MorningStar Senior Living Retirement Plan
Notes to Financial Statements
Years Ended December 31, 2012 and 2011

1. Description of Plan

The following description of the MorningStar Senior Living Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established January 1, 2007, covering all employees of the Company who have six months of service in any plan year and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan to a maximum of $17,000 in 2012 and $16,500 in 2011. Participants may also contribute amounts representing distributions from another qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. The Company may decide to make matching contributions and/or non-elective contributions to the Plan, although the Company is not required to contribute. The matching Company contribution is invested in the various options as directed by the participants. Additional amounts may be contributed at the option of the Company's management.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account or maintain the account balance in the Plan.

.

2. Summary of Significant Accounting Policies

Administrative Costs
The Plan sponsor pays the administrative cost charged by the asset custodian. Administrative costs were $275 and $650 for the years ended December 31, 2012 and 2011, respectively.

Participant Loans
A participant employed by the Company may borrow from the Plan the lesser of $50,000 or 50% of the value of their vested account balance. The minimum loan amount is $500. Loans are repaid in installments not to exceed 60 months (360 months for principal residence loans).

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

Forfeited Accounts
Nonvested forfeited accounts are used to reduce future matching employer contributions.

Date of Management's Review
Subsequent events were evaluated through October 15, 2013, which is the date the financial statements were available to be issued. No reportable subsequent events were identified.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $28,909 in 2012 and depreciated in value by $(3,672) in 2011. The appreciation of plan investments is attributable to changes in the value of the plan's investments.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Money market portfolio – These are valued using cost, which approximates fair value.

Mutual funds – These are valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

4. Fair Value Measurements (continued)

2012	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 312,299	$ -	$ -	$ 312,299
Total assets at fair value	$ 312,299	$ -	$ -	$ 312,299
2011	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual Funds	$ 234,916	$ -	$ -	$ 234,916
Total assets at fair value	$ 234,916	$ -	$ -	$ 234,916

5. Department of Labor Limited Scope Audit

The asset custodian has certified the value of the investment assets as of December 31, 2012 and 2011 and the related transactions and changes in values of investments for the 2012 and 2011 plan years. Therefore, the plan administrator has, in accordance with the Department of Labor's regulations, limited the scope of audit examination to data and transactions outside of the items certified by the custodian.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated November 6, 2001 that the plan prototype adopted by the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
