates and assumptions in preparing financial statements in conformity with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are comprised of common/collective trust accounts and mutual funds. Investments in mutual funds are valued at quoted market prices established in an active market which represent the net asset value of shares held by the Plan at year end. The contract value of the participation unit values owned by the Plan in the collective investment trust is based on quoted redemption values as determined by The Lincoln National Life Insurance Company (the "Custodian") on the last business day of the Plan year. The fair value of the participation unit values owned by the Plan in the collective investment trusts is based on the market value of all of the trust's investments as determined by the Custodian on the last business day of the Plan year. At December 31, 2012 and 2011, there is not a significant difference between fair value and contract value.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized and unrealized appreciation and depreciation in value of investments are allocated to the participant accounts based on participant holdings in each fund.

2. Significant Accounting Polices (continued)

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Plan pays substantially all administrative expenses incurred.

3. Federal Income Taxes

The Plan has adopted a prototype plan document. This document received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended since receiving the determination letter. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the applicable authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. All tax years remain open for examination by the IRS as the Plan became effective in 2010.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Investments

The following table represents the fair value of investments and net appreciation in value as certified by The Lincoln National Life Insurance Company ("Lincoln"), the trustee of the Plan as of December 31, 2012 and 2011. Investments that represent five percent or more of the Plan's net assets are separately stated. All investments are participant directed.

* Fund balance was less than 5% of net assets for applicable year

During 2012, the Plan's investments appreciated in value by $72,193 as follows:

LVIP Protected Profile 2030 Fund	$ 16,487
Stadion Managed Growth Fund	8,416
Stadion Managed Moderate Fund	3,852
SSGA Russell Large Cap Growth Index Fund	5,545
Others (Representing Less than 5% of Net Assets)	37,893
	$ 72,193

6. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan uses Level 2 inputs when market prices are not attainable but other observable inputs are available to arrive at a fair value. No Level 3 inputs were available for the Plan.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

6. Fair Value Measurements (Continued)

Level 2 Fair Value Measurements
The common collective trust is not actively traded and does not have quoted net asset values based on shares held. Fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Market values of the underlying investments and pricing of contract values are used to determine fair values.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit.

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2012:			
Mutual Funds:			
Growth	$ 283,179	$ 283,179	$

Common/Collective Trust Funds	7,132		7,132
Total	$ 685,337	$ 678,205	$ 7,132

7. Common Collective Trust Funds

The funds invest in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. Under the terms of the contracts, the assets of the funds are invested in fixed income securities (which may include, but not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The funds may also invest in future contracts, option contracts, and swap agreements.

7. Common Collective Trust Funds (Continued)

The Contracts and securities purchased for the funds are backed solely by the financial resources of the issuers of such contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the Federal Deposit Insurance Corporation or any other government agency. The contracts purchased by the funds permit the funds to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the funds' securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the funds under the contracts. However, while the funds seek to preserve principal investments, it is possible to lose money by investing in these funds. The contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the contracts. In order to maintain the contracts subject the fund and its participants to certain restrictions.

The market yield of the underlying portfolio was 3.11% and 3.37% for the years ended December 31, 2012 and 2011, respectively.

8. Party-in-Interest Transactions

Certain Plan assets are shares of mutual funds managed by Lincoln. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $7,371 for the year ended December 31, 2012.

9. Risks and Uncertainties

The Plan invests in various investment securities as directed by its participants. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2013, which is the date the financial statements were available to be issued.

3C PACKAGING, INC. SAFE HARBOR 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2012 and 2011

1. Description of Plan

The following description of the 3C Packaging, Inc. Safe Harbor 401(k) Plan (the “Plan") provides only general information for the Plan sponsored by 3C Packaging, Inc. (the “Company”). Participants in the Plan should refer to the Plan agreement for more complete description of the Plan's provisions.

General
The Plan became effective on January 1, 2010 as a trusteed profit sharing 401(k) salary deferred plan. The Plan covers all full-time employees of the Company who are 21 years of age and have completed 1 year of service. The Plan does not cover union employees whose benefits are the subject of good faith bargaining and nonresident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions
The Plan accepts employee pre-tax and Roth (after-tax) deferral contributions. The Plan also accepts employer matching and non-elective contributions. Each year, the Company contributes to the Plan out of its current profits, such amount as shall be determined by the Company. Employees must complete one year of service to receive profit sharing contributions. Participants may elect to defer a percentage of their compensation each year instead of receiving that amount in cash, not to exceed a dollar limit set by law. At the discretion of the administrator, participants may deposit "rollovers" into the Plan, or distributions from other Plans.

Participants’ Accounts
Each participant's account is credited with the participant's contributions the Company's contribution and participant’s account earnings or losses. Allocations are based on participants' compensation or account balances, as defined. A participant is entitled to the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in the salary reduction amount contributed to the Plan and the Employer Safe Harbor Matching contributions upon entering the Plan.

Investment Options
Upon enrollment in the Plan, a participant may direct employee contributions in any of several investment options offered. Participants may change their investments daily.

Payment of Benefits
Generally, the participant becomes eligible to receive benefits on their normal retirement age (59.5), death, disability, termination of employment, or reasons of proven financial hardship. For retirement, death or disability, the participant or beneficiary may receive 100% of their account balance in a variety of annuity options, a lump sum, or in equal installments over a designated number of years, not to exceed life expectancy. Participants who terminate their employment will receive their vested account balance under the same option as above.

1. Description of Plan (Continued)

Hardship Withdrawals
Upon approval by the Plan Administrator, a participant may withdraw all or part of their vested contributions for immediate and severe financial need. In accordance with Internal Revenue Service regulations, the participant must exhaust all other assets available prior to obtaining the hardship withdrawal.

Participant Investment Rollovers
Participants are allowed to transfer or rollover funds in the Plan from other qualified plans.

Forfeited Accounts
At December 31, 2012, the Plan did not have any forfeited accounts. Forfeited amounts of unvested matching and profit sharing contributions are used to reduce the Company's future matching contributions.

2. Significant Accounting Polices

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates
Management uses estimates and assumptions in preparing financial statements in conformity with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are comprised of common/collective trust accounts and mutual funds. Investments in mutual funds are valued at quoted market prices established in an active market which represent the net asset value of shares held by the Plan at year end. The contract value of the participation unit values owned by the Plan in the collective investment trust is based on quoted redemption values as determined by The Lincoln National Life Insurance Company (the "Custodian") on the last business day of the Plan year. The fair value of the participation unit values owned by the Plan in the collective investment trusts is based on the market value of all of the trust's investments as determined by the Custodian on the last business day of the Plan year. At December 31, 2012 and 2011, there is not a significant difference between fair value and contract value.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized and unrealized appreciation and depreciation in value of investments are allocated to the participant accounts based on participant holdings in each fund.

2. Significant Accounting Polices (continued)

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Plan pays substantially all administrative expenses incurred.

3. Federal Income Taxes

The Plan has adopted a prototype plan document. This document received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended since receiving the determination letter. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the applicable authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. All tax years remain open for examination by the IRS as the Plan became effective in 2010.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Investments

The following table represents the fair value of investments and net appreciation in value as certified by The Lincoln National Life Insurance Company ("Lincoln"), the trustee of the Plan as of December 31, 2012 and 2011. Investments that represent five percent or more of the Plan's net assets are separately stated. All investments are participant directed.

LVIP Protected Profile 2030 Fund	$ 16,487
Stadion Managed Growth Fund	8,416
Stadion Managed Moderate Fund	3,852
SSGA Russell Large Cap Growth Index Fund	5,545
Others (Representing Less than 5% of Net Assets)	37,893
	$ 72,193

6. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are based on significant other observable inputs, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The Plan uses Level 2 inputs when market prices are not attainable but other observable inputs are available to arrive at a fair value. No Level 3 inputs were available for the Plan.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

6. Fair Value Measurements (Continued)

Level 2 Fair Value Measurements
The common collective trust is not actively traded and does not have quoted net asset values based on shares held. Fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Market values of the underlying investments and pricing of contract values are used to determine fair values.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefit.

		Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)

Common/Collective Trust Funds	7,132		7,132
Total	$ 685,337	$ 678,205	$ 7,132

7. Common Collective Trust Funds

The funds invest in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. Under the terms of the contracts, the assets of the funds are invested in fixed income securities (which may include, but not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The funds may also invest in future contracts, option contracts, and swap agreements.

7. Common Collective Trust Funds (Continued)

The Contracts and securities purchased for the funds are backed solely by the financial resources of the issuers of such contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the Federal Deposit Insurance Corporation or any other government agency. The contracts purchased by the funds permit the funds to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the funds' securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the funds under the contracts. However, while the funds seek to preserve principal investments, it is possible to lose money by investing in these funds. The contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the contracts. In order to maintain the contracts subject the fund and its participants to certain restrictions.

The market yield of the underlying portfolio was 3.11% and 3.37% for the years ended December 31, 2012 and 2011, respectively.

8. Party-in-Interest Transactions

Certain Plan assets are shares of mutual funds managed by Lincoln. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $7,371 for the year ended December 31, 2012.

9. Risks and Uncertainties

The Plan invests in various investment securities as directed by its participants. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 14, 2013, which is the date the financial statements were available to be issued.
