Notes to Financial Statements

December 31, 2012 (Audited) and 2011 (Compiled)

Note 1: Description of the Plan

The following description of Buehler Moving & Storage Company 401(k) Plan and Trust (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description,* which are available from the Plan Administrator, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Buehler Moving & Storage Company (Company) for the benefit of its employees who have at least three months of service and are age 21 or older. Related employers who also participate in the Plan include Buehler Transfer & Storage of Texas, Inc. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974 (ERISA).* The Company's President is the discretionary trustee of the Plan. Great-West Life Annuity & Insurance Company (Great-West) serves as Plan custodian, record keeper, and issuer of the group fixed and variable deferred annuity contract.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 100% of eligible compensation. Employee rollover, employee Roth, and employee catch-up contributions are also permitted. Company matching and nonelective contributions are discretionary as determined by the Company's Board of Directors. For payroll paid January 1, 2012, through July 31, 2012, the Company did not make any matching contributions. For payroll paid August 1, 2012 through August 16, 2012, the Company made matching contributions equal to 25% of employees' salary deferral amounts on the first 3% of employees' compensation. For payroll paid subsequent to August 16, 2012, the Company made matching contributions equal to 3% of employees' salary deferral amounts. To be eligible to participate in Company matching contributions, employees must have completed at least one year of service. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various pooled separate accounts and a guaranteed investment contract. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

The Plan Document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise. However, the Company did not elect to utilize this feature in 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, if any, and plan earnings and is charged with an allocation of administrative expenses.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of his or her account. Participants with a vested account balance greater than $5,000 may elect to maintain their vested balance in the Plan and continue to share in investment gains and losses. For participants with a vested account balance greater than $1,000, but less than $5,000, who do not elect either a distribution or rollover to an account of the participant's choice, the vested balance will be rolled over to an IRA of the Plan Administrator's choice. For participants with a vested account balance less than $1,000, the vested balance will be distributed to the participant in a lump-sum amount equal to the vested value of their account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $1,422 and $1,402, respectively. These accounts may first be used to pay any administrative expenses. Any remaining forfeitures attributable to Company nonelective contributions will be allocated as an additional Company discretionary nonelective contribution. Any remaining forfeitures attributable to Company matching contributions will be used to reduce any Company matching contribution.

Participant Loans

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the estimated fair value, which approximates contract value, of the investment contract. As the estimated fair value of the investment contract approximates contract value, the adjustment of the fully benefit-responsive investment contracts from fair value to contract value is not presented in the Statements of Net Assets Available for Benefits. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Pooled separate accounts are valued at estimated fair value as provided by Great-West. Estimated fair value is based on the change in net asset values of the underlying mutual fund investments, dividends, capital gain or loss distributions and expense charges.

The Key Guaranteed Portfolio Fund is an investment contract with Great-West and is stated at estimated fair value, which approximates contract value, as provided by Great-West. Estimated fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust document sponsored by Great-West Trust Company, LLC. This prototype plan document has been filed with the appropriate agency and the prototype plan sponsor has obtained an opinion letter from the Internal Revenue Service. The Plan has not obtained or requested a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by Great-West. The following table presents the Plan's investments. Individual investments that represented 5% or more of the Plan's net assets available for benefits are separately identified.

	2012	2011
Pooled Separated Accounts		
Great-West Lifetime 2025 Fund II	$ 522,631	$ 414,319
Great-West Lifetime 2015 Fund II	257,665	381,493

Investment Contract with Great-West, at contract value, #944318-01	2,668	1,508
	$ 1,158,286	$ 1,006,519

During the year ended December 31, 2012, the Plan's investments in pooled separate accounts, including investments bought, sold and held during the year, appreciated in fair value by $132,636.

Interest realized on the Plan's investments for the year ended 2012 was $23.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are units of pooled separate accounts sponsored by Great-West. The investment contract with Great-West is part of the general account of Great-West. Great-West charges the Plan fees and expenses through an expense charge. The expense charge varies based on the total value of investments held by the Plan under the group variable deferred annuity contract with Great-West. This expense charge is deducted from each pooled separate account and is reflected in the unit value of the pooled separate accounts held by the Plan. Individually nonmaterial expenses paid to parties-in-interest aggregated $256 for 2012.

Additionally, the Plan incurs expenses related to certain accounting and auditing fees. The Company pays these expenses and provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in

Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 6: Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

As described in the basis of accounting disclosure, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The estimated fair value of the investment contract approximated contract value, as provided by Great-West. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0.00 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011, to Form 5500:

	2012	2011
Net assets available for benefits per the financial statements	$ 1,230,934	$ 1,093,079
Less: Current year contributions receivable	(2,243)	-
Net assets available for benefits per Form 5500	$ 1,228,691	$ 1,093,079

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2012, to Form 5500:

	2012
Contributions per the financial statements	$ 90,153
Less: Current year contributions receivable	(2,243)
Contributions per Form 5500	$ 87,910

Note 8: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. While the Company remitted all employee contributions to the Plan, contributions, including loan repayments, of $44,144 were not remitted within the required time period for the year ended December 31, 2012.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
