ADVENTURE TIME EXTENDED DAY CARE SAVINGS AND RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2011

NOTE A - PLAN DESCRIPTION

General

Adventure Time Extended Day Care Savings and Retirement Plan is a defined contribution profit sharing plan sponsored by Adventure Time Extended Day Care. The Plan became effective January 1, 1996, for the purpose of providing retirement benefits to eligible employees. Each participant directs his or her own investment in the various funding options.

Contributions

Participants may contribute to the Plan up to eighteen percent (18%) of compensation for the Plan year. For any plan year, a participant's contribution may not exceed a specific dollar amount determined annually by the Internal Revenue Service. The Sponsor may elect to make a discretionary matching contribution equal to a percentage of each participant's salary deferral contribution made for the Plan year. There may also be a special discretionary contribution equal to a percentage of each eligible participant's compensation. If such a contribution is made, the percentage contributes will be determined each year by the Sponsor.

Eligibility

Employees are eligible to participate if they have completed forty-five (45) days of service. After meeting this requirement, eligible employees may become participants on the first day of the next calendar quarter. Such an election will become effective as soon as administratively feasible

For a participant to qualify for the employer's matching contribution, he or she must have actively employed during the Plan year, regardless of the number of service hours credited for the Plan year. For a participant to qualify for the employer's special discretionary contribution, he or she must be actively employed on the last day of the Plan year or, if terminated, must be credited with more than five hundred (500) service hours. Neither employer contribution will be made in the year of the participant's death, disability, or retirement, regardless of service hours credited for the Plan year.

Vesting

Participants are immediately vested with respect to employee contribution amounts and Sponsor's special contribution amounts. Vesting with respect to employer-matching contributions is based on a graduated schedule beginning at twenty percent (20%) vesting after two (2) years of continuous service and becoming fully vested after six (6) years of service.

Normal retirement age under the Plan is the later date the participants attains age sixty-five (65) or the fifth anniversary of the first day of the Plan year in which the participant commenced participation in the Plan. Upon attaining normal retirement, or in the event of termination by reason of death or disability, the full value of the participant's account becomes fully vested.

The non-vested portion of terminated employees' accounts is forfeited. Forfeitures are reallocated to eligible participants in proportion to their share of employer matching contributions made for the Plan year. However, a portion of forfeited amounts will be used to reduce the Sponsor's contributions to the Plan.

Participant Accounts

Each active participant's account is credited with (a) individual contributions, (b) Plan earnings and/or losses, and (c) the Sponsor's contributions, if any. Allocations are principally based on the participant's compensation, or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Investment Options

The Plan invests in pooled separate accounts with Transamerica Life Insurance Company. The Plan has (23) different investment options in the deposit contract. Upon enrollment in the Plan, a participant may direct contributions in the following Transamerica Life Insurance Company investment options:

Aggressive Growth Funds - Four funds

Growth Funds - Six funds

Growth and Income Funds - Six funds

Balanced Funds - Two funds

Bond Funds - Four funds

Fixed Fund - Money Market Fund

A description of each fund is provided to participants by the Sponsor.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting.

Carrying Value of Investments

Investments are held in pooled separate accounts. These accounts are market-valued daily by Transamerica Life Insurance Company., and provide no guarantee of principal or investment return. Gains and losses on investments that were both bought and sold during the year are included in net appreciation (depreciation) in the fair value of the investments. Purchases and sales of securities are reflected on a trade-date basis.

Income Taxes

The Plan qualifies as exempt from federal income tax under provisions of the Internal Revenue Code.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE C- INVESTMENTS

In 1996, the Plan entered into a deposit contract with the Nationwide Life Insurance Company. In 1999, Transamerica Life Insurance Company began management of the accounts. Transamerica Life Insurance Company maintains the contributions in pooled separate accounts. The accounts are credited with earnings on underlying investments.

The following table presents the fair values of investments at December 31, 2010 and 2011. Investments that represent five percent (5%) or more of the Plan's net assets are separately identified.

NOTE D- FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB No. 157) establishes a framework for measuring fair market value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest to unobservable input (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

NOTE D-continued

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 –Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of observable inputs.

The following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in methodologies used at December 31, 2011 and 2010.

Common Stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at net asset value ("NAV") of shares held by the plan at year end.

Participant loans:: Valued at amortized cost, which approximated fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note D, continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair Value as December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011
