Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Tarkett 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

On January 3, 2012, the assets from the following Plans were merged into the Plan:

Tarkett Enhanced Savings Plan
Tarkett Alabama Inc. Retirement and Savings Plan
Texas Tile Manufacturing LLC
Johnsonite Retirement Savings Plan
Johnsonite Hourly 401(k) Savings Plan
Diamond W. Floor Covering 401(k) Plan and Trust

As a result, net assets of \$53,554,634 were transferred to the Plan on January 3, 2012. The merger of the assets into the Plan does not impact participant benefits as the benefit provisions were incorporated in the Plan.

General: On January 1, 2012, the Company established, the Tarkett 401(k) Plan. The Plan is a safe harbor, defined contribution plan covering substantially all employees of Tarkett Enterprises Inc. (the "Company") or employees of any of the following companies (the "Participating Employers"):

Tarkett Alabama Inc.
Tarkett USA Inc.
Tarkett IFA Inc.
Johnsonite Inc.
Diamond W. Floor Covering
Texas Tile Manufacturing LLC

An employee becomes eligible to participate in the Plan immediately upon employment with the Company or the Participating Employers. Employees covered by a collective bargaining agreement will be subject to eligibility rules based on the agreement. There are no age or service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may elect to make salary-deferral contributions ranging from 1% to 80% of their annual compensation, as defined in the Plan. Employees hired after January 1, 2012, are automatically enrolled in the plan after 90 days of service at a deferral rate of 3%, unless the employee elects otherwise. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

The Company will make a safe harbor matching contribution to the Plan equal to 100% up to the first 3% of eligible compensation and 50% up to the next 2% of eligible compensation contributed by the employee to all participants who are not covered by a collective bargaining agreement.

For participants who are members of the Johnsonite Bargaining Union represented by Local 507 of International Brotherhood of Teamsters ("Local 507"), the Company will match contributions each year, at a rate of 50% per each dollar contributed by the employee, up to a maximum of 6% of eligible compensation contributed. For the year ended December 31, 2012, the Company match for Local 507 equaled \$124,504.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Contributions (Continued): For participants who are members of the Tarkett Alabama Bargaining Unit Employees Local No. 481 ("Local No. 481"), under the non-contributory portion of the Plan, the Company contributed an amount equal to \$0.70 for each hour worked during 2012 totaling \$179,335 for the year ended December 31, 2012. Each year participants may make salary deferral contributions as a percentage of annual compensation, as defined. The Company will match contributions each year, at a rate of 40% per each dollar contributed by an employee, up to a maximum of 6% of eligible compensation contributed to the Plan. For the year ended December 31, 2012, the Company match for Local No. 481 equaled \$59,295.

All contributions are recorded in the year in which the participant contributions are withheld from accounts paid and are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (a) the Company's discretionary contribution, and (b) Plan earnings and charged with Plan losses, distributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. In addition, participants are also 100% vested in their rollover contribution, employer matching contributions, qualified non-elective contributions, regular contributions and any earnings thereon.

For participants who are members of the Tarkett Alabama Bargaining Unit Employees Local No. 481, under the non-contributory portion of the Plan, participants are entitled to 25% of their account balance after three years of service, increasing to 40% after the fourth year and in increments of 20% annually thereafter until 100% vesting is attained after seven years of service for non-elective employer contributions. For matching employer contributions under the contributory portion of the Plan, participants are entitled to 20% of their account balance after two years of service and continue vesting ratably until 100% is attained after six years of service.

Investment Options: Participants may direct their salary deferral contributions, plus actual earnings thereon and employer contributions to selected investments as made available and determined by the Plan Administrator or to other securities of their choosing, provided such securities or property have a readily ascertainable fair value. Participants may change their investment options at any time using a voice response system or the internet.

Notes from Participants: Notes are available only to active employees. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear fixed interest rates ranging from 4.25% to 10.00%, which is commensurate with local prevailing rates, as determined by the Plan Administrator. The note terms range from one to five years, or longer for the purchase of a primary residence. To the extent that participants leave the Company and default on their notes, the Company is required to process the outstanding balances as distributions from the Plan. Principal and interest is repaid ratably through payroll deductions or alternative methods.

Payment of Benefits: On termination of service due to death, disability, retirement or for any other reason, the participant or beneficiary may request a distribution equal to the value of the participant's vested interest in his or her account upon proper direction delivered to the Trustee. Distributions may only be made in the form of a lump sum payable to the participant or beneficiary or a rollover into another qualified retirement plan. A participant may also elect to receive in-service distributions under the Plan upon the attainment of age 59 ½. Hardship withdrawals of elective contributions are permitted.

Former participants in the Tarkett Alabama Inc. Retirement and Savings Plan who had pension assets transferred in to the Tarkett 401(k) Plan may elect to receive pension benefits in the form of a single life annuity or joint and 50% or 75% survivor annuity.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 5 for discussion of fair value measurements.

The Plan has funds invested in the T. Rowe Price Stable Value Common Trust Fund B, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Benefit Payments: Benefit payments to participants are recorded when paid.

Administrative Expenses: As provided by the Plan agreement, administrative expenses related to the Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company. Loan origination fees are charged to the borrower/participant.

Income Taxes: GAAP require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to income tax examination by the U.S. Federal, state or local tax authorities for 2012.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements: In October 2012, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2012-04, *Technical Corrections and Improvements*. The amendments in the update cover a wide range of topics in the Accounting Standards Codification ("ASC"), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material effect on subsequent periods.

Subsequent Events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2012) through October 15, 2013, which represents the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and for the year then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Investments, at fair value:	
Registered investment companies	\$ 54,183,732

T. Rowe Price Stable Value Common Trust Fund B **	6,108,681

** The fair value of the T. Rowe Price Stable Value Portfolio was \$6,371,294 as of December 31, 2012.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued based on NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common stock and preferred stock: The fair value of investment securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers. If listed prices or quotes are not available, fair value is based upon externally developed models that are unobservable inputs due to the limited market activity of the instrument.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value at December 31, 2012			
	Level 1	Level 2	Level 3	Total
Registered investment companies:				
Small-cap	\$ 2,613,150	\$ -	\$ -	\$ 2,613,150

Tarkett 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2012:

Investment	2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust:				
T. Rowe Price Stable Value Fund (a)	<u>\$ 6,371,293</u>	<u>\$ -</u>	Immediate	None

- (a) The objective of the stable value fund is to maximize current income while maintaining stability of principal, by investing primarily in guaranteed investment contracts, bank investment contracts, synthetic investment contracts and separate account contracts.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Level 3 Assets Stable Value Fund
Balance, beginning of year	\$ -
Transfers of assets into Plan	5,994,716
Interest and dividends	104,339
Purchases	878,696
Sales	(865,407)
Fees	(3,663)
Adjustment to fair value	<u>262,612</u>
Balance, end of year	<u>\$ 6,371,293</u>

Unrealized gains (losses) from the stable value fund are not included in the statement of changes in net assets available for benefits as the fund is recorded at contract value for purposes of net assets available for benefits.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 6. Risks and Uncertainties

The Plan's assets are exposed to various risks such as credit, interest rate and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other assets in the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Income Tax Status

The Plan adopted a Volume Submitter Defined Contribution Plan sponsored by Fidelity Management Trust Company with a cash or deferral arrangement. The Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Party-in-Interest Transactions

Certain Plan investments are invested in funds managed by Fidelity Investments, an affiliate of the Plan's trustee, and therefore, qualify as party-in-interest transactions. In addition, the Plan offers loans to participants, which are secured by the balance in the participants' account. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses of maintaining the Plan are paid by the Company.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to amend, discontinue or terminate the Plan at any time subject to the provisions under ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Tarkett 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

On January 3, 2012, the assets from the following Plans were merged into the Plan:

Tarkett Enhanced Savings Plan
Tarkett Alabama Inc. Retirement and Savings Plan
Texas Tile Manufacturing LLC
Johnsonite Retirement Savings Plan
Johnsonite Hourly 401(k) Savings Plan
Diamond W. Floor Covering 401(k) Plan and Trust

As a result, net assets of \$53,554,634 were transferred to the Plan on January 3, 2012. The merger of the assets into the Plan does not impact participant benefits as the benefit provisions were incorporated in the Plan.

General: On January 1, 2012, the Company established, the Tarkett 401(k) Plan. The Plan is a safe harbor, defined contribution plan covering substantially all employees of Tarkett Enterprises Inc. (the "Company") or employees of any of the following companies (the "Participating Employers"):

Tarkett Alabama Inc.
Tarkett USA Inc.
Tarkett IFA Inc.
Johnsonite Inc.
Diamond W. Floor Covering
Texas Tile Manufacturing LLC

An employee becomes eligible to participate in the Plan immediately upon employment with the Company or the Participating Employers. Employees covered by a collective bargaining agreement will be subject to eligibility rules based on the agreement. There are no age or service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may elect to make salary-deferral contributions ranging from 1% to 80% of their annual compensation, as defined in the Plan. Employees hired after January 1, 2012, are automatically enrolled in the plan after 90 days of service at a deferral rate of 3%, unless the employee elects otherwise. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

The Company will make a safe harbor matching contribution to the Plan equal to 100% up to the first 3% of eligible compensation and 50% up to the next 2% of eligible compensation contributed by the employee to all participants who are not covered by a collective bargaining agreement.

For participants who are members of the Johnsonite Bargaining Union represented by Local 507 of International Brotherhood of Teamsters ("Local 507"), the Company will match contributions each year, at a rate of 50% per each dollar contributed by the employee, up to a maximum of 6% of eligible compensation contributed. For the year ended December 31, 2012, the Company match for Local 507 equaled \$124,504.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Contributions (Continued): For participants who are members of the Tarkett Alabama Bargaining Unit Employees Local No. 481 ("Local No. 481"), under the non-contributory portion of the Plan, the Company contributed an amount equal to \$0.70 for each hour worked during 2012 totaling \$179,335 for the year ended December 31, 2012. Each year participants may make salary deferral contributions as a percentage of annual compensation, as defined. The Company will match contributions each year, at a rate of 40% per each dollar contributed by an employee, up to a maximum of 6% of eligible compensation contributed to the Plan. For the year ended December 31, 2012, the Company match for Local No. 481 equaled \$59,295.

All contributions are recorded in the year in which the participant contributions are withheld from accounts paid and are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (a) the Company's discretionary contribution, and (b) Plan earnings and charged with Plan losses, distributions and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. In addition, participants are also 100% vested in their rollover contribution, employer matching contributions, qualified non-elective contributions, regular contributions and any earnings thereon.

For participants who are members of the Tarkett Alabama Bargaining Unit Employees Local No. 481, under the non-contributory portion of the Plan, participants are entitled to 25% of their account balance after three years of service, increasing to 40% after the fourth year and in increments of 20% annually thereafter until 100% vesting is attained after seven years of service for non-elective employer contributions. For matching employer contributions under the contributory portion of the Plan, participants are entitled to 20% of their account balance after two years of service and continue vesting ratably until 100% is attained after six years of service.

Investment Options: Participants may direct their salary deferral contributions, plus actual earnings thereon and employer contributions to selected investments as made available and determined by the Plan Administrator or to other securities of their choosing, provided such securities or property have a readily ascertainable fair value. Participants may change their investment options at any time using a voice response system or the internet.

Notes from Participants: Notes are available only to active employees. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear fixed interest rates ranging from 4.25% to 10.00%, which is commensurate with local prevailing rates, as determined by the Plan Administrator. The note terms range from one to five years, or longer for the purchase of a primary residence. To the extent that participants leave the Company and default on their notes, the Company is required to process the outstanding balances as distributions from the Plan. Principal and interest is repaid ratably through payroll deductions or alternative methods.

Payment of Benefits: On termination of service due to death, disability, retirement or for any other reason, the participant or beneficiary may request a distribution equal to the value of the participant's vested interest in his or her account upon proper direction delivered to the Trustee. Distributions may only be made in the form of a lump sum payable to the participant or beneficiary or a rollover into another qualified retirement plan. A participant may also elect to receive in-service distributions under the Plan upon the attainment of age 59 ½. Hardship withdrawals of elective contributions are permitted.

Former participants in the Tarkett Alabama Inc. Retirement and Savings Plan who had pension assets transferred in to the Tarkett 401(k) Plan may elect to receive pension benefits in the form of a single life annuity or joint and 50% or 75% survivor annuity.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note 5 for discussion of fair value measurements.

The Plan has funds invested in the T. Rowe Price Stable Value Common Trust Fund B, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are treated as distributions based upon the terms of the plan document.

Benefit Payments: Benefit payments to participants are recorded when paid.

Administrative Expenses: As provided by the Plan agreement, administrative expenses related to the Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company. Loan origination fees are charged to the borrower/participant.

Income Taxes: GAAP require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to income tax examination by the U.S. Federal, state or local tax authorities for 2012.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements: In October 2012, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2012-04, *Technical Corrections and Improvements*. The amendments in the update cover a wide range of topics in the Accounting Standards Codification ("ASC"), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non-public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of ASU 2012-04 is not expected to have a material effect on subsequent periods.

Subsequent Events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2012) through October 15, 2013, which represents the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and for the year then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

** The fair value of the T. Rowe Price Stable Value Portfolio was \$6,371,294 as of December 31, 2012.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued based on NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Common stock and preferred stock: The fair value of investment securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker dealers. If listed prices or quotes are not available, fair value is based upon externally developed models that are unobservable inputs due to the limited market activity of the instrument.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Assets at Fair Value at December 31, 2012			
	Level 1	Level 2	Level 3	Total
Registered investment companies:				
Small-cap	\$ 2,613,150	\$ -	\$ -	\$ 2,613,150

Tarkett 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2012:

Investment	2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust:				
T. Rowe Price Stable Value Fund (a)	<u>\$ 6,371,293</u>	<u>\$ -</u>	Immediate	None

- (a) The objective of the stable value fund is to maximize current income while maintaining stability of principal, by investing primarily in guaranteed investment contracts, bank investment contracts, synthetic investment contracts and separate account contracts.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Level 3 Assets Stable Value Fund
Balance, beginning of year	\$ -
Transfers of assets into Plan	5,994,716
Interest and dividends	104,339
Purchases	878,696
Sales	(865,407)
Fees	(3,663)
Adjustment to fair value	<u>262,612</u>
Balance, end of year	<u>\$ 6,371,293</u>

Unrealized gains (losses) from the stable value fund are not included in the statement of changes in net assets available for benefits as the fund is recorded at contract value for purposes of net assets available for benefits.

Tarkett 401(k) Plan

Notes to Financial Statements

Note 6. Risks and Uncertainties

The Plan's assets are exposed to various risks such as credit, interest rate and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other assets in the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment transactions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Income Tax Status

The Plan adopted a Volume Submitter Defined Contribution Plan sponsored by Fidelity Management Trust Company with a cash or deferral arrangement. The Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Note 8. Party-in-Interest Transactions

Certain Plan investments are invested in funds managed by Fidelity Investments, an affiliate of the Plan's trustee, and therefore, qualify as party-in-interest transactions. In addition, the Plan offers loans to participants, which are secured by the balance in the participants' account. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses of maintaining the Plan are paid by the Company.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to amend, discontinue or terminate the Plan at any time subject to the provisions under ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
