PRODUCTION SERVICES NETWORK U.S., INC. CRAFT RETIREMENT & SAVINGS PLAN

Notes to Financial Statements

January 15, 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Production Services Network U.S., Inc. Craft Retirement & Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution 401(k) Profit Sharing Plan. The Plan covered employees of PSN USA Holdings, Inc. (the "Employer") and Production Services Network International, Inc., and was available to all non-excluded employees of these companies. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 7, 2012, the Board of Directors of the Employer voted to merge the Plan into the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan. Effective January 1, 2013, all participants under the Plan became participants in the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan without a gap or lapse in coverage. All Plan assets were merged and transferred as of January 15, 2013.

Contributions

Participants could have made pretax contributions ranging from 1 percent to 50 percent of their compensation, as described in the plan document, as elective contributions up to the limits prescribed by the Internal Revenue Service ("IRS"), \$17,500 for 2013. The Plan also allowed for participants who are 50 years old or older to make catch-up contributions in the amount of \$5,500 for 2013. Participants could change their contribution percentages at any time and those changes would have been effective as soon as administratively feasible. Employees/participants were permitted to roll over amounts held in other qualified plans or individual retirement accounts ("IRA's") into the Plan, as specified in the plan document. Elective deferral contributions were 100 percent vested and non-forfeitable.

The Plan provided for discretionary employer matching contribution. The Employer could make matching contributions in an amount equal to 50 percent of elective deferral contributions that were not over 4 percent of compensation. Elective deferral contributions that were catch-up contributions were matched. Matching contributions were subject to the vesting percentage.

Eligibility

Employees were eligible to participate in the Plan upon completion of six months of entry service. Employees represented by a bargaining unit, nonresident aliens with no U.S. income, leased employees, independent contractors, highly compensated employees, those not employed as craft or contingent labor employees, and those covered under any other qualified pension or profit sharing plan to which the Employer contributes were not eligible to participate in the Plan.

Participant Accounts

Each participant's account was credited with the participant's contributions, Employer's contributions and Plan earnings. The benefit to which a participant was entitled was the benefit that was provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN - (CONTINUED)

Withdrawals

Withdrawals prior to the age of 59 1/2 were allowed only at termination of employment, on a hardship basis subject to Internal Revenue Service regulations, or for the purpose of a participant loan. In-service withdrawals were permitted upon attainment of age 59 1/2 subject to limitations under the Plan document.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, a participant could have elected to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum distribution.

Vesting

Participants were 100 percent vested in salary deferral contributions, rollover contributions, and prior balances transferred into the Plan. For purposes of Employer contributions, a participant's vesting percentage is shown in the following schedules:

Employer matching contributions:

<u>Vesting Service (years)</u>	<u>Vesting Percentage</u>
Less than 3	0
3 or more	100

Employer discretionary contributions:

<u>Vesting Service (years)</u>	<u>Vesting Percentage</u>
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Participants become 100 percent vested upon disability, death or the attainment of age 65. A year of service is defined as a period in which an employee had 1,000 or more hours of service.

Forfeited Accounts

At January 15, 2013 and December 31, 2012, forfeited non-vested accounts totaled \$-0-. During the period January 1, 2013 through January 15, 2013, the Plan utilized \$-0- of forfeited accounts to reduce employer contributions.

NOTE 1 - DESCRIPTION OF THE PLAN - (CONTINUED)

Investment Options

Participants in the Plan elected how their individual contributions and employer contributions were to be invested in 1 percent multiples in any of the various investment options under the Plan.

Allocation of Investment Income

The net earnings or loss of each fund, including capital gains or losses whether or not realized, were allocated to individual participant accounts in that fund based on the ratio that the value of each participant's account bears to the value of all accounts in that fund as of the valuation date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan's fully benefit-responsive investment contract is held in a single group annuity contract titled the Principal Fixed Income Option. The Statement of Changes in Net Assets Available for Benefits are prepared on the contract value basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan is sponsored by the Employer. Personnel within the Employer perform various administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as Plan expenses, but are paid by the Employer. Expenses paid by the Plan consist of loan processing fees, which are charged to the participant's account, Plan management fees, and Plan recordkeeping fees.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events Measurement Date

The Plan has monitored and evaluated any subsequent events for footnote disclosures or adjustments required in its financial statements for the period January 1, 2013 to January 15, 2013 through November 6, 2013, the date on which financial statements were available to be issued.

NOTE 3 - INVESTMENTS

Individual investments that represent 5 percent or more of the net assets available for benefits are as follows at December 31, 2012:

Principal Investors Lifetime 2030 Select Fund	\$	87,462
Principal Investors Lifetime 2020 Select Fund		66,796
Fixed Income Option 401(a)/(k)		31,387
S&P 500 Index Select Fund		19,189
Principal Investors Lifetime 2050 Select Fund		13,655

During the period January 1, 2013 through January 15, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value as follows:

Mutual funds	\$	<u>5,295</u>
--------------	----	--------------

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification* (“ASC”) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; |
| Level 2 | Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability; |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 15, 2013 or December 31, 2012.

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Benefit-Responsive Investment Contract: Valued at the contract value of assets held in the general account of Principal Life Insurance Company less surrender charges required under the contract. Contract value for the investment contract represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees. Fair value is contract value less early withdrawal charges, see Note 5.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS - (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012. All plan assets were transferred/merged into the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan as of January 15, 2013. There are no assets in the Plan as of January 15, 2013.

	Fair Value Measurements as of December 31, 2012

Total investments at fair value	<u>\$ 206,806</u>	<u>\$ -</u>	<u>\$ 31,387</u>	<u>\$ 238,193</u>

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets:

	<u>Benefit-Responsive Investment Contract</u>
Balance, January 1, 2013	\$ 31,387
Realized gains	31
Unrealized gains relating to instruments still held at the reporting date	-
Purchases, sales, issuances, transfers, and settlements (net)	<u>(31,418)</u>
Balance, January 15, 2013	<u>\$ -</u>

The total gains (both realized and unrealized) reported in the table above are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

NOTE 5 - BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Principal Fixed Income Option 401(a)(k) (the "Fixed Account") is a benefit responsive group annuity contract issued by Principal Life Insurance Company. The contract guarantees principal and provides a stated rate of return. The interest crediting rate is calculated under provisions specified in the contract and is reset semi-annually on January 1st and July 1st.

NOTE 5 - BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY -
(CONTINUED)

As a single group annuity contract with a fixed rate of interest, the average yield earned equals the interest rate credited to Plan participants, and is not calculated in relation to the fair value of any underlying assets. Changes in future interest crediting rates will have no effect on fair value calculations. Fair value is calculated at contract value less early withdrawal charges. The 2013 interest rate history for contract is as follows:

<u>Time Period</u>	<u>Rate</u>
January 1, 2013 through January 15, 2013	2.35%

Contract provisions detail events that would limit the Plan's ability to execute transactions at contract value. These provisions include a surrender fee of 5% of contract value for any transfers made in connection with the termination of the Plan's interest.

The Fixed Account is classified as fully benefit-responsive as of January 15, 2013 and December 31, 2012 and the fair value with an adjustment to contract value is reflected on the accompanying statements of net assets available for benefits. All balances in the Fixed Account were merged as of January 15, 2013.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including partial or complete Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 6 - PLAN TERMINATION/MERGER

On December 7, 2012, the Board of Directors of the Employer voted to merge the Plan into the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan. All Plan assets were merged and transferred as of January 15, 2013 subject to the provisions of ERISA.

NOTE 7 - TAX STATUS

The Plan was restated effective May 1, 2010 to include the statutory, regulatory and guidance changes specified in the 2009 Cumulative List of Changes in Plan Qualification Requirements contained in Internal Revenue Service Notice 2009-09. Although the Plan sponsor has not applied for a determination letter, it believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, the Plan sponsor believes that the Plan was qualified and the related trust was tax exempt as of January 15, 2013 and December 31, 2012. As such, no provision for income taxes has been included in the financial statements.

NOTE 7 - TAX STATUS - (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 15, 2013 and December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE 8 - PARTIES-IN-INTEREST AND PARTIES-IN-INTEREST TRANSACTIONS

Certain investments are managed by Principal. Principal is the trustee of the Plan assets therefore these transactions qualify as party-in-interest transactions.

NOTE 9 - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the Plan's trustee has certified the following data included in the accompanying financial statements as complete and accurate:

1. Page 3 – Statements of Net Assets Available for Benefits – Investments, at fair value and contract value
2. Page 4 – Statement of Changes in Net Assets Available for Benefits – Net investment income
3. All purchase and sales activity

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.
