INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of the
VitalMD 401(K) Plan

Report on the Financial Statements

We were engaged to audit the accompanying statements of VitalMD 401(K) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year, which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VITALMD 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the VitalMD 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of VitalMD Group Holding, LLC and its wholly owned LLCs (collectively referred to as the "Company") who have completed at least one (1) year of service and one thousand (1,000) hours and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (up to Internal Revenue Code (IRC) limits of $17,000 and $16,500 for 2012 and 2011, respectively), as defined in the Plan (elective deferral). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 for 2012 and 2011. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds, one common collective trust and participant directed-investments. The Company contributes non-elective safe harbor contributions equal to 3% of compensation for all eligible employees in the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Members. During the years ended December 31, 2012 and 2011, the Company made a profit sharing contribution of $397,000 and $234,000, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon and rollovers. Vesting in the Company contribution portion is based on continuous years of service as follows:

Years of Service	Percentage Vested
Less than 2	0%
2	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the participant's account and bear interest at rates which are commensurate with local prevailing rates at the time of the loan as determined by the Plan administrator. Principal and interest is paid ratably through regular payroll deductions.

Payment of Benefits

Prior to termination of employment, a participant may withdraw, subject to the Plan's notice requirements, all or any portion of the vested value of his or her account and the vested value of his or her Company contribution account if the participant has attained age fifty-nine and one-half ($59^{1/2}$) or becomes totally and permanently disabled, or all or a certain portion of the value of his or her participant account in the event of demonstrated financial hardship, subject to the Plan provisions.

A participant, after leaving the Company, can have the total of his or her vested account distributed in accordance with the provisions of the Plan. On termination of service for any reason, including disability or retirement, a participant may elect, if account balance exceeds $5,000, to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or remain in the Plan. If account balance is $5,000 or less, a participant will receive the value of his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures of the non-vested portion of participant accounts related to the Company's contribution are used first to pay Plan expenses and then to offset future Company contributions. At December 31, 2012 and 2011, the forfeited non-vested accounts balance totaled $1,714 and $1,685, respectively. During the year ended December 31, 2011, employer contributions were reduced by $12,362 from forfeited non-vested accounts. No forfeitures were used during 2012.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers. See Note I for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. All accounts are credited with earnings and gains on the underlying investments and charged for losses, participant withdrawals and certain administrative expenses.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability.

Payment of Benefits

Benefits are recorded when paid.

Administrative Costs

The Company, which is a party-in-interest, is absorbing the costs of fiduciary bonding, financial statement audit fees, and fees charged by the Plan's trustee, but reserves the right to amend the Plan at any time, and allocate such fees to Plan participants. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. All other administrative costs are paid by the Plan.

Subsequent Events

The date to which events occurring after December 31, 2012, the date of the most recent statement of net assets available for benefits, has been evaluated for possible adjustments to the financial statements or disclosure is October 15, 2013 which is the date on which the statements were available to be issued.

NOTE C - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, all information pertaining to the investments and related income, information in the notes to the financial statements and information in the supplemental schedule was certified by the Plan's Trustee, Charles Schwab Bank, as complete and accurate as of and for the years ended December 31, 2012 and 2011. This information was not subject to audit procedures except for comparing it to the related information included in the financial statements and supplemental schedule.

NOTE D - INVESTMENTS

The following presents the fair market value of investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

	2012	2011
American Funds Europacific Growth R5 Fund	$4,569,534	$3,179,212
DFA Inflation Protected Securities I Fund	3,998,970	2,931,684
Oppenheimer International Growth Class Y Fund	4,804,533	3,295,644
T. Rowe Price Equity Income Fund	4,102,254	2,947,064
TCW Core Fixed Income I Fund	5,287,192	3,843,899
Vanguard Large Cap Index Fund	6,775,793	5,044,596
Wells Fargo Advantage Growth Adm. Fund	4,018,025	2,652,656

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated (depreciated) in value during 2012 and 2011 as follows:

	2012	2011
Investment contract with insurance Company	$ -	$ 634,407
Mutual funds	4,424,920	(1,738,391)
Common collective trust	99,326	49,112
Participant directed-investments	51,930	(83,999)
	$4,576,176	($1,138,871)

Common Collective Trust

The Plan invests in a stable value fund with KeyBank National Association ("KeyBank"), which is a benefit-responsive investment contract, held in a common collective trust fund. The stable value fund, held in a common collective trust fund, invests in conventional and synthetic guaranteed investment contracts issued by life

NOTE D - INVESTMENTS (Continued)

Common Collective Trust (Continued)

insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The stable value fund allows for earnings stability regardless of the volatility of the financial markets and is recorded in the accompanying financial statements at fair value.

Because the common collective trust is fully benefit-responsive, contract value accounting is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common collective trust contract. The common collective trust is presented on the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by KeyBank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2012 and 2011, the contract value for this contract amounted to $2,880,489 and $1,897,632 and the fair value amounted to $3,007,558 and $1,958,906, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The common collective trust does not permit the trustee to terminate the agreement prior to the scheduled maturity date.

The average yields for 2012 and 2011 were 2.12% and 2.18% based on actual earnings and 2.09% and 2.15% based on interest credited to participants, respectively.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE F - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

For the years ended December 31, 2012 and 2011, no reconciliation is required. Net assets available for benefits per the financial statements are in agreement with Schedule H of Form 5500.

NOTE G - TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

United States generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan is subject to routine examinations by Federal taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE H - RISKS AND UNCERTAINTIES

The Plan provides for investment options in various securities and funds which invest in equity and debt securities and other investments. Such investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board Accounting Standards Codification 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs for valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2 Inputs to the valuation methodology include:

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

NOTE I - FAIR VALUE MEASUREMENT (Continued)

Common collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Marketable equity securities and unit investment trusts: Valued at the closing price reported on the active market where the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012 and 2011:

	2012			
	Level 1	Level 2	Level 3	Total
