Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Aran Eye Associates, PA 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. More complete information regarding items such as employee and employer contributions, eligibility, vesting, and benefit provisions, may be found in the Plan agreement. Participants should refer to the Plan agreement for a more complete description of the Plan's provision, which is available upon request.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements - To become eligible, participants must have completed 1,000 hours of service with the employer, Aran Eye Associates, PA (the "Company"). An employee must be the age of 21 to become eligible. Participants may enter the Plan as an active member on the earliest monthly date in which they become eligible.

Contributions - Participants may elect to make voluntary pre-tax contributions up to 100% of annual compensation including regular salary and wages, overtime pay, bonuses and commissions through payroll deductions. Such contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. Contributions are subject to certain limitations established by the Internal Revenue Service. The maximum pre-tax contribution for the year ended December 31, 2012 was $17,000.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution. For the 2012 Plan year, a maximum catch-up contribution of $5,500 was allowed.

The Plan allows for discretionary employer matching contributions of 25% for the year ended December 31, 2012.

Rollovers - The Plan accepts rollover contributions from other tax-qualified plans for those participants who choose to invest in the Plan.

Payment of Benefits - Participants may receive an amount equal to the value of their vested interest upon the termination of employment, death, disability or retirement. The form of payment is a lump sum distribution or in installments, or participants may have their account balance transferred to an individual retirement account or other qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting Percentage - Participants will become vested after completing 1,000 hours of service with the Company. Participants are then vested in their contributions, the employer matching contributions, and actual earnings thereon.

Forfeitures - Forfeited amounts are reallocated to participants in the same manner as employer contributions. At December 31, 2012, forfeited nonvested accounts totaled $303.

Death and Disability Provisions - Upon death and disability of participants, the accrued benefits will be paid to the beneficiaries as designated by the participants.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Investment Options - Upon enrollment in the Plan, a participant may direct their contributions to be vested in one or more of the investment options available to the Plan.

Notes Receivable from Participant - ASU No. 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest.

Participants can borrow a minimum of $1,000. The maximum amount of any loan is the lesser of: a) 50% of the Participant's Vested Account, reduced by any outstanding loan balance or b) $50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. Only one loan is approved in any twelve month period. Principal and interest are paid ratably through payroll deductions. The maximum term of any loan is 5 years. The loans are secured by 50% of the participant's vested account balance and bear interest at one point above the prime rate.

Notes receivable are considered to be in default when one or more of the following occur:

- failure to remit payment in a timely manner as required under the Basic Loan Agreement
- termination of employment
- breach of any of obligations or duties under the Basic Loan Agreement
- death
- disability
- attainment of Normal Retirement Age (age 65) as defined in the Plan

Concentration of Credit Risk - Concentration of credit risk with respect to notes receivable from participants is limited due to the note receivable being secured by 50% of the participant's vested account balance and the maximum loan amount allowed per the loan policy.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America. In September 2009, the Financial Accounting Standards Board ("FASB") implemented the Accounting Standards Codification ("ASC") which establishes FASB ASC as the source of authoritative U.S. accounting and reporting standards for nongovernmental entities. Presented below is a summary of significant accounting principles followed in the preparation of the accompanying financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's administrative expenses and commissions are paid by the Company.

Investment Valuation and Income Recognition - The Plan's investments in registered investment companies are stated at fair market value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales transactions are recorded on a trade date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sales proceeds and the cost of units sold. Investment income is recorded on the accrual basis.

Investment income consists of interest or dividend income, gains, and unrealized appreciation or depreciation in the market value of investments.

The Plan presents in the accompanying Statement of Changes in Net Assets available for Plan Benefits the net appreciation (depreciation) in the fair value of its investments in registered investment companies, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Risk and Uncertainties - The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit.

Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and statement of changes in net assets available for plan benefits.

NOTE 3 - INVESTMENTS

The following table lists those investments that represent 5% or more of the Plan's net assets at December 31, 2012 with the remaining investments grouped as other investments:

	2012
BlackRock Core Bond Inv C	$106,841

Ready Assets Prime Money Fund	301,971
Columbia Seligman Comms & Info C	43,060
Other Investments	86,010
	$715,281

NOTE 4 - TAX STATUS

The Plan is an adoption of the standardized prototype plan written by Paychex, Inc. The prototype sponsor received a favorable determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan, as then designated, was in compliance with applicable requirements of the Internal Revenue Code (the "IRC").

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

ASC 820 establishes a three-level valuation hierarchy for measurement and disclosure of fair value. The valuation hierarchy is based upon the transparency of inputs used to measure fair value. The three levels are as follows:

Level 1 - asset value is based on actual quoted prices in active markets for identical securities (mark-to-market).

Level 2 - other significant observable inputs are used to arrive at fair value (including yield, quality, coupon rate, maturity, issue type, quoted prices for similar securities, prepayment speeds, trading characteristics, etc.)

Level 3 - significant unobservable inputs (including management's own assumptions in determining the fair value of investments).

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2012 are reported in net appreciation (depreciation) in fair value of investments.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Aran Eye Associates, PA 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. More complete information regarding items such as employee and employer contributions, eligibility, vesting, and benefit provisions, may be found in the Plan agreement. Participants should refer to the Plan agreement for a more complete description of the Plan's provision, which is available upon request.

General - The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements - To become eligible, participants must have completed 1,000 hours of service with the employer, Aran Eye Associates, PA (the "Company"). An employee must be the age of 21 to become eligible. Participants may enter the Plan as an active member on the earliest monthly date in which they become eligible.

Contributions - Participants may elect to make voluntary pre-tax contributions up to 100% of annual compensation including regular salary and wages, overtime pay, bonuses and commissions through payroll deductions. Such contributions are excluded from the participant's taxable income for federal income tax purposes until received as a withdrawal or distribution from the Plan. Contributions are subject to certain limitations established by the Internal Revenue Service. The maximum pre-tax contribution for the year ended December 31, 2012 was $17,000.

The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make a catch-up contribution. For the 2012 Plan year, a maximum catch-up contribution of $5,500 was allowed.

The Plan allows for discretionary employer matching contributions of 25% for the year ended December 31, 2012.

Rollovers - The Plan accepts rollover contributions from other tax-qualified plans for those participants who choose to invest in the Plan.

Payment of Benefits - Participants may receive an amount equal to the value of their vested interest upon the termination of employment, death, disability or retirement. The form of payment is a lump sum distribution or in installments, or participants may have their account balance transferred to an individual retirement account or other qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting Percentage - Participants will become vested after completing 1,000 hours of service with the Company. Participants are then vested in their contributions, the employer matching contributions, and actual earnings thereon.

Forfeitures - Forfeited amounts are reallocated to participants in the same manner as employer contributions. At December 31, 2012, forfeited nonvested accounts totaled $303.

Death and Disability Provisions - Upon death and disability of participants, the accrued benefits will be paid to the beneficiaries as designated by the participants.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Investment Options - Upon enrollment in the Plan, a participant may direct their contributions to be vested in one or more of the investment options available to the Plan.

Notes Receivable from Participant - ASU No. 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest.

Participants can borrow a minimum of $1,000. The maximum amount of any loan is the lesser of: a) 50% of the Participant's Vested Account, reduced by any outstanding loan balance or b) $50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made. Only one loan is approved in any twelve month period. Principal and interest are paid ratably through payroll deductions. The maximum term of any loan is 5 years. The loans are secured by 50% of the participant's vested account balance and bear interest at one point above the prime rate.

Notes receivable are considered to be in default when one or more of the following occur:

- failure to remit payment in a timely manner as required under the Basic Loan Agreement
- termination of employment
- breach of any of obligations or duties under the Basic Loan Agreement
- death
- disability
- attainment of Normal Retirement Age (age 65) as defined in the Plan

Concentration of Credit Risk - Concentration of credit risk with respect to notes receivable from participants is limited due to the note receivable being secured by 50% of the participant's vested account balance and the maximum loan amount allowed per the loan policy.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America. In September 2009, the Financial Accounting Standards Board ("FASB") implemented the Accounting Standards Codification ("ASC") which establishes FASB ASC as the source of authoritative U.S. accounting and reporting standards for nongovernmental entities. Presented below is a summary of significant accounting principles followed in the preparation of the accompanying financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's administrative expenses and commissions are paid by the Company.

Investment Valuation and Income Recognition - The Plan's investments in registered investment companies are stated at fair market value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales transactions are recorded on a trade date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sales proceeds and the cost of units sold. Investment income is recorded on the accrual basis.

Investment income consists of interest or dividend income, gains, and unrealized appreciation or depreciation in the market value of investments.

The Plan presents in the accompanying Statement of Changes in Net Assets available for Plan Benefits the net appreciation (depreciation) in the fair value of its investments in registered investment companies, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Risk and Uncertainties - The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit.

Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and statement of changes in net assets available for plan benefits.

NOTE 3 - INVESTMENTS

The following table lists those investments that represent 5% or more of the Plan's net assets at December 31, 2012 with the remaining investments grouped as other investments:

Ready Assets Prime Money Fund	301,971
Columbia Seligman Comms & Info C	43,060

The prototype sponsor received a favorable determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan, as then designated, was in compliance with applicable requirements of the Internal Revenue Code (the "IRC").

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

ASC 820 establishes a three-level valuation hierarchy for measurement and disclosure of fair value. The valuation hierarchy is based upon the transparency of inputs used to measure fair value. The three levels are as follows:

Level 1 - asset value is based on actual quoted prices in active markets for identical securities (mark-to-market).

Level 2 - other significant observable inputs are used to arrive at fair value (including yield, quality, coupon rate, maturity, issue type, quoted prices for similar securities, prepayment speeds, trading characteristics, etc.)

Level 3 - significant unobservable inputs (including management's own assumptions in determining the fair value of investments).

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2012 are reported in net appreciation (depreciation) in fair value of investments.
