LIBERTY DIALYSIS LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2012 and 2011

Note 1. Plan Description

The following description of the Liberty Dialysis, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Liberty Dialysis, LLC (the "Sponsor"). The Plan was established to receive the assets related to the employees of the Sponsor. The Plan and Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Regular employees of the Sponsor who are 21 years of age or older are eligible to participate in the Plan.

Contributions: Each year, participants may make salary deferral contributions ranging from 1% to 100% of pretax annual compensation, as defined in the Plan. Contributions are subject to certain limitations. In addition, participants may contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Sponsor may make a discretionary matching or profit sharing contribution to the Plan. In 2012, the Sponsor made a discretionary matching contribution of 50% of participants' deferrals up to 3% of the participant's compensation. The Sponsor did not make a discretionary profit sharing contribution in 2012.

Participants' accounts: Each participant's account is credited or charged with the participant's contributions, employer matching contributions, an allocation of the Sponsor's discretionary contributions, if any, transfers, withdrawals and an allocation of Plan earnings and losses. Allocations are based on a participant's account balance and the percent each participant's compensation bears to the total compensation of all participants, as defined in the Plan.

Participants' investment options: Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options anytime throughout the year.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000, or 50% of their vested balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Any outstanding balance of a loan at the time of any distribution due to death, retirement or termination of employment shall be deducted from the amount which would otherwise have been payable to the participant.

Vesting: Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Sponsor's discretionary contribution portion of their accounts is based on years of continuous service. The portion of a participant's account attributable to the Sponsor's discretionary contributions becomes vested as shown below:

Full years of Vesting Service	Percent Vested
Less than 1 year	0%
1 but less than 2 years	25%
2 but less than 3 years	50%
3 but less than 4 years	75%
4 or more years	100%

LIBERTY DIALYSIS LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2012 and 2011

Payment of benefits: Upon termination of service due to retirement or disability, a participant may elect to receive a lump sum amount equal to the value of his or her account, or monthly distributions over their life expectancy. In the event of death of the participant, the value of the account will be paid to the spouse or other named beneficiary in a lump sum or installments. In the event of termination for any reason other than retirement, death or disability, if the participant's vested balance is less than \$1,000, the entire vested balance of the participant's account, as valued on the day coinciding with or following the date of termination of employment, shall be paid to the participant as either a direct rollover to an eligible retirement plan or a lump-sum distribution. If the vested balance is greater than \$1,000, the participant has the option not to receive a distribution, and therefore, the balance will remain in the Plan until requested by the participant.

Participants may make withdrawals from the Plan in cases of hardship, as defined in the Plan.

Participant forfeitures: Participant forfeitures will be used first for the payment of Plan administrative expenses and second, to reduce employer contributions. At December 31, 2012, unallocated forfeited non-vested accounts totaled \$4,260. These accounts were used to reduce the 2012 employer contribution receivable.

Administrative expenses: Management fees related to investments are allocated to participant's accounts and offset against gains and losses. All other expenses are paid by the Sponsor.

Plan termination: Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan Termination, participants will become 100 percent vested in their accounts.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned and dividend income is accrued on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan Management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payments of benefits: Benefit payments to participants are recorded upon distribution.

Risks and uncertainties: The Plan provides for various investment options that may invest in equity, fixed income or other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is possible that participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits could be materially affected in the near term.

LIBERTY DIALYSIS LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS, Continued December 31, 2012 and 2011

Reliance Trust Company also certified to the completeness and accuracy of \$919,910 of net appreciation in fair value of investments, \$635,270 of dividend income and \$17,846 of interest on notes receivable from participants for the year ended December 31, 2012.

Note 4. Fair Value Measurements

The FASB Codification provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Money market fund: Valued at the net asset value of shares held by the Plan at year end, which is generally intended to approximate one dollar per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

LIBERTY DIALYSIS LLC 401(k) PLAN**NOTES TO FINANCIAL STATEMENTS, Continued**

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Total investments at fair value	\$ 12,697,492	\$ -	\$ -	\$ 12,697,492

Note 5. Tax Status

The Trust established under the Plan to hold the Plan's assets is qualified pursuant to section 401(k) of the Internal Revenue Code ("IRC") and accordingly, the trust's net investment income is exempt from income tax.

The Plan adopted a standardized form of a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Note 7. Due to Participants

The Plan failed to pass the Average Deferral Percentage Test ("ADP") for the 2011 plan year, with respect to certain "highly compensated employees" ("HCEs") resulting in excess contributions made into the Plan. In order to correct the failure of the ADP test for the Plan year, federal law generally requires corrective distributions, refunding the excess contributions to participants no later than the end of the following Plan year. As of December 31, 2012, the Plan recorded a liability of \$103,261 for the excess contributions related to the 2012 Plan year which were paid in 2013.

Note 8. Plan Transfer

In April 2012, several clinics owned by the Plan Sponsor were acquired by DSI Renal, Inc. On July 31, 2012, the account balances of 67 participants, which totaled \$1,021,075, were transferred into the DSI Renal 401(k) Plan.

Note 9. Subsequent Events
