Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Life Insurance Company and State Street Bank and Trust Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions as of December 31, 2012, and for the period November 1, 2012 to December 31, 2012, and that Transamerica Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2011 and for the period January 1, 2012 to October 31, 2012. The Plan administrator has obtained certifications from the custodians as of and for the years ended December 31, 2012, and 2011, that the information provided to the Plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2012 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan
Notes to the Financial Statements
December 31, 2012 and 2011

Note 1: Description of Plan:

The following description of Stronghold Engineering, Inc. (the Company) 401(k) Employees' Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General:

The Prevailing Wage Pension Plan was adopted on January 1, 1997, and amended and restated January 1, 2003, as a defined contribution plan covering eligible employees of the Company, as defined by the Plan agreement. Effective December 31, 2005, the net assets of Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan were merged into the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Employees are eligible to make elective deferrals upon attaining the age of 21 and completing six months of employment in which at least 500 hours are worked. The Plan covers all Davis-Bacon or state prevailing wage contract employees regardless of age or hours of service requirements. Employees are eligible for discretionary matching contributions and discretionary employer profit sharing contributions if they are working for the Company on the last day of the Plan year, have completed at least 500 hours of service during the Plan year, and attained the age of 21.

Contributions:

Each year, participants may contribute up to the maximum allowed under the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Contributions:

The Company may choose to make discretionary matching contributions and discretionary profit sharing contributions to the Plan as defined in the Plan agreement. For the year ended December 31, 2011, the Company made a residual employer matching contribution in the amount of $10,243, which funded in the year ended December 31, 2012. There were no profit sharing contributions made for the year ended December 31, 2012. The Company also contributes the amount allowable as retirement contributions included under the General Prevailing Wage Determinations in effect and used to determine compensation for Davis-Bacon or state prevailing wage contracts.

Note 1: Description of Plan, continued:

Participant Accounts:

The Plan administrator maintains a separate account for each participant and each type of contribution. Each participant may select from a series of investment options designated by the Company and the Plan administrator. Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the discretionary matching and employer contributions are based on covered years of service as defined. A participant is fully vested after five completed covered years of service. A covered year of service is a twelve-month period ending December 31 during which a participant worked for the Company at least 1,000 hours. A participant is also fully vested upon reaching normal retirement age, upon death, or upon becoming totally and permanently disabled. Prevailing wage contributions are fully vested and may be used to offset any additional profit sharing and/or matching contributions made by the Company.

Notes Receivable from Participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of the account balance. Note receivable transactions are treated as a transfer to (from) the investment fund(s) from (to) the participant's note receivable fund. Notes receivable terms may not exceed five years except for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate as published in the Wall Street Journal on the 14th day of each month plus one percent. Interest rates range from 3.25% to 7.25% as of December 31, 2012, with maturity dates ranging from April 2013 to October 2018. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits:

On termination of service, death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship distributions will be distributed as a lump-sum.

Forfeitures:

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $11 and $5,976 respectively. These accounts will be used to reduce future employer contributions and pay Plan expenses. Forfeitures in the amount of $6,013 were used to offset Plan expenses for the year ended December 31, 2012.

Note 2: Summary of Significant Accounting Policies:

Reclassifications:

Some items in the prior year financial statements have been reclassified in order to conform to the current year's presentation.

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits presents the investment contract at fair value, which approximates contract value.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits:

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies, continued:

Administrative Expenses:

All expenses may be paid out of the Plan unless paid by the Company. For the year ended December 31, 2012, the administrative expenses paid for by the Plan totaled $10,615 and the investment expenses paid for by the Plan totaled $50,804.

Recent Accounting Pronouncements:

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. The ASU clarified the application of certain existing fair value measurement guidance and expands the disclosure requirements for fair value measurements that are estimated using significant unobservable (Level 3) inputs and for assets and liabilities disclosed but not recorded at fair value. This ASU is effective for the Plan year ended December 31, 2012. In July 2013, ASU No. 2013-09 was issued which defers indefinitely the effective date of certain required disclosures in ASU No. 2011-04. Neither of these pronouncements materially impacted the Plan's financial statements for the year ended December 31, 2012.

Subsequent Events:

Management has evaluated subsequent events through October 11, 2013, the date on which the financial statements were available to be issued.

Note 4: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Note 4: Fair Value Measurement of Investments, continued:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at the net asset value of units held by the Plan at year end.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Common collective trust: Valued at the net asset value of units held by the Plan at year end.

Stable value fund: Valued at the insurance contract's pro-rata share of the fair value of the securities in the underlying separate accounts that the contract participates in.

The methods described above may produce a fair value calculation that may not be as indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4: Fair Value Measurement of Investments, continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012:

Note 5: Investment Contract with Insurance Company:

In 2010 the Plan invested in a fully benefit-responsive guaranteed investment contract with Transamerica Life Insurance Company, which covered the Stable Value Advantage Option. The Fund was an investment in investment contracts and is included in the financial statements at contract value, which represents accumulated contributions made under the contract plus earnings, less withdrawals and administrative expenses. The Option was considered fully benefit responsive as withdrawals or transfers could be made at contract value. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of $4,712,930, included in the financial statements as of December 31, 2011, approximates fair value. As the contract was sold during 2012, the investment contract had no value as of December 31, 2012. The Fund had an average yield of approximately 2.70% for the year ended December 31, 2011, and a crediting interest rate of 2.45% for the year ended December 31, 2011.

Note 5: Investment Contract with Insurance Company, continued:

In 2012, the Plan entered into a benefit responsive investment contract with State Street Bank and Trust Company, which covers the Metlife Stable Value Fund. The Fund is an investment in investment contracts and is included in the financial statements at contract value, which represents accumulated contributions made under the contract plus earnings, less withdrawals and administrative expenses. The Fund is considered fully benefit responsive as withdrawals or transfers can be made at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of $4,712,980 included in the financial statements as of December 31, 2012 approximates fair value. For the year ended December 31, 2012, the Fund had an average yield of approximately 3.75% and a crediting interest rate of 2.52% as of December 31, 2012.

Note 6: Tax Status:

The Plan obtained its latest determination letter on March 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7: Transactions with Parties-in-Interest:

Certain plan investments are shares of mutual funds managed by Transamerica Life Insurance Company and State Street Bank and Trust Company, custodians of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Note 8: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become fully vested in their account balances.

Note 9: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.
