NOTE 1 – DESCRIPTION OF PLAN

The following description of the Legacy Effects, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the employees of Legacy Effects, LLC (the "Company"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company originally adopted a retirement benefit plan on February 1, 1990 evidenced under Legacy Effects, LLC 401(k) Profit Sharing Plan (the "Prior Plan"). Effective September 10, 2009, the Prior Plan was amended in its entirety by the adoption of a restatement of an existing plan qualifiable under 401(a) of the Internal Revenue Code (the "Plan") sponsored by the Principal Financial Group. The Plan, as amended, will continue to be called the Legacy Effects, LLC 401(k) Profit Sharing Plan.

Eligibility

Employees shall be eligible to participate in the Plan once they have reached the age of 18 and completed 90 days of service with the Company. Eligible employees may enroll in the plan on the first day of the quarter after satisfying eligibility requirements.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the plan. Each participant's total deferrals in any taxable year may not exceed the maximum allowable under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("rollovers").

The Company may also choose to make discretionary contributions to the Plan. The Company did not elect to make a discretionary contribution for the year ended December 31, 2012.

Participant Account

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching contribution, if any, (b) Roth 401(k) contributions, if any, (c) Plan earnings and (d) administrative expenses. The

NOTE 1 – DESCRIPTION OF PLAN (CONT'D)

benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions in the salary reduction contribution amount and in actual earnings thereon. If made, employer discretionary contributions will become 100% vested at all times.

The vesting percentage for a participant who is an employee on or after the date he reaches Normal Retirement Age (as defined by the Plan), Early Retirement Age (as defined by the Plan), on the date he dies, or the date he becomes disabled that results in his becoming Totally Disabled shall be 100% vested in employer discretionary contributions.

Notes Receivable from Participants

Participants may borrow from their Plan accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by the highest outstanding loan balance in the participant's account during the prior twelve month period or (b) 50% of the participant's vested interest in the Plan.

All loans shall bear a reasonable rate of interest which shall remain fixed throughout the duration of the loan. All loans must be repaid on at least a quarterly basis over a five year period unless it is for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 30 years from the date of the loan.

Payment of Benefits

When a participant's vested benefit is $5,000 or less, it will be distributed as a lump-sum as soon as practicable following termination of employment for any reason (including retirement). If a participant's vested benefit in the Plan exceeds $5,000 upon termination of employment, the participant may elect to receive a single lump-sum payment of the entire balance or periodic payments over a period of not more than the participant's assumed life expectancy.

NOTE 1 – DESCRIPTION OF PLAN (CONT'D)

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures may first be used to pay Plan expenses for the Plan year in which the forfeitures are to be allocated. Any remaining forfeitures will be used to reduce employer contributions. At December 31, 2012 there were no forfeitures available to be allocated by the Company.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the Plan. As required by the FSP, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein at the date of the financial statements. Actual results could differ from those estimates. As a result of the current economic conditions, the Plan administrator may be required to make additional estimates which are subject to greater degree of uncertainty.

Payments of Benefits

Benefit payments consist of payments to participants (or, if applicable, the beneficiary) at retirement, disability, death or termination of employment. Benefit payments are made in the form of lump sum distributions, direct rollovers or annuities. Benefits are recorded when paid.

Fees and Expenses

The Company is responsible for the Plan administrative costs, including the recordkeeping and management of the Plan. The Plan is responsible for costs related specifically to the investments.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Delinquent notes receivable are reclassified as distributions based on the terms of the plan document.

NOTE 3 – INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets:

	2012
Principal International SmallCap	$ 252,192
Principal LargeCap Growth I Fund	428,152
Principal LargeCap S&P 500 Index Fund	217,613
Principal LargeCap Value Fund	438,168
Principal MidCap Growth III Fund	341,963
Principal SmallCap Growth I Fund	338,557
Principal Stable Value Fund	358,079
Principal SAM Balanced	433,521

NOTE 3 – INVESTMENTS (CONT'D)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $448,044 as follows:

Common/collective trusts	$ 4,718
Pooled separate accounts	443,326
	$ 448,044

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONT'D)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012:

Pooled separate accounts: Value based on the net asset value ('NAV") of shares held by the plan at year end.

Common/collective trusts: Value is based upon the net asset values of the fund after an adjustment to reflect all investments at fair value, including direct and indirect interests in fully benefit responsive contracts are reported by the fund manager. The fund invests in guaranteed investment contracts and synthetic investment contracts issued by life insurance companies and other financial institutions, with the objective or providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay benefits. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Fair Value Measurements Using Input Type			
INVESTMENTS	Level 1	Level 2	Level 3	Total

Common/collective trusts				
Stable Value	-	358,079	-	358,079
	$ -	$ 4,085,488	$ -	$ 4,085,488

NOTE 5 – COMMON/COLLECTIVE TRUSTS

The Stable Asset Fund includes investments in collective trusts and synthetic guaranteed investment contracts (GICs). This fund is an investment pool that is managed solely for participants of the Plan, and the Plan holds all of the underlying investments of the Stable Asset Fund. The synthetic GICs in this fund may be comprised of cash, collective trusts, U.S. Treasury and agency securities, corporate bonds, and wrapper contracts. The fund is reported at fair value which is based on the fair value of the underlying investments and wrapper contracts with an adjustment from fair value to contract value for the fully benefit-responsive contracts at December 31, 2012. There are no reserves against contract values for credit risk of the financial institutions or otherwise.

Withdrawals resulting from events initiated by the Company, such as Plan or contract termination, are not typically considered participant-initiated transactions. With such an event, some of the contracts contain contingencies that could lead to withdrawal penalties.

NOTE 5 – COMMON/COLLECTIVE TRUSTS (CONT'D)

Certain events that would allow the contract issuers to terminate the contracts and result in the execution of participant transactions at other than contract value include loss of the Plan's qualified status, plan merger or spin-off, bankruptcy of the Plan sponsor, or closing of units of the Company. However, since no such events are being contemplated at this time and management is not aware of any events that would cause the Plan to transact at less than contract value, these "potential" limitations are determined not to be probable and do not jeopardize the contract value reporting for these investments.

Synthetic GICs operate similarly to a guaranteed investment contract, except that the assets are placed in a trust with ownership by the Plan rather than a general account of the issuer and a financially responsible third party issues a wrapper contract that provides that participants can, and must, execute Plan transactions at contract value.

As of December 31, 2012, the average yield earned on amounts invested in the synthetic investment contracts was 1.91%.

NOTE 6 – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

Common/collective trusts	$ 349,856
Pooled separate accounts	3,727,409
Receivables:	
Notes receivable from participants	64,181
Contributions receivable from participants	2,728
Investment income:	
Net appreciation in fair value of assets	448,044

	2012
Interest income on notes receivable from participants	3,184
Contributions:	
Participants	249,534

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the sponsoring Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 – TAX STATUS

The Company is using a Prototype Plan provided by the Plan Trustee for which the trustee received a favorable determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believed that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed and held by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which there is a statutory exemption. The stable asset fund, as described in Note 5, is also managed and held by Principal Life Insurance Company.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 10, 2013, the date financial statements were issued.
