NOTES TO FINANCIAL STATEMENTS

AUTOMOBILE PROTECTION CORPORATION 401(k) PLAN

December 31, 2012

NOTE A--DESCRIPTION OF PLAN

The following description of the Automobile Protection Corporation 401(k) Plan ("the Plan"), as amended and restated, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a single employer defined contribution plan covering substantially all employees of Automobile Protection Corporation ("the Employer" and "Plan Administrator"). Eligibility requirements include a minimum age of twenty-one years for employee deferrals. Participants are eligible to participate in the profit-sharing component of the Plan if they have met the above eligibility requirement and have been employed by the Employer for six consecutive months. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions: Plan participants can make pre-tax contributions from their compensation, not to exceed the Federal statutory maximum. The Plan includes an automatic salary deferral feature. The Employer automatically withholds 3% of the employee's compensation as an employee elective contribution. The deferral rate automatically increases by 1% per year to a maximum of 6% unless changed by the participant. Employees that have been automatically enrolled may request a refund on such deferrals within 90 days of the first payroll in which the compensation is deferred, may request no deferral of compensation, or may select an alternative deferral amount.

The Plan provides for a discretionary tax deferred contribution by the Employer, an employee elective contribution with an Employer Safe Harbor matching provision, and an Employer discretionary matching provision. The Employer Safe Harbor matching contribution was 100% of the first 1% of participant compensation deferred, and a further 50% on the next 5% of participant compensation deferred, up to the Internal Revenue Service limits, for the year ended December 31, 2012. The maximum effective Employer matching rate for a participating employee was 3.5% of participant compensation, except as limited by Internal Revenue Service requirements. The individual matching contribution is determined based on each payroll period. No additional discretionary contribution was made by the Employer during the year ended December 31, 2012.

Participant Accounts: Each participant's account is credited with their contributions, the Employer's matching contributions, their account's earnings or losses, and an allocation of any Employer discretionary contribution. Allocations of Employer discretionary contributions and any allocated forfeitures are based on participant compensation, as defined in the Plan articles. All investments of employee and employer contributions are participant directed. Participants may change their investment options daily.

NOTE A--DESCRIPTION OF PLAN--Continued

Vesting: Participants are immediately vested in their voluntary contributions and allocated earnings thereon. Employer safe harbor matching contributions and earnings thereon vest on a modified cliff vesting schedule of 0% for less than 1 year of service, 33% upon 1 year of service, and 100% upon 2 years of service. Employer discretionary and other matching contributions and earnings thereon vest on a three year vesting schedule at a rate of 33% per year of service. A participant becomes fully vested in the event of death, disability or normal retirement. Forfeited amounts related to Employer matching contributions can be used to reduce future Employer matching contributions to the Plan. Forfeited amounts related to Employer discretionary contributions can be used to reduce future Employer discretionary contributions.

Administration: The Plan is administered by the Employer. At December 31, 2012 and 2011, all funds in the Plan were held in trust by the Trustee, Prudential Bank & Trust, F.S.B. and Prudential Insurance Company of America (collectively, "Prudential"). Prudential invests participants' and Employer contributions, as directed by the participants, in a combination of a guaranteed income fund and equity and fixed income mutual funds.

Withdrawals: A participant may withdraw their tax deferred contribution plus earnings thereon and rollover contributions in the case of a financial hardship, subject to a minimum of \$1,000. Withdrawals are taxable in the year received by the participant and may be subject to a penalty tax. A participant may not make elective deferrals or other contributions for a period of six months following a hardship withdrawal.

Payment of Benefits: Upon a participant's termination of employment with the Employer, the participant is entitled to receive a distribution of their vested account balance. If the participant does not elect to receive a distribution, the vested balance will be distributed after the Employer's normal retirement age (65). If the participant dies prior to receiving their entire vested account balance, the balance will be paid to the participant's beneficiary or estate.

Participant Notes Receivable: Participants may borrow from their non-forfeitable accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their non-forfeitable account balance, whichever is less. The loans are secured by the balance in the participant's elective account and bear interest at a reasonable rate of interest determined by the Plan Administrator. At December 31, 2012, interest rates on outstanding participant notes receivable ranged from 3.25% to 8.25%.

AUTOMOBILE PROTECTION CORPORATION 401(k) PLAN

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan follows the Financial Accounting Standards Board Accounting Standards Codification as its sole source of authoritative guidance.

The financial statements for the Plan are prepared using the accrual basis of accounting.

The Plan's investments are stated at fair value, as further described in Note C. Investment securities are exposed to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is possible that changes in values of investment securities will occur and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Participant notes receivable are reported separately from Plan investments and recorded at their unpaid principal balance plus all accrued and unpaid interest.

Contributions are recorded on the accrual basis, which recognizes participants' contributions and the related Employer matching contributions at the time the participants' contributions are withheld from their salaries. Employer discretionary profit sharing contributions are recorded in the period recognized in the Employer's financial statements.

At December 31, 2012 and 2011, there were no net assets available for benefits which had been approved for payment that were not paid at year end. Benefits are recorded when paid.

Administrative expenses of the Plan are primarily paid for by the Employer.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent events have been evaluated through October 8, 2013, which is the date the financial statements were available to be issued.

NOTE C--FAIR VALUE MEASUREMENTS

Current accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the accounting guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Mutual funds: Valued at the quoted market price, which represents the net asset value of shares held by the Plan at year end.

Guaranteed income fund: Valued at fair value including interest at a contracted rate, as more fully described in Note E.

AUTOMOBILE PROTECTION CORPORATION 401(k) PLAN

NOTE C--FAIR VALUE MEASUREMENTS--Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE D--INVESTMENTS--Continued

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold during the year as well as held during the year) appreciated in value by \$743,320 as follows:

Mutual funds	<u>\$ 743,320</u>
--------------	-------------------

Gains and losses (realized and unrealized) included in changes in net assets for the year ended December 31, 2012 are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

NOTE E--GUARANTEED INCOME FUND

Investments in the guaranteed income fund are fully benefit-responsive and are stated at fair value, which is equal to contract value, in the accompanying statements of net assets available for plan benefits. Current accounting guidance requires the reporting of investment contracts that are fully benefit-responsive at fair value. Contract value of fully benefit-responsive investments equals contributions made under the contracts plus interest at the contract rate, less funds used to pay retirement benefits. There was no difference between the fair value and contract value of the Plan's fully benefit-responsive investment contract at December 31, 2012 and 2011. The contract interest rate for the guaranteed account is announced semiannually and is guaranteed against change for six-month periods. For the year ended December 31, 2011, the interest rate was guaranteed at 2.8% less an asset charge of 1.0% for a net rate of 1.8%. For the year ended December 31, 2012, the interest rate was guaranteed at 2.4% less an asset charge of 0.9% for a net rate of 1.5%.

NOTE F--TRANSACTIONS WITH PARTIES IN INTEREST

The Plan has an agreement with Prudential to maintain the investments of the Plan and to provide administrative and participant record keeping services for the Plan. For the year ended December 31, 2012, contributions to the Plan of \$1,353,130 were deposited with Prudential for investment, and participants of the Plan received distributions of \$921,714 from funds held by Prudential. At December 31, 2012 and 2011, respectively, the Plan had \$9,951,262 and \$8,666,050 of assets under Prudential's custody.

AUTOMOBILE PROTECTION CORPORATION 401(k) PLAN

NOTE G--TAX STATUS

The Plan is intended to satisfy the tax qualification requirements under Section 401(a) of the Internal Revenue Code ("IRC"); therefore, the funds of the Plan are intended to be exempt from Federal income taxes. The Plan has not requested a favorable determination letter from the Internal Revenue Service since the prototype on which the Plan is based has been determined to be qualified under Section 401(a) of the IRC. However, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

The Plan evaluates all significant tax positions as required by generally accepted accounting principles in the United States of America. As of December 31, 2012, the Plan does not believe that it has taken any tax positions that would require the recording of an income tax liability nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next twelve months. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H--PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

NOTE I--FORFEITED NON-VESTED ACCOUNTS

The Plan document, as amended, requires that all forfeited non-vested account balances will be used to offset the Employer's contributions. At December 31, 2012 and 2011, investments included forfeited accounts of \$13,625 and \$4,820, respectively. During the year ended December 31, 2012, the forfeiture account was utilized for Employer contributions totaling \$23,097.

NOTE J--RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

For the years ended December 31, 2012 and 2011, there were no significant differences between the financial statements and Internal Revenue Service Form 5500.
