Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

1. Plan Description

The following description of the Vantage Oncology LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a tax qualified defined contribution plan covering substantially all employees of Vantage Oncology, LLC., (the "Plan Sponsor," the "Company" or "Vantage") who are age eighteen years or older, with entrance dates on the first day of the month upon becoming eligible. The Plan allows eligible employees to be automatically enrolled to contribute 6% of their pretax annual compensation, unless the participant affirmatively elects otherwise.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Benefits Committee, which is composed of four members appointed by the board of directors of Vantage.

In September 2012, the Physicians Oncology Services 401(k) Plan and the Vantage Oncology LLC Regional Retirement Plan merged into the Plan. Also during September 2012, the Plan adopted certain Plan provisions to comply with regulatory requirements.

Change in Service Provider

Effective September 1, 2012, the Company changed service providers for their custodial and recordkeeping functions from Fidelity Management Trust Company ("Fidelity" or "Trustee") to Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (collectively "Principal" or "Custodian"). Effective with the change to Principal, certain members of executive management became the trustees of the Plan.

Contributions

Each year, participants may contribute up to 80% of pretax annual compensation subject to statutory limitations (as defined by the Internal Revenue Code ("IRC") and subject to annual cost-of-living adjustment). Such limitation for 2012 was \$17,000. The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits of \$5,500 in 2012. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans reflected as participants' rollover contributions in the statement of changes in net assets available for plan benefits.

Employer match contributions are discretionary; the amount of the contribution, if any, is determined by the Benefits Committee of the Company and for 2012 was 33% up to the first 6% of the participant's eligible compensation. Catch-up contributions are not eligible for employer match contributions.

Participants direct the investments of their contributions and the employer match contributions into various investment options offered by the Plan.

**Vantage Oncology LLC
401(k) Plan**

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with participants' contributions, the employer match contributions, if any, and allocations of the Plan's earnings and charged with allocations of the Plan's gains/losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on participant earnings or losses based on the specific investment options selected. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested immediately in the amount of their contributions and actual earnings thereon. Vesting in the employer match contribution portion of their accounts, if any, is based on years of continuous service. A participant is 20% vested after two years, 40% vested after three years, 60% vested after four years, 80% vested after five years and 100% vested after six years of credited service.

Notes Receivable from Participants

Notes receivable from participants consist of participant loans that are secured by the balance in the participant's account. Participants are permitted to borrow from their fund accounts a maximum amount, equal to the lesser of 50% of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance during the previous twelve month period. Participant loans are to be repaid within 5 years, unless the loan is for a principal residence, in which the repayment period must be a reasonable period of time, as determined at the date the loan is made. Participants are allowed to have two outstanding loans at any one time. Participant loans bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Sponsor at the time of the loan. Principal and interest are paid ratably through payroll deductions. Participant loans mature on various dates through January 2017 with interest rates ranging from 4.25% to 8.25%. Initial loan fees ranging from \$40 to \$125 are deducted from participant accounts for each loan.

Distribution of Benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in equal installments over a period of time. For termination of service for other reasons, a participant may elect to receive the value of their vested account balance from the Plan. In addition, participants are allowed to take in-service withdrawals upon attainment of age 59 ½. Hardship distributions are also permitted if certain criteria are met.

Participants with an account value of \$1,000 or less who do not elect a distribution will receive a lump-sum distribution as soon as practicable following termination.

Following termination, if the participant's vested account balance is greater than \$1,000 but does not exceed \$5,000, the Plan may notify the participant of its intent to automatically rollover the entire balance to a qualified Individual Retirement Account ("IRA"), unless specific distribution instructions are received from the participant within the time frame stated in the notice. The Plan has entered into an agreement with an IRA provider to establish IRAs to receive mandatory distributions from the Plan. For participants with account balances in excess of \$5,000, no

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

distribution will occur until a withdrawal request form is completed. A participant may elect to leave his or her account balance in the Plan, receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or rollover the account to another qualified plan or an IRA.

Forfeitures

Forfeitures of employer match contributions are retained in the Plan and will first be used to pay administrative expenses under the Plan and then to reduce future employer contributions payable under the Plan. As of December 31, 2012 and 2011, forfeitures available were \$158,804 and \$140,703, respectively. A total of \$63,191 in forfeitures were used to offset 2012 employer contributions during the year ended December 31, 2012.

Administrative Expenses

The Plan's expenses are paid by the Plan Sponsor as noted in the Plan document, except for charges relating to the processing of loans, and transfers made between funds, which are directly paid from each respective participant's account. Total fees paid by the Plan for the year ended December 31, 2012 were \$4,190. There is no guarantee that the Plan Sponsor will continue to pay the Plan's expenses.

Subsequent Events

Management has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued and has determined that there were no material events requiring recognition or disclosure.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could materially differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Such investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

Vantage Oncology LLC
401(k) Plan

Notes to Financial Statements

The Plan invests in various funds that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Guaranteed Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

The Custodian certified the contract value of the Principal Life Insurance Company Fixed Income Guaranteed Option investment contract as of December 31, 2012 (see Note 6). The fair value of such investment as of December 31, 2012, was \$793,040. The fair value has been estimated by management in the absence of readily determinable fair values.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Management determines the collectability of notes receivable from participants on a periodic basis. This determination is made based on the terms of the Plan document and the related Plan policies and procedures. If notes receivable from participants are deemed to be uncollectible, they are written off and included as benefits paid to participants in the financial statements and deemed distributions in the Form 5500 for financial reporting purposes in the year the determination is made.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the year or at the time of purchase for assets purchased during the year and the related fair value on the day investments are sold with respect to realized gains and losses, and on the last day of the year with respect to unrealized gains and losses. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Plan Benefits as net appreciation in fair value of investments.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"). ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendment is to be applied prospectively and is effective for annual periods beginning after December 15, 2011. The Plan adopted ASU 2011-04 during the year ended December 31, 2012 and no impact was noted on the Statements of Net Assets Available for Plan Benefits or presentation of disclosures.

In July 2013, the FASB issued ASU No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04* ("ASU 2013-09") to indefinitely defer the effective date of certain required disclosures in ASU 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The deferral in this amendment is effective upon issuance for financial statements that have not been issued prior to this amendment. For the Plan, the adoption of ASU 2013-09 does not have an impact on the Statements of Net Assets Available for Plan Benefits or presentation of disclosures.

3. Fair Value Measurement

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to Financial Statements

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2012 and 2011. Following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end based on quoted market prices.

Pooled separate accounts: Units held in pooled separate accounts are stated at fair value and valued at the unit value as reported by the investment manager based on quoted market prices of the underlying investments held at year end.

Guaranteed interest account: The guaranteed interest account is stated at fair value, represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

4. Guaranteed Investment Contract with Principal Life Insurance Company

In 2012, the Plan entered into a benefit-responsive guaranteed investment contract. Principal Life Insurance Company Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company. Under the terms of the existing contract, the Composite Crediting Rate is currently reset on a semiannual basis and will never be less than the guaranteed minimum interest rate or 1%. Changes in future interest crediting rates will not affect the amount reported as an adjustment from fair value to contract value on the statements of net assets available for Plan benefits for the portion of net assets attributable to fully benefit-responsive investment contracts. Fair value is considered book value less early withdrawal charge.

The Principal Life Insurance Company Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. The average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract. The Composite Crediting Rate history for the contract is as follows:

<u>Time Period Rate</u>	
December 1, 2011 - May 31, 2012	2.65%
June 1, 2012 - November 30, 2012	2.40%
December 1, 2012 - May 31, 2013	2.10%
June 1, 2013 - November 30, 2013	2.00%

The interest rate history summarized above is prior to any plan-level recordkeeping expenses being deducted.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Plan Sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Tax Status

The Plan adopted the Dataair Employee Benefit Systems Inc., Volume Submitter Profit Sharing Plan with CODA, a prototype plan, on August 21, 2012 which became effective as of September 4, 2012. This prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, which stated that the prototype plan is in compliance with applicable sections of the IRC. Prior to the change from Fidelity to Principal (See Note 1), the Plan adopted the Fidelity Prototype non-standardized Profit Sharing Plan with CODA ("Fidelity Prototype Plan"). The Fidelity Prototype Plan has received a favorable opinion letter from the IRS dated October 9, 2003, which stated that the Fidelity Prototype Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended and the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal or state income taxes has been included in the accompanying financial statements.

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the Plan year ended December 31, 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its employer match contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, affected participants will become 100% vested in all of their accounts. The Plan Sponsor will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by the Custodian.

9. Related Party Transactions

Certain Plan investments are managed by the Custodian/Trustee of the Plan and or affiliates of the Custodian/Trustee and therefore, these transactions qualify as exempt party-in-interest transactions as defined by ERISA. There were certain transaction fees paid by the Plan to the Trustee/Custodian for the year ended December 31, 2012. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.

10. Reconciliation of Financial Statements to the Form 5500
