NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Anderson & Middleton 401(k) Plan ("the Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan established effective February 1, 2012, for the benefit of eligible employees of Anderson & Middleton Company and participating subsidiaries, Middleton Family Wines, LLC and Delano Farms Company (collectively referred to as "the Company"). The Plan has been set up as a safe harbor plan which is a plan design where the Company commits to making certain contributions described in the Plan document. This commitment to make contributions enables the Company to simplify the administration of the Plan by ensuring that nondiscrimination regulations are met, which is why it is called a "safe harbor" plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the Company, other than union and leased employees, are eligible to participate in the Plan upon the completion of one continuous month of service or one year of service, if earlier, provided they are 18 years of age.

Contributions

In general, participants may voluntarily elect to defer up to 90% of their eligible compensation (as defined in the Plan document) on a pre-tax basis to the Plan. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans"). When eligible to participate in the Plan, if an employee does not make an election otherwise, he or she will be automatically enrolled in the Plan at a salary deferral amount of 3%.

The Company makes a non-elective safe harbor contribution to the Plan for each participant in an amount equal to 3% of the participant's eligible compensation. Additionally, the Company may make matching or profit sharing contributions to the Plan each year at its discretion. For 2012, the Company made a matching contribution to the Plan equal to 100% of the participant's contributions up to 3% of their eligible compensation. No profit sharing contributions were made in 2012.

Contributions are subject to certain limitations of the Internal Revenue Code ("IRC"). In 2012, the Company contributed match and safe harbor amounts to the Plan in excess of IRC limits. These amounts totaled \$33,261 and have been placed in an account similar to a forfeiture account.

Vesting

Employee contributions, employer contributions made under the safe harbor provisions, and related net earnings are 100% vested at all times. Employer matching and profit sharing contributions become vested to the participant based on the following schedule of years of service:

<u>Completed Years of Service</u>	<u>Percentage Vested</u>
Less than 3	0%
3	100

Additionally, a participant becomes 100% vested when the participant reaches normal retirement age or dies or becomes disabled while in the service of the Company. Normal retirement age is 65.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation, participant contributions, or account balances, as defined. A participant is entitled to the benefit that can be provided from the participant's vested account.

Participants direct their proportionate share (vested and non-vested) of Plan assets to a variety of investment funds.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, or other reasons, if the vested benefit in the Plan exceeds \$5,000, a participant or the participant's beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of not more than their assumed life expectancy. If the participant's balance in the Plan is less than \$5,000, then only a single lump-sum payment is allowed and will be paid on termination.

Distributions are generally only allowed after termination of employment with the Company; however, distributions can be made during a participant's employment upon attainment of age 59 1/2 or under certain hardship provisions as defined within the Plan document.

Forfeitures

The portion of a terminated participant account that is not vested ("forfeitures") will be used first to pay expenses of the Plan and then to reduce employer contributions. Forfeitures for 2012 amounted to \$1,031. Forfeitures used in 2012 to pay expenses of the Plan were \$351. At December 31, 2012, there are \$683 of forfeitures included with net assets available for benefits to be used to reduce future employer contributions.

Plan Changes

The Company reserves the right to amend or terminate the Plan at any time. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. In the event of Plan termination, participants will become fully vested in their accounts.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis.

Investments are stated at fair value using the Net Asset Value ("NAV") provided by administrators of the accounts/funds as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets, less any liabilities, then divided by the number of shares or units outstanding. The pooled separate accounts invest directly in designated mutual funds whose fair values are generally determined based on quoted prices in an active market. The stable asset fund invests in debt securities included in the general account of Standard Insurance Company ("Standard"). There are generally no restrictions on redemption or the ability to sell the investments and redemption notice periods are almost immediate. There are no unfunded commitments related to investments.

The Plan invests in fully benefit-responsive investment contracts through its investment in the stable asset fund. Accounting principles generally accepted in the United States provide guidance with respect to financial statement presentation and disclosure of fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the stable asset fund represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. The stable asset fund is included in the statement of net assets available for benefits at fair value as well as the adjustment of the investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

All investments of the Plan are recorded at fair value using Level 2 inputs in the fair value hierarchy.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Company are recorded in the period in which the related participant contributions are recorded. Safe harbor contributions from the Company are also recorded in the period in which the related participant compensation is earned.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Administrative Expenses

Administrative expenses relate to Plan administration and custodianship of investments. The majority of administrative expenses are paid by the Company as allowed by the provisions of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued, which was the same date as the independent auditors' report.

Note 3. Plan Tax Status

The Plan has adopted a non-standardized prototype sponsored by its third-party administrator. The prototype received a favorable determination from the Internal Revenue Service ("IRS") dated March 31, 2008. The Company has not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS.

The Plan's 2012 Form 5500 filing is open to examination by federal authorities.

Note 5. Investment in the Standard Stable Asset Fund

As noted previously, the Plan invests in fully benefit-responsive investment contracts through its investment in the Standard Stable Asset Fund. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rate was approximately 2.55% for 2012. The average yield was approximately 2.66% for 2012. The crediting interest rate is based on an agreed upon formula with the issuer and based on the characteristics of the underlying fixed income portfolio, but cannot be less than 1.0%. Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Standard. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Standard is not probable. Both management of the Plan and Standard can terminate the contract with 30 days advance notice, although Standard can only terminate the contract for reasonable cause.

Note 6. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplementary schedule as of December 31, 2012, and for the period from February 1, 2012, to December 31, 2012, was obtained from data that has been prepared and certified as complete and accurate by the custodian, Standard.

Note 7. Party-in-Interest Transactions
