Note 1 – Description of plan

The following description of the Consolidated Trucking Services Retirement Plan (the Plan) provides only general information. Osterkamp Trucking, Inc. is the Plan Sponsor (the Plan Sponsor and Plan Administrator). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. The Plan was established by the Plan Sponsor to provide retirement income for its employees and is subject to the provisions of the Employee Retirement Security Act of 1974, as amended (ERISA).

Professional Plan Administrators has been contracted to serve as the recordkeeper of the Plan.

Effective August 2, 2012, assets of the Plan were transferred from one of the former Custodians of the Plan, Hartford Life Insurance Company (Hartford), to ADP Retirement Services (ADPRS). Effective December 13, 2012, assets of the Plan were transferred from another former Custodian of the Plan, Valic, to ADPRS.

Eligibility and participation

The Plan is a contributory plan covering all full time employees of the Plan Sponsor who have completed three months of service. Participants will be able to enter into the Plan on the earlier of the first day of Plan year or the first day of the Plan quarter following the date on which the above eligibility requirements are met.

Contributions

The Plan is a contributory plan whereby participants may contribute up 100% of compensation not to exceed the dollar limit set by law not to exceed $17,000 and $16,500 for December 31, 2012 and 2011, respectively. Participants age 50 or older may elect to defer up to an additional $5,500 of “catch up” contributions to the Plan for 2012 and 2011. The Plan Sponsor makes matching contributions of 35% of the employee’s compensation, not to exceed $1,500 or seventy percent of eligible earnings. For the years ended December 31, 2012 and 2011, the Plan Sponsor made matching contributions in the amount of $48,663 and $53,390, respectively.

Under provisions of the Plan, participants have the option to rollover contributions or any lump sum distribution received by an employee from a pension or profit sharing plan meeting the requirements of Internal Revenue Code Section 401(a).

Participant accounts

Each participant's account is credited with the participant's contributions, the Plan Sponsor’s contributions, and an allocation of Plan investments earnings. Each participant's account is decreased by investment losses and depreciation in the value of investments, as well as withdrawals, distributions, and fees from their account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Note 1 – Description of plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Vesting in employer contributions and earnings thereon, through August 3, 2012 with Hartford, is based on years of continuous service as follows:

YEARS OF SERVICE	VESTED PERCENTAGE
1	33.3%
2	66.7%
3	100%

Vesting in employer contributions and earnings thereon, effective August 3, 2012 with ADPRS, is based on years of continuous service as follows:

YEARS OF SERVICE	VESTED PERCENTAGE
Less than 3	0%
3 or more	100%

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 (with Hartford) or $500 (with ADPRS) up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 year to a maximum of 5 years (a maximum of 20 years if used to purchase participant's principal residence). The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Sponsor. Interest rates on participant loans ranged from 4.25% to 5.25% as of December 31, 2012 and 3.00% to 4.25% as of December 31, 2011. Principal and interest is paid ratably through payroll deductions or participant payments.

Payments of benefits

Upon retirement, death, disability, or termination of service, a participant is entitled to receive, as benefits, a lump sum amount equal to the value of his/her account, distributed in accordance with the Plan. Benefits provided under this plan are neither, insured or guaranteed by the Plan Sponsor, by the Pension Benefit Guarantee Corporation, a federal governmental agency, nor under any state or federal law.

Forfeitures

Forfeited balances of terminated participating non-vested accounts may be used to reduce Plan Sponsor contributions to the Plan. As of December 31, 2012 and 2011, forfeitures amounted to $4,212 and $3,369, respectively.

Administrative expenses

Officers and employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative and professional fees are generally paid by the Plan Sponsor. Plan administrative expenses are paid by the Plan Sponsor or the Plan, as provided in the Plan agreement. Fees paid by the Plan for certain administrative fees amounted to $2,258 and $3,090 for the years ended December 31, 2012 and 2011.

Note 2 – Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Sponsor to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The Plan Sponsor believes that the estimates utilized in preparing these financial statements are reasonable and prudent. Actual results could differ from these estimates.

Notes receivable from participants

Participant notes receivable are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant notes receivable is recorded when earned. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when incurred.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment options

Participants may self-direct employee and employer contributions into various investment options available for investment. The investment options include a mix of funds that invest in options from aggressive to conservative, international, aggressive growth, growth and income, bonds, funds and money market funds.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in the fair value of investments consists of both realized and unrealized gains and losses. Realized gains and losses are measured as the difference between the historical cost of investments sold or redeemed during the year and the proceeds received from their sale or redemption. Unrealized gains and losses are measured as the difference between cost and fair value at the beginning of the period and at the end of the period. Investment transactions are accounted for on a trade date basis.

Payment of benefits

Benefits are recorded when paid.

Note 2 – Summary of significant accounting policies (continued)

Subsequent events

Subsequent events have been evaluated by the Sponsor's management through October 15, 2013, the date these financial statements were available to be issued. No material subsequent events have occurred since December 31, 2012 that required recognition or additional disclosure in the current period financial statements.

Note 3 – Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the following fair value measurement.

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for financial instruments measured at fair value.

- *Registered investment companies:* The fair values of the registered investment companies are based on quoted market prices (Level 1 inputs).

- *Common/collective trusts:* The units of these common/collective trusts are not actively traded. Valued based on the aggregate fair value of the underlying assets (Level 2 inputs).

- *Pooled Separate Accounts:* The units of these pooled separate accounts are not actively traded. Valued based on the aggregate fair value of the underlying assets (Level 2 inputs).

- *Guaranteed investment account:* Investments in stable value funds are categorized as Level 2 and are valued based on model-based pricing methods, utilizing observable market data as inputs, and broker dealer bids or quotes for securities with similar characteristics (Level 2 inputs).

Note 3 – Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis for the year ended December 31, 2012:

Certain Plan administrative functions are executed by Professional Plan Administrators, Inc. the Plan's third party administrator. These transactions qualify as party-in-interest transactions. The Plan also holds notes receivable representing participant loans. These transactions also qualify as party-in-interest transactions. These transactions are exempt from prohibited transactions rules under ERISA.

Note 7 – Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the respective accounts of the participants under the Plan shall become fully vested and non-forfeitable.

Note 8 – Reconciliation of financial statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31, 2012:

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H Form 5500 for the year ended December 31, 2011:

Net assets available for benefits per the financial statements	$ 3,208,692
Excess contributions	24,196
Net assets per Schedule H of Form 5500	$,517,596

Note 9 – Prohibited transactions

During 2011, the Plan Sponsor agreed to stop deducting loan payments from an existing loan with a Highly Compensated Employee, which would, in effect could be considered, an impermissible in-service distribution. The Plan Sponsor is currently considering their options as to how to correct and rectify this transaction. As of our report date, no resolution of this transaction has been achieved. In addition, the costs or penalties that will arise as a result of this transaction has not been determined, however, should any be incurred, they will be borne by the Plan Sponsor.

Note 10 – Tax status

The Plan obtained its latest determination letter on January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended and restated since receiving the determination letter. However, the Plan Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken.

The Plan is subject to potential audits on open years by any jurisdiction in which it operates. The statute of limitations for federal purposes is generally three years.
