OPRW 401(K) PLAN

Notes to Financial Statements

December 31, 2012 and 2011

1. **Description of the Plan**

The following brief description of the OPRW 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement and summary plan description for more complete information.

The Plan is a deferred salary plan formed on January 1, 1989 for the employees of the OPRW. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA) and all requirements of Sections 401(a) and 401(k) of the Internal Revenue Code.

The purpose of the Plan is to provide retirement and other related benefits for participants and beneficiaries.

Participation
Employees of the Company are eligible to participate in the Plan if they are 18 and may enroll the first day of the month after that age is reached.

Contributions
The Plan provides that participants may elect to contribute through before-tax 401(k) salary deferrals of 1% to 100% of annual compensation (as defined) up to the annual maximum IRS limit ($17,000 in 2012, except for participants age 50 or older who may contribute $22,500).

The Company may, but is not required to, make matching contributions based on a discretionary amount or percentage of employee compensation (the Company made $117,486 of matching contributions in 2012).

In addition, the Company may make discretionary profit sharing contributions based on employee compensation factors. The Company elected not to make such contributions in 2012.

Participant's Account
Each participant's account is credited with the participant's contributions and account earnings. A separate account is maintained for each employee, which shall reflect the proportional interest of each employee in the Plan based upon the contributions paid in on their behalf, together with their share in the profits and losses of the Plan.

1. **Description of the Plan (continued)**

Vesting
Participants are fully vested in all employee contributions made to the Plan (including rollovers from previous employers). The matching and discretionary (profit sharing) contributions made by the Company are subject to a five-year vesting schedule based upon the participant's years of service.

Forfeitures
Any forfeitures of employer contributions due to a participant's withdrawal from the Plan prior to being 100% vested may be applied to pay Plan administrative expenses and then to fund employer contributions. Forfeitures are to be applied in the year after they occur.

Notes Receivable - Loans to Participants
Participants may borrow an amount not exceeding 50% of the fair value of their vested account balance up to $50,000. The notes receivable for the loans are secured by the participant's vested balance. The participant loans are repayable with interest (at a rate set by the Plan Administrator) at the date of the loan over a term not exceeding five years, unless the loan is used to acquire a dwelling unit that will be used as the principal residence of the participant. Loan payments must be made by employee payroll deductions each pay period. Outstanding loans at December 31, 2012 carry interest rates ranging from 4.25% to 9.25%.

Payment of Benefits
On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or ratable monthly installment over any fixed period not exceeding your (or your beneficiary's) remaining life expectancy.

Administration, Trustee and Custodian
The Plan's Administrator is the Company. Investments are held by the trustee Orchard Trust Company LLC., Great-West Life & Annuity Insurance Company ("Great-West") is contracted with to keep the records for the Plan and is responsible for administration of the Plan and as the contract administrator has discretionary authority to construe the terms of the Plan and make determinations on questions that may affect the eligibility for benefits.

2. Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements and the supplemental schedule on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Income is recognized based on cash receipts received, expenses are recorded based on cash disbursements paid and investments are recorded at fair value. This is an accounting method permitted under DOL regulations in preparing the Plan's financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Risks and Uncertainties

Participants are allowed to invest in investment vehicles may include mutual funds. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in risks in the near term would materially affect the participants' account balances and the amount reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. **Significant Accounting Policies (continued)**

Recent Accounting Pronouncements
In May 2011, the Financial Accounting Standards Board issued Accounting Standard Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04).* ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011.

3. **Fair Value Measurements**

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value of investments.

3. **Fair Value Measurements (continued)**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measurement. There have been no changes in methodologies used at December 31, 2012.

Group Annuity Contract (General Investment Account): As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Company has determined that the Plan's investment in the group annuity contract is fully benefit-responsive and thus has been recorded at contract value on the financial statements. Contract value ("book value") represents contributions plus credited interest less participant withdrawals and fees. The Company has also determined that the fair value for the contract approximates contract value and has thus been disclosed in the financials under the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value $9,116,958 as of December 31, 2012:

Mutual Funds Level 1: $7,209,196
(Bond Funds $865,104, Growth Funds $2,379,065, Value Funds $1,153,471, Blend funds $2,811,586)

Group Annuity Contracts: Level 3: $1,907,76

3. **Fair Value Measurements (continued)**

The following table sets forth a summary of changes in the fair value of the plan's Level 3 assets for the year ended December 31, 2012:

Total gains or losses for the period attributable to interest earned relating to assets still held at the reporting date	$ 33,103

4. **Investments**

4. **Investments (continued)**

During 2012, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Net appreciation- mutual funds and gains	**$ 533,352**

5. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. **Information Prepared and Certified by Trustee**

Orchard Trust Company LLC, the Plan trustee, in accordance with Section 2520.138-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA of 1974, certified the following information used in preparation of the accompanying financial statements and the supplemental schedule are complete and accurate:

a) Current fair market value of assets at December 31, 2012 and 2011. The group annuity contract measured at contract value.

b) Income and expense transactions entered into by the Plan for the year ended December 31, 2012.

7. **Tax Status of the Plan**

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan, a prototype nonstandardized plan developed by Great-West Trust Company designed in accordance with applicable sections of the Internal Revenue Code. However, the Plan administrator believes that the Plan is currently designed and operating in compliance with the applicable requirements of the Internal Revenue Code and that there are no uncertain tax positions. Therefore, the Plan's net investment income is exempt from income taxes and no provision for income taxes has been included in the Plan's financial statements.

7. **Tax Status of the Plan (continued)**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of December 31, 2012. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

8. **Affiliated Party Transactions**

Certain Plan investments are managed by the contract administrator of the Plan. Great-West is a party-in-interest as defined by ERISA. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest. Such transactions while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

9. **Subsequent Events**

The Company's management determined that there are no material events that occurred subsequent to the statement of net assets available for benefits date of December 31, 2012 and through October 15, 2013, the date of this report, that would require adjustment to, or disclosure in, the Plan's financial statements.
