401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 DESCRIPTION OF PLAN

The following description of Capital Cargo International Airlines, Inc. 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective March 1, 1997. The Plan has been amended throughout the years to comply with tax legislation and was most recently amended effective February 1, 2010. The Plan was established by Capital Cargo International Airlines, Inc. (the Employer) covering substantially all employees of the Employer. Participants may make elective deferrals into the Plan immediately upon meeting the eligibility requirements of the Plan. Under the Plan, employees are eligible to participate on the 31st day after the day on which an hour of service is performed. The Plan, as amended, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 25% of their annual compensation, as defined by the Plan, subject to certain limitations under the Internal Revenue Code (IRC). Participants age 50 or older are allowed to make catch-up contributions. Participants are automatically enrolled in the Plan with a 4% pre-tax contribution, unless the participant elects some other deferral percentage or opts out of the Plan. The Plan includes an Employer match contribution equal to 25% of employee deferral contributions up to 4% of eligible compensation. The Employer may make periodic contributions to the Plan at the discretion of the Employer's Board of Directors. There were no discretionary contributions made during the years ended December 31, 2012 and 2011. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's.

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a money market fund as investment options for participants. Participants may change their investment elections at any time. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's salary deferral, the Employer's matching contribution, an allocation of the Employer's discretionary contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account. Allocations of Employer discretionary contributions are made to individual participants' accounts based on the ratio of each participant's compensation to the total compensation of all participants for that year.

401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after five years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Benefit Payments

Benefits under the Plan are payable upon retirement, death, disability or termination of service, and are based on the vested balance in the participant's account. Additionally, participants may make withdrawals from their vested accounts in cases of financial hardship. Distributions of vested account balances will be made in the form of a single lump-sum payment or in installments over a certain period of time. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Notes Receivable from Participants

Participants may, subject to certain conditions, borrow from their account, an amount not less than \$500. The maximum amount a participant is allowed to borrow is the lesser of 50% of the participant's vested balance, or \$50,000. Note principal and interest are repaid through payroll deductions. Notes are collateralized by a security interest in the borrower's vested account balance and are repayable over periods up to 5 years, unless the proceeds are used for the purchase of a primary residence, in which case the note must be repaid within a reasonable amount of time, as determined by the Plan administrator. Interest rates on participant notes are determined based on a reasonable rate of interest, approximating prevailing interest rates on bank notes of similar length of time and repayment terms. The interest rate on all notes outstanding as of December 31, 2012, ranged from 4.25% to 10.25%.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future Employer contributions. Forfeited non-vested accounts as of December 31, 2012 and 2011 were \$41,171 and \$24,487, respectively. There were \$0 of forfeitures used to reduce Employer contributions for the years ended December 31, 2012 and 2011.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2012 and 2011.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Following is a description of the valuation methodologies used for assets measured at fair value.

CAPITAL CARGO INTERNATIONAL AIRLINES, INC.
401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Mutual funds represent investments with various investment managers. The fair values of mutual funds are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value. The money market fund is valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

For the years ended December 31, 2012 and 2011, substantially all administrative expenses of the Plan were paid by the Employer on behalf of the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan documents.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 15, 2013, the date the financial statements were issued.

Subsequent to December 31, 2013, the Plan sponsor merged into an affiliated company.

During 2012 and 2011, the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated (depreciated) by \$533,440 and (\$276,360), respectively.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan provides for investment in a variety of investment funds. In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

CAPITAL CARGO INTERNATIONAL AIRLINES, INC.
401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 8 PLAN TAX STATUS

The Plan is operating under a prototype plan designed by the Trustee. The Trustee has received a determination letter from the Internal Revenue Service dated March 31, 2008, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the Trustee received the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by DWS Trust Company, the Trustee for the Plan, which qualify as party-in-interest transactions. The Plan paid administrative fees of \$3,545 and \$3,840 in 2012 and 2011, respectively.
