1. Description of Plan

The following description of the Point Blank Enterprises, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 2008. The Plan is a defined contribution plan covering all full-time employees of the Company, excluding employees covered by a collective bargaining agreement. Employees who have six months of service and are age eighteen or older are eligible to enter the Plan starting the first day of the month after the above requirements have been met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make salary deferral contributions of any percentage, from 1% of pretax annual compensation up to the limit, as defined in the Plan and other limits according to the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a match or elective contribution to the Plan at its discretion. The Company opted not to match contributions or to make an elective contribution to the Plan for the years ending December 31, 2012 and 2011.

Participants' Accounts

Each participant's account is credited with the participant's contributions and an allocation of Plan earnings and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 33% per year, starting after one year of credited service, with the participant becoming fully vested after three years of credited service.

Payment of Benefits

On termination of service, or due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Loan Provisions

Participants may borrow from their accounts a minimum of $500, up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions. Interest rate on loans outstanding during 2012 was 5.25%.

Forfeitures

Participant forfeitures of employer match and elective contributions are used to offset future employer matching contributions or administrative expenses. During the year ended December 31, 2012, there were no forfeitures.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Employer. The Plan pays fees for certain services, which amounted to $5,275 for year ended December 31, 2012.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). ASU 2011-04 amended ASC 820, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of ASU No. 2011-04 as of January 1, 2012 did not have a material effect on the Plan's financial statements.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and change therein, and disclosures of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

3. Investments

The following presents the fair values of investments that represent 5 percent or more of the Plan's net asset:

December 31,	**2012**	2011
Alliance Bernstein Balanced Wealth Fund	**$ 451,698**	$ 249,378
Alliance Bernstein 2020 Retirement Strategy	**154,160**	118,298
Alliance Bernstein 2015 Retirement Strategy	**85,698**	94,359
Alliance Bernstein 2025 Retirement Strategy	**135,575**	70,225
Morgan Stanley Liquid Asset	**90,738**	56,641

The Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value by $89,733 during the year ended December 31, 2012, which was all attributed to mutual funds. During the year ended December 31, 2012, the Plan had interest and dividend income of $34,519.

4. Investment Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	**2012**	2011
Mutual funds	**$ 1,621,314**	$ 917,914
Notes receivable – participant loans	**58,123**	9,721

Year Ended December 31,	**2012**
Net appreciation in fair value of mutual funds	**$ 89,733**
Interest and dividends	**34,519**
Other income	**976**

The Plan's independent accountants did not perform auditing procedures on the above information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

5. Fair Value Measurement

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair Value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant inputs determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are shares of mutual funds which are managed by Morgan Stanley and held by State Street Bank and Trust Company, the Plan's Trustee. In addition, ADP Recordkeeping services, serves as the Plan's third party administrator. Since State Street Bank and Trust Company, ADP Recordkeeping Services, and Morgan Stanley provide guidance to the plan sponsor, these transactions qualify as party-in-interest. The majority of administration expenses of the Plan were paid by the Company for the year ended December 31, 2012.

7. Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has since amended; however, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been recorded.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
