Independent Auditor's Report

To the Participants and Administrator of
the Tribune Company Defined Contribution Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Tribune Company Defined Contribution Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2012 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2012 financial statements.

Basis for Disclaimer of Opinion on the 2012 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 12, which was certified by Vanguard Fiduciary Trust, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the 2012 Financial Statements

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2012 Financial Statements* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2012 financial statements. Accordingly, we do not express an opinion on the 2012 financial statements.

Other Matters - Report on Supplementary Information and Report on 2011 Financial Statements

The supplemental schedule of Assets (Held at End of Year) as of December 31, 2012 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2012 Financial Statements* paragraph, we do not express an opinion on this supplemental schedule.

We have audited the accompanying financial statements of the Tribune Company Defined Contribution Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2011, and in or report dated October 15, 2012, we expressed our opinion that such financial statements presents fairly, in all material respects, net assets available for benefits of the Plan as of December 31, 2011 and the changes in net assets available for benefits for the year ended December 31, 2011, in accordance with accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance with DOL Rules and Regulations for 2012 Financial Statements

The form and content of the information included in the 2012 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Tribune Company Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

1. Plan Description

The following brief description of the Tribune Company Defined Contribution Retirement Plan (the "Plan") is provided for general information purposes. Effective January 1, 2004, the Plan document was restated. Plan participants should refer to the Plan document, including amendments thereto, for more complete information.

General

The Plan is a defined contribution plan of Tribune Company (the "Company") that covers the members of the American Federation of Television and Radio Artists unions at KTLA Inc. and WPIX, Inc., the International Brotherhood of Electrical Workers ("IBEW") union at WPHL Inc., the Newspaper Guild union at WPIX, Inc., IBEW union employees at WPIX, Inc., the International Alliance of Theatrical Stage Employees union at KTLA Inc., the Newspaper Guild and Compositors at The Baltimore Sun, the Graphic Communications Conference / IBT at the Los Angeles Times, the Graphic Communications International union at The Morning Call, Inc. and the Baltimore Sun and the International Association of Machinists union employees at Chicago Tribune Company who meet applicable age and service requirements, as defined in the Plan document. Separate benefit accounts are maintained for each participant. Effective April 1, 2006, the Plan also covered employees of Newsday, Inc. ("Newsday"), other than those employees whose terms and conditions of employment are covered by a collective bargaining agreement between Newsday and the Communications Workers of America, Local 14156. Effective January 1, 2007, members of Communications Workers of America, Local 14156 employed at Newsday are covered by the Plan. Effective June 30, 2008, employees at The Baltimore Sun Company who are members of GCC/IBT, Local 31 (Pressman) are covered by the Plan. Effective April 30, 2009, LA Times Pressman employees are covered by the Plan. Effective March 5, 2010, employees of the Baltimore Sun who are members of Baltimore Mailers' Union Local No. 888 are covered by the Plan.

On July 29, 2008, the Company contributed certain assets and liabilities of Newsday and other subsidiaries of the Company to a new limited liability company that is controlled by a wholly-owned subsidiary of Cablevision Systems Corporation. Effective December 31, 2008, all Newsday employees transferred their account balances out of the Plan and into either the Cablevision Union Savings Plan if union employees or the Cablevision 401(k) Savings Plan (collectively the "Cablevision Plans") if non-union employees, both of which are maintained by Cablevision Systems Corporation.

Effective September 30, 2009, Plan participants and certain former union employees who participated in the Times Mirror Savings Plus Plan had their Times Mirror Savings Plus Plan accounts transferred to this Plan.

Employees of the Company and participating subsidiaries that are covered by collective bargaining agreements, and have a contribution schedule under the plan are generally eligible to participate if they are at least 21 years of age, with one year of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Chapter 11 Reorganization

On December 8, 2008, Tribune Company and 110 of its direct and indirect wholly-owned subsidiaries (collectively, the "Debtors"), filed voluntary petitions for relief under chapter 11 of title 11 ("Chapter 11") of the United States Bankruptcy Code in the United States Bankruptcy Court for

Notes to Financial Statements

the District of Delaware (the "Bankruptcy Court"). On December 31, 2012, a plan of reorganization for the Debtors became effective and the Debtors emerged from Chapter 11. Pursuant to the Debtors' plan of reorganization, the Plan has been assumed by the applicable reorganized Debtor.

Plan Administration

The Plan is administered by the Tribune Company Employee Benefits Committee (the "Committee"), which consists of Company employees who are appointed by the Board of Directors of the Company or by the Chairman of such Committee. The Plan's trustee (the "Trustee"), which until December 31, 2011 was The Northern Trust Company, was responsible for the custody of the Plan's assets and the investment management of some of the Plan's assets. Effective January 1, 2012, Vanguard Fiduciary Trust Company became the Plan's trustee.

Contributions

Participants may elect to make before-tax contributions of up to 25% of their compensation (as defined in the Plan) subject to Plan and Internal Revenue Service ("IRS") limits. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers 19 investment alternatives, including 18 publicly traded mutual funds and the Fidelity Stable Value Fund Master Trust ("Stable Value Fund Master Trust").

The Company makes a contribution, if any, based on each union's collective bargaining agreement.

Participants may elect to have all or a percentage (in 1% increments) of their contributions and their share of the Company's contributions invested in or transferred among one or more of the investment funds. Company and employee contributions are automatically allocated to the series of Vanguard Target Retirement Funds (selected based on the participant's expected retirement age), unless the eligible participant elected to have them allocated otherwise. Participants may change how contributions are invested at any time, and these changes are effective the next pay period. Participants may make interfund transfers on a daily basis.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) Company contributions and (b) Plan earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant elections or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are, at all times, 100% vested in their own contributions. The Plan has a variety of vesting schedules for Company contributions that apply to participants. Full vesting is provided in certain instances regardless of a participant's period of service.

Payment of Benefits

Participants who have attained age 59½ or who are totally and permanently disabled may, in most instances, elect to withdraw their vested account balances through notice to the Company at any time.

Participants may make withdrawals of any part or all of the balance in their before-tax contribution accounts (excluding certain earnings), prior to termination, in order for the participant to meet an immediate and significant financial need for which a withdrawal would be permitted by IRS

Tribune Company Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

regulations. Participants who make hardship withdrawals will cease to be eligible to make before-tax contributions for six months.

Distributions of account balances are generally made to participants in a lump-sum cash payment.

Notes Receivable from Participants

If and to the extent permitted by a union's collective bargaining agreement, the Plan permits participants to borrow from their accounts. The minimum amount that can be borrowed is \$500. The maximum amount is equal to the lesser of (a) \$50,000, reduced by the excess, if any, of the highest outstanding loan balance during the most recent 12 month period or (b) 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant's outstanding loan balance. Loan terms range from 1 to 5 years, however, terms of principal residence loans range from 5 to 30 years. The loans are secured by the balance in the participant's account. The interest rate for a loan is the prime rate on the last business day of the month prior to loan inception and is fixed for the life of the loan. Principal and interest are paid ratably through payroll deductions. Interest rates on notes receivable from participants at December 31, 2012 and 2011 ranged from 3.25% to 9.5%.

Plan Amendment or Termination

The Company has the right under the Plan, subject to any applicable collective bargaining agreement, to discontinue its contributions at any time and to amend or terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, affected participants would become 100% vested in their employer contributions and distributions would be made in accordance with the provisions of ERISA.

Forfeited Accounts

Forfeitures of terminated unvested account balances are used to reduce future employer contributions or pay administrative expenses at the Company's discretion, and totaled \$8,089 and \$19,336 for the years ended December 31, 2012 and 2011, respectively.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments in the Tribune Company Master Retirement Savings Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

The fair value of the Plan's interest in the Tribune Company Master Retirement Savings Trust is based on the specific interest that each plan has in the underlying investments of the master trust.

Tribune Company Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

The fair value of the Plan's interest in the Stable Value Master Trust is based on the specific interest that each plan has in the underlying investments of the master trust. The investments held by the Stable Value Master Trust are valued as follows:

The fair value of synthetic guaranteed investment contracts ("GICs") is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The underlying assets and wrapper contracts of the synthetic GICs are stated at fair value. See Note 6 for discussion of fair value measurements.

As codified within Accounting Standards Codification ("ASC") Topic 962 Plan Accounting - Defined Contribution Pension Plans, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Stable Value Fund Master Trust. The statement of net assets available for benefits presents the adjustment from fair value to contract value relating to investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Net appreciation or depreciation in the fair value of investments includes realized gains and losses on investments sold and unrealized gains and losses on investments held at the end of the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Distributions are recorded when paid. Benefit claims that have been processed and approved for payment prior to December 31, but not yet distributed as of that date are shown as a liability on the Form 5500 filed with the Department of Labor (see Note 9).

Recently Adopted and Issued Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued ASC Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U. S. GAAP and IFRS*. This new pronouncement provides guidance to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP. The amendments are intended to: 1) clarify the application of existing fair value measurement and disclosure requirements and 2) change a particular principle or requirement for measuring and disclosing information about fair value measurements. The prospective application of this guidance was effective for annual periods beginning January 1, 2012. The disclosures required under this guidance are provided in the accompanying Note 6 to these financial statements.

Tribune Company Master Retirement Savings Trust (see Note 5)	102,495,974	101,769,073

4. Net Transfer of Assets/Plan Merger

There were certain other miscellaneous transfers among plans that are included in the net transfers of assets reported in the accompanying financial statements.

5. Interests in Master Trusts

Stable Value Fund Master Trust

A portion of the Plan's assets are invested in the Stable Value Fund Master Trust, which was established for the investment of assets of the Plan and several other Tribune Company sponsored retirement plans. Each participating retirement plan has an interest in the Stable Value Fund Master Trust. The assets of the Stable Value Fund Master Trust are held by the Trustee. At December 31, 2012 and 2011, the Plan's interest in the net assets of the Stable Value Fund Master Trust was approximately 11% for both years. Investment income and administrative expenses related to the Stable Value Fund Master Trust are allocated to the individual plans based upon balances invested by each plan.

The Stable Value Fund Master Trust primarily invests in synthetic GICs issued by insurance companies and other financial institutions. The Stable Value Fund Master Trust Fund provides participants principal preservation and a stable interest rate that is reset quarterly. The Stable Value Fund Master Trust allows for daily withdrawals and exchanges that are paid at contract value (principal and interest accrued to date).

Synthetic GICs simulate the performance of a traditional investment contract. The Stable Value Fund Master Trust owns the assets underlying the synthetic GICs. To enable the Stable Value Fund Master Trust to realize a specific known value for the assets if it needs to liquidate them to make benefit payments, the Stable Value Fund Master Trust purchases fully benefit-responsive "wrapper" contracts issued by financial institutions. These contracts provide the Stable Value Fund Master Trust with market and cash flow risk protection. Synthetic GICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. The difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to

Tribune Company Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened.

Certain events may limit the ability of the Stable Value Fund Master Trust to transact at contract value with the insurance company and the financial institution issuer. Such events may include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The plan administrator believes that no event has occurred or is probable that is likely to result in the Plan's inability to transact at contract value with participants during the continuance of the Plan's participation in the Stable Value Fund Master Trust. In view of indications that some of the financial institutions currently providing "wrapper" contracts will not continue to do so except on a short-term basis, among other considerations, the plan administrator has begun the process of replacing the Stable Value Fund Master Trust with one or more alternative investment options within the Plan. Replacement of the Stable Value Fund Master Trust alternative is currently expected to be completed in late 2013 or early 2014. The following summary information pertains to the Stable Value Fund Master Trust as currently in effect.

The synthetic GICs generally impose conditions on both the investment manager, acting on behalf of the Plan and the issuer. If any of certain specified events of default occurs and is not cured, the non-defaulting party may terminate the contract. Contract termination may also occur in certain cases at the election of a contracting party. If the Stable Value Fund Master Trust were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Stable Value Fund Master Trust's assets no longer covered by the contract is below contract value.

As described in Note 2, because the synthetic GICs are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefit attributable to the synthetic GICs. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield of the synthetic GICs based on annualized earnings was 0.80% and 1.04% in 2012 and 2011, respectively. The average yield of the synthetic GICs based on the interest rate credited to participants was 0.87% and 1.24% in 2012 and 2011, respectively.

Tribune Company Master Retirement Savings Trust

A portion of the Plan's assets are invested in the Tribune Company Master Retirement Savings Trust, which was established for the investment of assets of the Plan and several other Tribune Company sponsored retirement plans. Each participating retirement plan owns units of the Tribune Company Master Retirement Savings Trust. The assets of the Tribune Company Master Retirement Savings Trust are held by the Trustee. At December 31, 2012 and 2011, the Plan's interest in the net assets of the Tribune Company Master Retirement Savings Trust was approximately 8%. Investment income (loss) and administrative expenses related to the Tribune Company Master Retirement Savings Trust are allocated to the individual plans based upon balances invested by each plan.

The following table presents the fair values of investments and investment income for the Tribune Company Master Retirement Savings Trust at December 31, 2012 and 2011, respectively, and for the year ended December 31, 2012:

6. Fair Value Measurements

On January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" as codified within ASC Topic 820 ("ASC 820") Fair Value Measurements and Disclosures. ASC 820 establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Tribune Company Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2012 and 2011

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such investments pursuant to the fair value hierarchy.

Registered Investment Companies

Registered investment companies consist of investments in mutual funds. Mutual funds are valued based on exchange listed prices, for exchange traded registered investment companies, or the Net Asset Value ("NAV") for open-ended and continuously offered closed-end registered investment companies.

Common/Collective Trusts

Investments in common collective trusts are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The underlying assets are valued based on the NAV as provided by the investment account manager or based on pricing from observable market information in a non-active market. Redemptions are allowed daily (pending market conditions) and trades settle in one day. There were no unfunded commitments related to the common/collective trusts at December 31, 2012 and 2011.

Corporate and Other Obligations

Corporate bonds, asset backed, mortgage backed and commercial mortgage backed securities are valued using evaluated prices that reflect observable market information, such as actual trade information of similar securities, adjusted for observable differences.

Government and Foreign Bonds

Government and foreign securities consist of investments in treasury securities, investment grade municipal securities and unrated or non-investment grade municipal securities. Government securities traded in an active market are valued based on broker quotes. Government and foreign securities not traded on an active market are valued at a price which is based on a compilation of primarily observable market information or a broker quote in a non-active market.

Short-Term Securities

Short-term temporary investments consist of short term holdings of cash in government obligations and investment contract funds. Short-term investments are valued using the amortized cost method, which approximates fair value. Under the amortized cost method, investments purchased at a discount or premiums are valued by amortizing the difference between the original purchase price and maturity value of the issue over the period to maturity.

Wrapper Contracts

Wrapper contracts are valued based on the replacement cost of the contract.

7. Income Tax Status

The IRS has determined and informed the Company by letter dated September 17, 2013, which considered amendments executed through April 14, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended subsequent to April 14, 2011. However, the Plan's ERISA counsel believes that the Plan is designed to comply with, and the Company believes the Plan is currently being operated in material compliance with, the applicable requirements of the IRC and is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's tax exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

8. Related Party Transactions

Tribune Company Master Retirement Savings Trust transactions and notes receivable from participants qualify as party-in-interest transactions (see Note 5 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year)).

9. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to the Form 5500:

Plan interest in net investment income of the Tribune Company Master Retirement Savings Trust	\$ 10,119,358
Plan interest in net investment income of Stable Value Fund Master Trust	<u>112,713</u>
Total net investment income from master trust investment accounts	10,232,071
Change in adjustments from contract value to fair value for interest in Stable Value Fund Master Trust relating to fully benefit-responsive investment contracts	<u>(59,991)</u>
Net investment income from master trust investment accounts per the Form 5500, exclusive of \$135,046 in administrative expenses	<u>\$ 10,172,080</u>

10. Risks and Uncertainties

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and values will occur in the near term and that the effect of such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

11. Other Matters

The Plan has been named (indirectly through its participation in the Tribune Company Master Retirement Savings Trust ("Trust")) as a defendant in an action entitled *Deutsche Bank Trust Company v. Ohlson Enterprises, et al.* Although this action was originally filed in the Northern District of Illinois on June 2, 2011, the Trust was not named as a defendant until the plaintiff filed its Third Amended Complaint on March 6, 2012. The Trust was served on March 9, 2012. This litigation has also been consolidated as part of the "multi-district litigation" in the U.S. District Court for the Southern District of New York. The action was brought by Tribune Company creditors against shareholders whose shares were redeemed in connection with the leveraged buyout of the Tribune Company in 2007.

The Plan has also been named (indirectly through its participation in the Trust) as a defendant in *The Official Committee of Unsecured Creditors of Tribune Company, on behalf of Tribune Company, et al v. Dennis J Fitzsimons, et al.* Although this action was originally filed in the Bankruptcy Court for the District of Delaware on November 1, 2010, the Trust was not named until the Third Amended Complaint filed on January 11, 2012. The Trust was served on July 9, 2012. This action has also been consolidated as part of the "multi-district litigation" in the U.S. District Court for the Southern District of New York.

Notes to Financial Statements

December 31, 2012 and 2011

Defendant's Motion to Dismiss certain state law claims was granted by the court on September 23, 2013 but on limited grounds that may result in the survival of those claims in another form. At the time of this ruling, the case remains otherwise stayed. The amount in respect of the transfers alleged by the lawsuits to have been made to the Trust and that would be allocable to the Plan is approximately \$58,085,447.

The Plan intends to respond vigorously to the claims and to pursue all available defenses, including defenses specific to ERISA-governed retirement plans. Separate legal counsel has been retained to represent the Plan.

12. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements, notes to the financial statements and supplemental schedule is complete and accurate:

- Plan interest in Tribune Company Master Retirement Savings Trust, at fair value, as shown in the Statements of Net Assets Available for Benefits.
- Notes receivable from participants as shown in the Statements of Net Assets Available for Benefits.
- Plan interest in net investment income of the Tribune Company Master Retirement Savings Trust, as shown in the Statement of Changes in Net Assets Available for Benefits.
- Interest from notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits.
- Investment amounts, as shown in Note 3
- Investment and investment income amounts, as shown in Notes 5 and 6, related to the Tribune Company Master Retirement Savings Trust.
- Schedule H, Line 4i, - Schedule of Assets (Held at End of Year), December 31, 2012.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

13. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.
